Manhood; How Lost, How Restored.

JUST published, a new edition of Dr. Culverwell's Celebrated Essay on the *radical cure* (without medicine) of Spermatorrhœa, or Seminal Weakness, Involuntary Seminal Loses, Impotency, Mental and Physical Incapacity, Impediments to Marriage, etc.; also, Consumption, Epilepsy, and Fits, induced by self-indulgence or sexual extravagance,

Price, in a sealed envelope, only 6 cents.

The celebrated author, in this admirable essay, clearly demonstrates from a thirty years' successful practice, that the alarming consequences of self abuse may be radically cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure at once simple, certain, and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically.

This Lecture should be in the hands of every youth and every man in the land.

Sent, under seal, in a plain envelope, to any address, postpaid, on receipt of six cents, or two post stamps. Also, Dr. Culverwell's "Marriage Guide," price 25 cents. Address the publishers,

Bitter Cordial.

THIS medical preparation is now offered to the public as a reliable substitute for the many worthless compounds which now flood the market. It is purely vegetable, composed of various herbs, gathered from the great storehouse of nature, and selected with the utmost care. It is not recommended as a CURE ALL, but by its direct and salutary influence upon the Heart, Liver, Kidneys, Lungs, Stomach and Bowels, it acts both as a preventive and cure for many of the diseases to which those organs are subject. It is a reliable Family Medicine, and can be taken by either infant or adult with the same beneficial results. It is a certain prompt and speedy remedy for DIARRHŒA DYSENTERY, BOWEL COMPLAINT DYSPEPSIA, LOWNESS OF SPIRITS FAINTINGS, SICK-HEADACHE, &c. For CHILLS and FEVERS of all kinds, it is far better and safer than quinine, without any of its pernicious effects. It creates an appetite proves a powerful digester of food, and will counteract the effects of liquor in a few minutes

Terrible Storm at SEA!

All Hands near Being Lost, But Everything Turns up Right.

THE Steamer Highland Light, after a stormy night and a clear sky, and the wind blowing a gale, reached Annapolis harbor. But strange to say, though many were made awfully sick, not a soul was lost. All goods destined for Easton reached here safely about 11 o'clock next day, and created a terrible excitement on the "**Flats.**" Such a rushing of men, women and children, old and young, to the front doors, never was seen before. Windows were thrown up, heads put out, and a general inquiry made as to what had raised the excitement, when, lo! and behold! it was cart loads, and wagon loads, and dray loads of Goods destined or

Union Pacific Railroad.

UNION PACIFIC RAILROAD CO.,
AND
CENTRAL PACIFIC R. R., CO.
FIRST MORTGAGE BONDS.

This great interprise is approaching completion with a rapidity that astonishes the world. Over *fifteen* (1500) hundred miles have been built by two (2) powerful companies; the Union Pacific Railroad, beginning at Omaha, building west, and the Central Pacific Railroad, beginning at Sacramento, half hundred miles west, and the two roads shall meet. Less than two hundred and fifty miles remain to be built. The greater part of the interval is now graded, and it is reasonably expected that the through connection between San Francisco and New York will be completed by July 1.

As the amount of Government aid given to each is dependent upon the length of road each shall built, both companies are pressed in great efforts to secure the construction and control of what, when completed, will be one and the only grand Railroad Line connecting the Atlantic and Pacific coasts.

One Hundred and Ten Million Dollars in money have already been expended by the two powerful companies engaged in this great enterprise, and they will speedily complete the portion yet to be built. When the United States Government found it necessary to secure the construction of the Pacific Railroad, to develop and protect its own interest, it gave the companies authorized to build it such ample aid as should render its speedy completion beyond a doubt. The Government aid may be briefly summed up as follows—

1st. The right of way and all necessary timber and stone from public domain.

2d. It makes a donation of 12,800 acres of land to the mile, which, when the road is completed, will amount to twenty-three million acres, and all of it within twenty miles of the railroad.

