PROPOSALS.

PROPOSALS
FOR MATERIALS FOR THE NAVY.

NAVY DEPARTMENT,
Bureau of Steam Engineering, July 10, 1864.

SEALED PROPOSALS to furnish materials for the navy for the fiscal year ending June 30, 1865, will be received at the Bureau of Steam Engineering, until 10 o'clock of the 12th day of August next, at which time the opening will be commenced.

Proposals must be endorsed "Proposals for Materials for the Navy," that they may be distinguished from other business letters, and directed to the Chief of the Bureau of Steam Engineering.

The materials and articles embraced in the classes named are particularly described in the printed schedules, any of which will be furnished to such as desire to offer, on application to the commandants of the respective yards, or to the navy agent nearest thereto, and those of all the yards upon application to the Bureau.

The division into classes being for the convenience of dealers in each, such classes only will be furnished as are actually required for bids. The commandant and navy agent for each station will, in addition to the schedule of classes of their own yards, have a copy of the schedules of the other yards, for examination only, from which may be judged whether it will be desirable to make application for any of the classes of those yards. All other things being equal, preference will be given to articles of American manufacture.

Offers must be made for the whole of the class at any yard upon one of the printed schedules, or in strict conformity therewith, or they will not be considered.

Upon application to the Bureau, to the Commandant of any yard, or to any Navy Agent, the form of offer, of guarantee, and other necessary information respecting the proposals will be furnished.

The contract will be awarded to the lowest bidder who gives proper guarantees, as required by the law of 19th August, 1846, the Navy Department reserving the right to reject the lowest bid, if deemed exorbitant.

The contracts will bear date the day the notification is given and deliveries can be demanded from that date.

Sureties in the full amount will be required to sign the contract, and their responsibility certified to by a United States district judge, United States district attorney, collector, or navy agent. As additional security, twenty per centum will be withheld from the amount of the bills until the contract shall have been completed; and eighty per centum of each bill, approved in triplicate by the commandants of the respective yards, will be paid by the navy agents at the points of delivery, in funds or certificates, at the option of the Government, within ten days after the warrant for the same shall have been passed by the Secretary of the Treasury.

The following are the classes required at the respective navy yards:

PROPOSALS.

PROPOSALS FOR BUILDING AND EQUIPPING TWO FIRST CLASS AND TWO SECOND CLASS LIGHT-VESSELS.

TREASURY DEPARTMENT,
OFFICE LIGHT-HOUSE BOARD,
Washington City, July 11th, 1864.

Separate sealed proposals will be received at this office until 12 m., on Saturday, the 13 h of August, 1864, for building and equipping two first class light vessels of the following dimensions:

Length from after side of stern post to the fore side of main stem, 98 feet; breadth of beam, moulded, 23 feet 6 inches; depth of hold from top of timber strake to top of beam, 11 feet; tonnage about 122.

Also for building and equipping two second class light-vessels of the following dimensions:

Length between perpendiculars, 81 feet 6 inches; breadth of beam, moulded, 21 feet 6 inches; depth of hold from top of timber strake to top of beam, 10 feet 6 inches; tonnage about 150.

The white oak to be of the best sea-coast timber, and the yellow pine of the finest grain untapped southern timber. The printed specifications by which the vessels are to be constructed, and which will, with the drawings and plans, be attached to and form a part of the contracts, can be had on application to the Light-house Board, or to the Light-house Inspector at Portland, Boston, New York, or Philadelphia, at which places, also, the plans and drawings may be seen and examined.

The Board reserves the right to reject any proposal, or to refuse to receive any vessel not built in strict conformity to the terms of the contract; and no contract will be considered binding until it shall have been approved by the Hon Secretary of the Treasury. No proposal will be received or considered, unless from persons engaged in ship building, and each offer must be accompanied by the signatures of two responsible persons as sureties for the faithful fulfilment of the contract.

Each vessel must be distinctly specified, with the sum for which the bidder proposes to build and equip her according to the drawings and specifications, and a copy of the printed specifications must be enclosed by each bidder, as evidence that there is no mistake as to the object of his proposal.

A drawing of the vessel contracted for will be furnished to the contractor, to which he will be required to adhere strictly; to this end the mould loft lines will be taken off and the mould examined by the superintending officer, who will be assigned to the duty by this Board, with the approval of the Secretary of the Treasury, and who will be required to see that the work executed and the materials used are in strict conformity to the terms and specifications of the contract, and who must certify to the same in writing, before the vessel will be received, and payments authorized to be made.

Persons making proposals to build any of these light-vessels may suggest any change or alterations by which the cost will be lessened, without using inferior materials, and in making such suggestions the precise character of the change or alteration will be named, with the amount saved thereby. The proposals for each vessel will state the time required to complete the vessel and deliver it to the agent of the Board at such place as may be agreed upon; the same to be named in the bid. All proposals must be sealed and endorsed "*Proposals for building Light vessels,*" and then enclosed in another envelope, and addressed to the Secretary of the Light-house Board, Washington, D. C.

No bid will be considered that does not conform to the requirements of this advertisement.

Any person submitting a proposal may be present, and witness the opening of the bids at the time and place herein before specified.

By order of the Light-house Board.

W. B. SHUBRICK,
Chairman.

SEQUEL TO THE HERMIT AND DUCK.

BY THE BARD OF MARBLE HALL.

Time rolled along like the brook by the door,
And the boy grew up to a man;
Now the Hermit had promised him often before
To take Him to Baltimore then.

So one morning when fell Indian summer's deep haze
O'er the forest all stripped of its leaves,
And the sun looked aloft like a world in a blaze,
And the wind gently moaned of its griefs;

The hermit and youth started Baltimoreward,
While the fresh-hearted youth in delight
Runs ahead and then back o'er the moss-covered sward,
Till he's weary and foot-sore at night.

The first thing they saw when they entered the street
Was a lady in full walking dress,
With a smile on her face most bewitchingly sweet,
That seemed lurking in each raven tress.

"What is that," said the youth, "'tis an angel I know,"
This is the inn! we've got there!! good luck!!!
"Now don't be a fool," said the hermit, "I trow
"*Your angel is only a duck.*"

'Oh! we'll take a *pair home*," said the youth with delight,
"Let me catch it and pat its sleek head,
What a quacker for a duck! as she screamed with affright,
What a quacker! he said as she fled.

The duck "in good order" "fell back" *very fast,*
And the youth still kept up the chase,
Till he reached *No. 40 West Baltimore street,*
And he now is "the Bard" of the place.

For you see the lady ran into MARBLE HALL to claim protection, and the youth followed in his INNOCENT pursuit. Messrs. SMITH BROS. saw the youth his mistake, and gave him a NEW SUIT OF CLOTHING to buy him off. He has since given up chasing ducks and goes to writing "Machine poetry" for Messrs SMITH BROS. & CO. MARBLE HALL, CLOTHING HOUSE, No. 40 WEST BALTIMORE St., who have the largest, best and cheapest stock of THOROUGHLY SEWED Ready Made Clothing in the city. Also a heavy stock of Piece Goods, which they make to order QUICKLY, NEATLY and DURABLY.

N. B.—My readers will naturally be anxious to ascertain the fate of the Hermit, but as I have not space to dispose of both heroes in one story, I must reserve that for my next. mh6-tf
