Dental Society cites Dr. Bard

By DR. SIDNEY KOBRE

The Baltimore City Dental Society, has awarded Dr. Harry Bard president of the Community College of Baltimore an honor plaque for his educational contributions to the training of dental personnel and other workers in allied health fields at the school.

The college, under the leadership of Dr. Bard, has instituted a number of programs in dentistry, with students being trained as dental assistants or dental laboratory technicians.

CCB also offers programs in occupational therapy, X-Ray technician work, inhalation therapy, dental health and nursing along with other allied health programs.

For the young person or the adult who likes medical work, or enjoys working in the health fields, these are considered rewarding occupations.

The presentation to Dr. Bard was made by Dean John J. Salley, of the Dental School of the University of Maryland.

In making the presentation, Dr. Salley pointed to the various civic activities in which Dr. Bard was engaged actively, and praised his pioneering work in educational programs.

* * *

In his reply, upon receiving the award, Dr. Bard pointed to the cooperative assistance given by Drs. David Willer, Marvin Graham and Harry W. F. Dresell, Jr., who were on the committee of the Baltimore Dental Society.

The educator also acknowledged the help given in developing the program by the administration of the University of Maryland Dental School.

Dr. Bard told of the acute need for the educational program in the allied health professions and explained how CCB sought to develop a third program for dental hygienists.

CCB awards the Associate in Arts degree after two years of study in the dental laboratory and dental assistant programs, and it gives a certificate for its one-year program in dental assisting.

we care — A&P

"a bit more" is what makes our white bread better!

We're talking of course about Jane Parker White Bread.

We use a bit more milk than we have to, to give you a richer loaf.

We never use milk substitutes.

We use a bit more shortening than we have to, to give you a softer loaf . . . the way you like it.

We use a bit more sugar than we have to, to give Jane Parker more flavor.

We use a baking process that produces a velvety-soft, silky-textured slice . . . free of holes.

We pack it fresh from the oven to maintain its wholesome goodness.

We do one more thing that hardly anybody does.

We date our Jane Parker White Bread.

It's the only absolute guarantee of freshness you have . . . unless you bake your own.

And speaking of guarantees, we unconditionally guarantee you'll like it.

So, you see, we really do do "a bit more."

Since Jane Parker Bread is sold only at A&P, shouldn't A&P be your store?
