Alternate Routes get hearing here

Joseph M. Axelrod, Chief of the Interstate Division for Baltimore City for the State Roads Commission advised that an informal public hearing will be held Tuesday, February 9, to study the alternate route locations for the proposed I-70N highway.

The meeting which is to be held at Gwynns Falls Junior High School, 125 N. Hilton Street, at 7 p.m. concerns the area from Hilton Parkway at Gwynns Falls to the Interchange of route 95 near the intersection of Georgetown Rd. and Spruce in the vicinity of the former Baltimore Union Stock Yards.

The proposed highway section is called segment 13 which will connect I-70N to Fredich with I-95 to Washington and New York. The segment will also facilitate connections between highways 95, 83, and 70N.

There are three plans proposed by the States Road Commission which involve differing housing, industrial, school and public park displacement plans.

The first plan labeled alternate 'A' displaces 12 industrial firms located south of Wilkins Avenue and will result in the loss of approximately 145 jobs in the area.

Plan 'A' also requires the displacement of the regular ration baseball diamond of the Lower Gwynns Falls Recreation Center situated between Frederick and Wilkins Avenues. No private homes will be moved in Plan 'A'.

Alternate plan 'B' is very similar to 'A', the basic difference being the location of the Gwynns Falls stream in relationship to the road.

• • •

Plan 'B' places the stream to the east of the highway thus making the highway closer to the Southwest High School Athletic Field.

Alternate plan 'C' however requires the displacement of 30 residential units on the eastern side of Wilkens Avenue thus requiring relocation of the homes.

There are only seven firms displaced in this plan including one retail commercial establishment and two industrial firms situated along the eastern ridge of the valley.

In plan C the planners have made provisions to relocate the displaced families in an area West of Franklintown Road and East of Ellicott Driveway Prat.

North of Segment 13, plans call for the extension of the highway up Hilton to Leakin Park. At Leakin, the plans show a sharp West turn into the park.

The homes that may be endangered by the highway are those located between Franklintown Road to the South and those near Leakin Park just above Edmondson Avenue.

Once into the park the highway heads directly for route 70N making an intersection for the route to Fredrick.

Of the three alternative plans, Plan B according to the Gwynns Falls Corridor Study seems to be the least expensive and least troublesome.

'A' requires rechanneling the Gwynns Falls Stream for a distance of 2,300 feet in order to make the stream flow on the West side of the valley and the highway be farther from the Southwest High School site.

'B' requires less altering but pushes the stream to the east separating it from the public lands. 'C' requires family displacement in addition to 3100 feet of stram and 5150 ft of rail line.

According to the Gwynns Falls Corridor Study, the determining factors that will decide the course of the highway will be: the amount of displacement; the ease and cost of constructing, and the environmental effects of the different highway systems.

Subsequent hearings on Segment 13 will be held February 16, 7 p.m., at Gwynns Falls Junior High and on February 18, at 7 p.m. at Cardinal Gibbons High School, Caton and Wilkens Avenues.

Persons or groups who wish to be heard must send their name, address and telephone number in writing to Interstate Division for Baltimore City, 1001 Cathedral St. 21201, attention Mr. Axelrod, not later than February 9th.

THREE PROPOSED routes for the I-70N Interchange: 'A' displaces 12 industrial firms 11 of which are located below Wilkins Ave. south.

Alternative 'B' moves highway 25 feet closer to Southwest High School athletic field and places Gwynns Falls Stream to the east of highwat.

Alternative 'C' requires the displacement of 30 homes located on the 3100 block of Wilkins Ave. plus seven commercial and industrial firms.

ONE OF MANY fires in the city during the near zero deep freeze this week was a house in the 500 block Bloom St. Since the Groundhog saw his shadow the day of the fire (Tuesday) Feb. 2, legend says bad winter weather will continue six more weeks. Records show Baltimore residents of the city's ancient row houses fall victim to fires while trying to keep warm in snow or cold snaps.

Officers nab holdup suspects within minutes

Andrew Panzer, of the 1100 block Pelmonwood Rd. told police shortly after 2 p.m. Saturday that he had just been held up, within minutes officers apprehended two men driving south on Pulaski Highway and recovered $1900 of the $2,944 which was stolen.

Three other men and $1,044 are still being sought in connection with the robbery.

Mr. Panzer told the police that as he entered The Garden Inn, located in the 5500 block Belair Rd. the five men (none of them armed) grabbed him and took the money.

They escaped in two automobiles, one of which Mr. Panzer described as a "dark green Chevrolet".

Those arrested in the car Johnson, 19, 227 Douglas Court and Rinnarris C. Flowers, 18, 212 Collington Ave.

Frank Grim a 54-year-old resident of the 4600 block York Rd. told police that two men walked into his [illegible] shortly after 6 a.m. [illegible] announced this is a hold up. Give me all the money you got".

Mr. Grim reported that he complied by handing over $150 in cash from his cash register. "and", he added, "he wanted all I had so I gave him the 68 cents I had in my pocket".

Greyhound pleased at Armour deal

NEW YORK CITY — The latest and biggest acquisition of Greyhound Corporation, Armour and Company, was the main subject of a speech given recently by Greyhound's chief executive, Gerald H. Trautman.

The Jan. 19 speech before the New York Society of Security Analysts concentrated on detailing the circumstances of the move, and pointing out its benefits to Greyhound.

"1970," Mr. Trautman stated, "was a good year from an earnings standpoint, despite depressed economic conditi s." He added that preliminary figures indicate Greyhound's 1970 earnings per share "will exceed 1969 earnings of $1.35 per share, after all carrying charges of our Armour investment."

Armour, which Greyhound assumed control of in mid-1970, likewise reported its best earnings "in the last 20 years." Armour's net after-tax profits in fiscal 1970, before extraordinary charges, come to $3.83 a share, "a very substantial contribution to Greyhound's per-share earnings."

Mr. Tautman summarized, "We are happy with our investment, and we are enthusiastic about Armour's prospects."

Sen. Bob Byrd says he is not 'anti-black'

WASHINGTON (UPI) — Sen. Robert C. Byrd, the new Assistant Democratic Senate leader, said Sunday he is not "anti-black" and that his "mistake" in joining the Ku Klux Klan 25 years ago was like the one being made now by youths who belong to radical groups.

But the West Virginia Democrat, who won his Senate post by ousting Sen. Edward M. Kennedy, D-Mass., from it, also said he did not regret calling the late Rev. Martin Luther King Jr. "a self-seeking rabble rouser," or voting against confirmation of Justice Thurgood Marshall, the first black member of the Supreme Court.

Byrd suggested that critics who fault him for opposing passage of the 1964 and 1965 Civil Rights Acts "need only to look at the record" to see that he voted for Civil-Rights legislation in 1957, 1960, 1962 and 1968 while employing blacks in his office and appointing them to the military academies.

"I think that the record will show that I am not anti-black American," he said. "I would have voted against Thurgood Marshall if he had been a white man.

"As to my advocacy of the spread of the Ku Klux Klan, my brief connection with the Klan was a quarter of a century ago and I believe that a lot of young people will look back 25 years from now upon their association with certain radical groups today as having been a mistake."
