DMV issues warning on fake licenses

Commissioner of Motor Vehicles, Elmer J. Johnson, has warned merchants, banks, and others who may use drivers' licenses for identification purposes, to be particularly cautious in accepting such identification since counterfeit Maryland licenses have been uncovered by a recent investigation.

Commissioner Johnson advised that these counterfeit licenses are easily detected since all recovered to date contain one of the following six control numbers: A1226313, A8263131, B014370, B0033745, B0037143 and B0043703.

This number appears on the reverse side of the driver's license and is used for DMV accounting purposes. Merchants should check this number before accepting a license for identification purposes and notify law enforcement officials if they find a license with one of these numbers, he said.

Commissioner Johnson added that although no license is counterfeit-proof, he has initiated a study to develop a license which will make counterfeiting more difficult.

HST's Quiet 87th

INDEPENDENCE, Mo. — While dignitaries from Missouri and both major political parties came to Independence, made speeches and fired off cannons, former president Harry S. Truman himself followed his daily routine of reading and relaxing for most of his 87th birthday.

He did receive two additional visitors Saturday at his Independence home — one of them a surprise guest. Minnesota Senator Hubert H. Humphrey paid a surprise minute visit shortly after Postmaster General Winton Blount chatted for a brief time with the 33rd President.

Revenue Shares 'Destructive'

By UPI

NASHVILLE, Tenn. — Wilbur D. Mills, D-Ark., said Monday President Nixon's revenue sharing plan has the potential for destroying the federal system, and he predicted Congress will not pass it.

In his strongest speech yet on Nixon's plan to give states and localities $5 billion without strings, Mills said in remarks to a joint session of the Tennessee legislature: It is very bad in principle. It would be capricious in its results. It assumes existence of a nonexistent surplus of revenues.
