Every American should not only live in a decent home—but also have the chance to own it. Richard Nixon believes the best way to get this is not through more dollars from the federal government—but through more help from the business community and private builders. That's why he wants more programs like Senator Percy's housing plan which provides low cost loans to rebuild the ghettos and help the black man to become a home owner. The chance for children like Kathy to get into a decent home of their own depends on your vote.

GEORGE P. MAHONEY SPEAKS

Mahoney Accuses Opponents

BALTIMORE: Today George P. Mahoney accused both of his opponents of using out of State money to finance their campaigns. He accuses Senator Brewster of a conflict of interest in selling 3500 tickets to a $100 per ticket fund raising dinner to be held on October 30th at Pikesville Armory. The request for tickets was sent out on stationery called "Housewives for Brewster" and signed by a member of the Senator's office force. All checks were to be sent to Senator Brewster's Washington office. Mahoney is charging Senator Brewster of using his office in Washington by trying to sell tickets to representatives of businesses which his Senate committee has jurisdiction over. In Mr. Mahoney's opinion this is a direct conflict of interest, as everyone knows you cant serve two masters at one time, the taxpayers and the special interest groups.

As for Congressman McC. Mathias, who does he represent? Is it the citizens of Maryland or New York? On September 3rd Congressman Mathias on his preliminary financial report 7 days before the primary election listed a $10,000 campaign contribution from "The National Committee for an Effective Congress". This is an ultra liberal group located in New York. Is this a payoff to Mathias, for voting the way he has done against every law and order bill which has come before the Congress? Also another $5,000 was contributed by another New York organization called "Business-Industry Political Action Committee" located at 445 Madison Avenue, New York. It seems that New York is trying to run the affairs of the State of Maryland. I wonder why?
