SAFETY EQUIPMENT

In addition to safety devices required by law, such as approved life preservers for everyone aboard, approved fire extinguisher and audible signaling device, the small boat owner would do well to consider having the following items aboard, suggest the Mercury outboard boating experts: anchor and line, bailing device, compass, distress signals, flashlight, first-aid kit and mooring lines.

READERS SAY

BALTIMORE —The other day, your Jan column advised a 16-year-old girl to forget about a boy if she wasn't sure he liked her. I think your Jan is very poor work — A.D. HUNT.

(Editor's Note: We stand corrected.).

THE TEMPTATIONS

BALTIMORE — I think the Temptations were wrong to drop their best singer.

They have a lot of nerve, secretly planning to put someone else in David Ruffin's place.

They are not my favorite should run a column to prosecute their action against David.

HEALTH

To Keep fun in vacation trips...

By SAMUEL L. ANDELMAN, M.D., M.P.H.
Chicago Commissioner of Health

Taking a vacation trip with your family in an automobile can be a lot of fun. However, with thousands of other families on the road, attention to the rules of safe driving are more necessary than ever before.

The cars that clutter up the roads in summer hold an estimated 17,500 persons who will be killed in traffic accidents.

You can avoid being a statistic by observing a few simple rules.

First, make sure your car is in good running order. Mechanical problems spoil your vacation at best and at worst can lead to a serious accident.

IF YOU have an impatient nature or feel that you have to beat your own record for speed, you should take the bus or train and rent a car when you get to your destination.

If you are traveling with children, it is especially important to drive at a leisurely pace with frequent stops.

Provide the children with quietly amusing things to do en route.

* * *

ABOVE ALL, insist that they avoid jumping around in the car while it is moving since this may not only result in injury to the child but also may distract the driver and cause him momentarily to lose control of the car.

Momentary loss of control is all you need for an accident.

Never travel in a convertible with the top down if there are children in your car.

If you start early in the morning, you can often get a couple of hours driving behind you before breakfast.

These are usually the most carefree hours of the day because traffic in the early hours is light.

If another driver can take the wheel alternating every hour or two, you can reduce the fatigue that is the underlying cause of many accidents.

Even with regular stops for rest and a snack, it is unwise to drive more than nine hours a day.

In any case, you should stop when you feel the slightest drowsiness.

Falling asleep at the wheel can sneak up on you and put you in the ditch or worse. Singing songs in unison while driving is an excellent way to stay awake and, incidentally, to stay alive.

PRAYER

We thank Thee Lord for the seekers, the inquirers, the searchers.

For they shall be rewarded like the wise men of the East.

Thy will find the Lord of they inquire with persistence, seek earnestly and search with diligence.

We thank Thee Lord for those who seek earnestly, who inquire with persistence, who search diligently. — AMEN

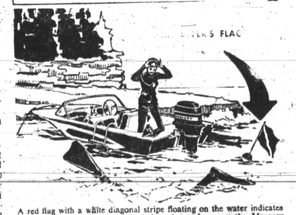
GLORIA LYNNE a one-time winner of the Down Beat Female Vocalist of the Year award is on the comeback trail after several years of near-inactivity. Even while she was no longer among the most widely publicized singer, her recording of "Watermelon Man" became a national hit. Her latest wax is "Down Here On The Ground", the theme from "Cool Hand Luke". It proves that Gloria is still one of the best singers in the world today. No one handles a lyric in so many beautiful ways as does Gloria Lynne.

Boating Tips...



A red flag with a white diagonal stripe floating on the water indicates that a skin diver is somewhere below the surface, say the Mercury boating authorities. It warns boaters to stay at least 100 feet away. Divers display a flag whenever there is boat traffic and often tow it with them as they change underwater locations.
