Listing sought of women's organizations

The Maryland Commission on the status of Women is attempting to compile a directory of women's organizations throughout the state.

The Commission was originally appointed by former Gov. J. Millard Tawes in 1965 and reappointed by former Gov. Spiro T. Agnew, in order to develop to the fullest extent the potential of the women of Maryland.

The Commission is to find ways and means of utilizing the womanpower of the state to the best advantage in the home and in the labor force.

The Commission is empowered to review the progress of, and make recommendations as needed for, the fullest development of the status of women in the area of possible discrimination against women in regard to political and civil rights, poperty rights, and treatment under the law.

Mrs. Jerome S. Cardin is the chairman of the Directory Committee. This directory is to be used to disseminate information to women's groups and to form the basis for a statewide conference to be held in the future.

All organizations of women that are interested in being listed in the directory should write to: Mrs. Cardin, 3624 Anton Farms Road, Baltimore, 21208.

Your new Social Security

To most persons who have had heavy doctor bills, getting a reimbursement of what is due from Medicare is very important.

Some have borrowed money to pay their medical bills, others have withdrawn from savings. Therefore, a claim for what Medicare is to pay needs to be easily accomplished and any money due must be returned as quickly as possible.

For these reasons, the reimbursement process has been designed to be as simple as possible so that people 65 or older will not be burdened with a lot of forms.

• • •

Mr. McBride, district manager of the local social security office in explaining the reimbursement procedure reminded persons covered by Medicare, that they are responsible for the first $50 of doctors' charges in a calendar year.

After the first $50, Medical Insurance will reimburse 80 percent of the expenses for doctors charges and other medical supplies incurred in the year. Not included as a reimbursement item are prescription drugs.

The form which Medicare eligibles must file for reimbursement is titled "Request for Medicare Payment" and is numbered SSA-1490. It was so designed that most persons can complete it without help.

If assistance is needed we are most happy to be of help. Mr. McBride, local manager reminded. Name, Medicare claim number, address, nature of illness and signature are all that are necessary to complete a claim.

• • •

To be attached are all receipts from doctors on supplies of covered medical items. The bills may be paid or unpaid when submitted.

If the $50 deductible has been satisfied, Medicare will make a payment of 80 percent of all expenses beyond the $50.00.

Of course if the $50 deductible has not been satisfied, the Medicare office will deduct $50 from the total amount submitted then mail a check for 80 percent of the balance.

Most Medicare claims in this area are paid in short order if the "Request for Medicare Payment" was fully completed, Mr. McBride said.

• • •

The social security office serving this area is at 1325 K Street, NW. Their telephone number is 763-5660.

Please telephone so that they may notify you if an office is located closer to your home. There are five smaller offices located in the Washington, D.C. area.

Good eye-sight week brings facts to area

"Surveys indicate that two out of three adults and 56 million children throughout the nation are handicapped by inefficient vision," according to Dr. Vernon Pennington, President of the Greater Baltimore Optometric Society.

The survey is part of the information being circulated for the 42nd annual observance of Save Your Vision Week, which begins March 2.

Plans for the observance are being handled by Dr. James Foland of Frederick, President of the Maryland Optometric Association.

The theme chosen for this year's 42nd annual observance of Save Your Vision Week is "Life is Worth Seeing — Your Vision is Worth Care." This message of visual importance will be carried to communities throughout the country through a concerted effort by State organizations and groups concerned with good vision.

The Save Your Vision Week observance, which was organized in 1927, has now become an annual tradition proclaimed by the President of the United States as a result of a joint resolution made by Congress.

Local plans for the observance of Save Your Vision Week includes visitations to schools by local optometists, billboard space prominently advertising the importance of good vision, special school contests conducted among elementary school children throughout

Morgan set to host guidance counselors

Some 100 guidance counselors from Baltimore City and Anne Arundel, Baltimore, Carroll, Harford and Howard Counties will visit Morgan State College in a four-day pilot project to further integration at the higher education level.

The high school counselors will spend either Feb. 25 or 26 or March 5 or 6 in the Hillin Road campus from 9:30 a.m. to 3 p.m. talking individually and in small groups with Morgan students and faculty members so that they can become more knowledgeable about the opportunities available at this 108 year-old college.

The project has been spearheaded by the Guidance Consultation Committee which is composed of counselors from Morgan and Towson State, the city and county schools, the State government and the United Campus Ministry Board.

This committee has been exploring new ways to achieve a greater degree of racial integration in the six state colleges with particular emphasis on the three in the metropolitan area-Morgan, Towson and Coppin.

President Martin Jenkins in announcing his support stated that "the hope is that the excellence of the Morgan campus and its programs will impress the counselors sufficiently to recommend Morgan to both black and white students."

State Superintendent of Schools James A. Sensenbaugh has invited the other school superintendents in the state to encourage their counselors to participate in this pilot program.

Counselors on the committee are Mrs. Carolyn Boston, Baltimore City; Miss Emma Williams, Baltimore County; and Miss Sarah Leiter and Miss Annabelle Ferguson of the State Department of Education and Andrew J. Callaghan and the Rev. Roy Jollenbeck of Morgan.