3d. It loans the companies fifty million dollars, for which it takes a second lien.

The Government has already loaned the Union Pacific Railroad twenty-four million and fifty eight thousand dollars, and to the Central Pacific Railroad seventeen million six hundred and forty-eight thousand dollars, amounting in all to forty-one million seven hundred and six thousand dollars.

The companies are permitted to issue their own First Mortgage Bonds to the same amount as they receive from the United States, and no more. The companies have sold to permanent investors about forty million dollars of their First Mortgage Bonds. The companies have already paid in (including net earnings not divided, grants from State of California, and Sacramento city and San Francisco,) upwards of twenty-five million dollars of capital stock.

WHAT IS THERE YET TO BE DONE?

In considering this question it must be remembered that all the remaining iron to finish the road is contracted for, and the largest portion paid for and now delivered on the line of the Union Pacific Railroad and the Central Pacific Railroad, and that the grading is almost finished.

WHAT RESOURCES HAVE THE COMPANIES TO FINISH THE ROAD?

1st. They will receive from the Government as the road progresses about $9,000,000 additional.

2d. They can issue their own First Mortgage Bonds for about $9,000,000 additional.

3d. The companies now hold almost all the and they have up to this time received from the Government; upon the completion of the road they will have received in all 23,000,000 acres, which at $1.50 per acre would be worth $34,500,000.

In addition to the above the net earnings of the roads and additional capital, if necessary, could be called in to finish the road.

WAY BUSINESS—ACTUAL EARNINGS.

No one has ever expressed a doubt that as soon as the road is completed its through business will be abundantly profitable.

Gross earnings of the Union Pacific Railroad Company for *six months*, ending January 1st, 1869, were upwards of		$3,000,000
The earnings of the Central Pacific Railroad, for six months, ending Jan. 1st, 1869, were,		$1,750,000 gold
Expenses,	$550,000 gold,	
Interest,	450,000 "	
		$1,000,000 "
Net profit of Central Pacific Railroad, after paying all interest and expenses for six months,		$750,000 gold.

The present gross earnings of the Union and Central Pacific Railroads are $1,200,000 monthly.

HOW LARGE A BUSINESS IS IT SAFE TO PREDICT FOR THE GREAT PACIFIC RAILROAD?

We would give the following facts derived from Shipping Lists, Insurance Companies, Railroads, and general information

Ships going from the Atlantic around Cape Horn, 100,	80,000 tons,
Steamships connecting at Panama with California and China, 55,	120,000 "
Overland Trains, Stages, Horses, etc,	80,000 "

Here we have two hundred and thirty thousand tons carried westward, and experience has shown that in the last few years the return passengers from California have been nearly as numerous as those going.

HOW MANY PASSENGERS ARE THERE?

We make the following estimate—

110 Steamships (both ways)	70,000 (actual for '68.)	
200 Vessels "	4,000 estimated "	
Overland, "	100,000 " "	
Number per annum,	174,000	

Present price (averaging half the cost of the steamships,) for both passengers and tonage, gives the following result:

174,000 passengers at $100,	$17,400,000
460,000 tons, rated at $1 per cubic foot,	15,640,000
	$33,040,000

Basing calculations upon the above figures, without allowing for the large increase of business, which can safely be looked for, then estimate the running expenses at one half and we have a net income of $16,520,000; which, after paying the interest on the First Mortgage Bonds and the advances made by the Government, would leave a net annual income of $8,600,000 over and above all expenses and interest.

The First Mortgage Bonds of the Union Pacific Railroad Company and the First Mortgage Bonds of the Central Pacific Railroad Co., are both, principal and interest, payable in gold coin, and run for thirty years, and they cannot be paid before that time without the consent of the holder.

First Mortgage Gold Bonds of the Union Pacific Railroad bought and sold, and the First Mortgage Gold Bonds of Central Pacific Railroad at 103 and accrued interest.
