Planning Council meetson several key issues

The Regional Planning Council holds its regular monthly meeting at 10 a.m. today (Friday) with a number of review and referral items scheduled for consideration at that time.

Baltimore City is seeking $1 million in state aid to acquire the 37-acre Bais Yaakov School for Girls in the Jones Falls Valley. The property would be used as the field headquarters for the Bureau of Recreation.

The city will also present engineering and design specifications for rehabilitating the Hanover St. Bridge over the Patapsco River. A similar upgrading has already been initiated for the bridge over the Middle Branch.

Baltimore County wants to construct a shelter building in Colgate Park. Plans and priorities of its private Community Action Agency will also be reviewed.

Howard County will have a report on its updated water and sewerage plan, as well as its revised general plan for the county. Carroll County is referring a project to purchase land for the Uniontown Road Park in Westminster.

The public is invited to attend this Friday's meeting to report on these and other matters slated for deliberation. Since it is sometimes necessary to alter the agenda at the last minute, be certain to telephone 383-5811 after 1 p.m. on the 21st to confirm these actions for those not able to attend.

Community College of Baltimore

The headlines tell us of the rapidly-rising prices of everything we wear, use and eat. It is difficult for the average family in Baltimore to keep pace with the spiraling cost of living.

Husbands and wives are all feeling what might be called "the pocket pinch."

"Realizing that they need more income for their families, many are enrolling in the summer courses at the Community College of Baltimore," said Director of Summer Sessions, Joseph S. Culotta. "These adults are preparing for better jobs—the more financially rewarding ones, which also give greater personal satisfaction."

Instead of letting the summer slip by, these men and women are signing up for the useful and profitable courses this summer, the educator pointed out in an interview for this publication. Other adults desire to widen their their educational backgrounds. The flexible programs at the Liberty Campus, Patterson Center and at the Police Academy, enable employed persons or homemakers to attend classes during the day or evening.

The summer courses are selected to suit every educational and occupational need. The facilities of the Bard Library are available, with its 48,000 volumes. Counselors are ready to give students advice on their educational future and careers.

The college has two summer sessions for your convenience. First one begins June 14 and ends July 16. The second session runs from July 21 through August 24. You can have both your education and vacation this summer. Mail the course - coupon and change the course of your life.

Select From 120 Professional, Business Courses at CCB

More than 120 courses to fit any occupational or cultural need are being offered in the summer sessions of the Community College of Baltimore.

Some students enroll for the business courses, studying introduction to business, business management, or accounting, marketing and business math. Others prefer the shorthand, typing and touch shorthand (machine stenography). Still others are attracted to data processing, assembly language programming and economics. Real estate principles are taught by an expert.

Do you need more science, then enroll in the general science, anatomy and physiology, botany or chemistry courses. Many adults need zoology, micro-biology or technical physics. Some are attracted to geology or oceanography or astronomy.

Those interested in engineering, may study in the survey course, or in the construction lab workshop, while others prefer to lean more about electrical fundamentals, transistor circuits or the mechanics of materials.

Many employees need more mathematics, hence CCB offers college algebra, trigonometry and calculus, technical and modern math.

Dental assisting, clinical practice appeal to some adults, while others enroll in the television workshop or law-enforcement courses. For a full list of useful courses, mail in the coupon today.

Cultural Courses

Many working adults, homemakers and college students, picking up extra credits during the summer, find CCB's general background courses stimulating and mind-stretching.

They enroll in courses in art, music, English composition, American, English and Afro-American literature. They increase their skills in public speaking.

A number of students study social sciences, history, government, sociology or psychology, aware of the need to learn about our polluted environment, other adults enroll in the world as an eco system and the geography course. Mail the coupon below for a full list of courses.

Job corps set for counties this summer

Summer jobs for 2,217 high school students in 21 Maryland school systems will be provided under the 1971 National Youth Corps summer program, the State Department of Education announced last week.

Job opportunities are limited to young people from low income families who are 14 to 21 years old. Pay is $1.60 an hour and enrollees may work up to 25 hours a week. The program begins June 6.

Typical employees work as aides in classrooms, offices, recreation centers, libraries, cafeterias, migrant centers, and laboratories. Others work in shops, parks, forests, health centers, and federal installations. Employers include both public and non-profit agencies.

Funds for the *Maryland program*, administered nationally by the *Department* of Labor, total $877,920, an increase of almost $200,000 over 1970. Student participation will be increased by 456 as a result of the increase in funds.

Purpose of the program is to provide financial aid to needy youths to encourage them to stay in school or return to school and to learn some work skills, according to Dr. George F. Crawford, state department of education specialist and state director of the NYC program.

Students interested in the program should speak to their high school counselors.

Exempt from the statewide program are Baltimore City, which administers its program separately, and Montgomery and Prince Georges counties, which are associated with Washington, D.C., in the youth program.

Baby contest held for scholarships

The members of the secretarial-clerical staff of the Department of Education sponsored a baby contest at Polytechnic Institute last Sunday in a scholarship drive.

Purpose was to permit secretarial-clerical employees to matriculate at the Community College of Baltimore for further training.

Grn. Th fathr is a shtran

First prize was won by Janelle Chevon Greene, the nine-month-old daughter of James and Mrs. Carlena Greene. The father is a public service sales representative, and Mrs. Greene is a secretary at School No. 18. Both attend Southern Baptist Church.

Second prize was won by Joseph McMorris 3rd, son of Joseph and Mrs. Beatrice McMorris, who was born on Easter Sunday last year.

The father is a machine coin operator, and Mrs. McMorris is a nurse at Spring Grove Hospital. Both are members of Shiloh Baptist Church, pastored by the Rev. Harold A. Carter.

Third prize went to Chilean McCoy Smith Jr., six-month-old son of Chilean and Mrs. Bessie Smith. Mr. Smith is a project engineer at Aberdeen Proving Ground, and Mrs. Smith is a teacher at School No. 149.

Both are members of Sweet Hope Free Baptist Church, where the Rev. John T. Crummundy is pastor.

The top prize winners reported $401.05, $260.01 and $208.61, respectively. There were 53 babies reporting.

The affair netted $3,564.32 for the scholarships.

Tormenting Rectal Itch Of Hemorrhoidal Tissues Promptly Relieved

(Gives Prompt, Temporary Relief from Such Burning Itch and Pain in Many Cases.

The burning itch and pain caused by infection and inflammation in hemorrhoidal tissues can cause much suffering. But there is an exclusive formulation that in many cases gives prompt relief for hours from this itch and pain so that the sufferer is more comfortable again. It also actually helps shrink swelling of hemorrhoidal tissues caused by inflammation and inf.tion.

Tests by doctors on hundreds of patients in New York City, Washington, D.C. and at a Midwest Medical Center reported similar successful results in many cases. This is the same medication you can buy at any drug counter under the name *Preparation H®*.

Preparation H also lubricates to protect the inflamed surface area and it doesn't sting or smart. In fact, it has very soothing qualities which make it especially helpful during the night when itching becomes more intense.

There's no other formula like Preparation H. In ointment and suppository form.

If you believe a great bourbon has to taste heavy, you believe a myth.

Because I. W. Harper doesn't taste heavy.
There's a very simple, but secret, reason in the recipe.
And it gives Harper a great bourbon flavor, without the heaviness bourbons had in the old days.