George Russell challenges aims of affluent

George L. Russell Jr., city solicitor, discussed problems and needs of Baltimore City at the Fellowship House on Tuesday evening.

The meeting was attended by the Lawyers Wives and their guests.

Some of the topics discussed were the impending sale of city properties, representation in the City Council, and problems the city encounters in handling the budget, labor disputes, zoning and poverty.

Mr. Russell challanged the affluent blacks of Baltimore to respond to the needs of the less fortunate through direct action.

Warning of growing feelings of hostility and bitterness directed against affluent blacks by those who are poverty-stricken, he gave the group suggestions to avert a crisis between the two groups.

Citing a recent Department of Health release on the extent of malnutrition in Baltimore City, he suggested that civil groups adopt schools in hard core poverty areas to implement programs to supplement diets and clothing.

A question and answer period followed the talk.

Mrs. Frank DCosta and Mrs. Charles Dorsey were hostesses for the meeting. Mrs. George Parrish is president of the group.

Talk on slavery

Clarence Gregory will deliver the second lecture of Park School's Black Culture series on Saturday, February 22, at 10 a.m. in the school cafeteria. His topic will be "Slavery."

Mr. Gregory is a history teacheer at Dunbar High School and a specialist in the history of Black American. He teaches a course on that subject at Baltimore Community College.

The lecture series is open to the public. Park School is located on Old Court Road one-quarter mile west of Falls Road.

Shamed by your English

"Many intelligent men and women are held back in their jobs and social lives because they use poor English or can't speak and write effectively," says Don Bolander, director of Career Institute.

"Adults who realize that their English is holding them back use our new home method to stop making embarrassing mistakes, to improve their writing, to increase their vocabularies, to speed up their reading, to acquire the techniques of fluent conversation. But the use of effective English pays off in unexpected ways," says Bolander, "because language is a tool of thought.

"You use words whenever you think. The more you learn about words and how to use them to form and express your ideas, the better your thinking—can lead to amazing personal achievements."

For interested readers of this newspaper, Bolander has made available a free 32-page booklet that tells how you can gain a command of good English, quickly and enjoyably at home. Just send your name, address and zip code on a postcard or letter to Don Bolander, Career Institute, Dept. 400-10, Mundelein, Illinois 60060. The booklet will be mailed promptly with no obligation.

NAG vows to continue to picket, fight bar

"Neither Rose nor Isadore Melinow live in the neighborhood. They make their living here in the day and return to suburbia at night, leaving us with the problems associated with a place like the Linden Lounge," so spoke an editorial in the Neighborhood Action Group's community newspaper NAG RAG, on January 28.

NAG, as the group headed by Roscoe Herring is known, has been trying for several months to block the transfer of three liquor licenses, Stuarts Spritz 909 W. North Ave. (The Linden Lounge) to 904-06-08 W. North Ave.

Thus far, all efforts have failed and the Liquor Board in a two-to-one verdict approved the transfer of the license on the grounds that the applications were "...necessary for public convenience and accommodation and in the public interest."

Joining NAG in the protest were the Brookfield Neighborhood Association, The Whitelock Neighborhood Club, the NAACP, The Department of Housing and Community Development, the Board of School Commissioners, the Mount Royal Improvement Association and Mr. Eugene Warren.

The Board of School Commissioners backed the primary complaint of all the parties, in line with their normal policy of registering protest against any type of liquor dispensing establishment being within 300 feet of any public school they stated in a letter of protest to the Liquor Board:

"904-06-08 W. North Avenue would be approximately 100 to 150 feet from the John Eager Howard Elementary School number 61. The present site of the bar is 272 from the school."

In 1968 the General Assembly enacted Chapter 756 (House Bill 1117) which added a new section to Article 2B of the Annotated Code of Maryland, Section 46(A) which provides "in Baltimore City, in the fourth legislative district, no new license, or removal of an existing license shall be granted to sell alcoholic beverages in any building located within three hundred (300) feet of the nearest point of the buildings of church or school, but the license of any person now holding a license for any building located within such distance of the buildings of a church or school may be renewed or extended for the same building."

This section shall not apply to any other legislative district of Baltimore City."

The Board ruled that because the Melinows already held two A Class licenses in the fourth district and that Stuart Sprit's A Class license was also within the same district the request for transfer did not constitute the issuance of a new license.

Therefore it ruled to grant the transfer.

NAG attorneys appealed the Boards ruling and on February 10, Judge Anselm Sodaro granted a petition to dismiss the appeal, on the grounds that the parties of NAG had not disputed the case before the Liquor Board therefore there was no dispute for his court to resolve.

"We will continue the fight," Director Herring said, "dispite the ruling by the Court.

"The community is against this and we are going to picket the establishment until we get some action.

"In fact we'll be out there this Sunday and we hope to have so many people we'll make them see that the community is more interested in the environment in which they educated their children than the convenience of a bar.
