SENIOR MECHANICAL DESIGN ENGINEER
REVIEW AND ANALYSIS

Are you an agressive and versatile individual who has taken a complex mechanical product such as a line printer, document handling device or serial terminal printer from the conceptual stage through to final production?

If you are, we can offer you an extraordinary opportunity. Duties for this position are varied and include the conception and execution of complex mechanism designs including review and analysis.

A BSME is the minimal requirement.

ELECTRICAL DESIGN ENGINEERS

We also have several needs for electrical design engineers with a background in either computer logic and circuit design or software development for testing LSI PC assemblies. Minimal requirement is a BSEE plus related experience.

EVALUATION ENGINEERS

BS-MS in engineering with 5 years experience in product assurance plus a statistical capability. Duties include the assurance of effective planning, implementation and maintenance of plant QC programs in a multi-plant operation and assuring product performance levels through specification review, program development tracking, field follow planning and corrective action assurance.

If you are interested in any of the above.

Career Appointments for
Engineers, Physical Scientists

APPLIED PHYSICS LABORATORY
The Johns Hopkins University

The Applied Physics Laboratory, a division of The Johns Hopkins University, operates under contract with the Bureau of Naval Weapons. The development of the Navy's Terrier, Talos, and Tartar guided missiles, the development and fabrication of satellites for the Navy and NASA, and the test and evaluation of guided and ballistic missile systems are among its principal activities.

At the present time, the Laboratory has a number of interesting openings for electrical and mechanical engineers, physicists, and mathematicians interested in career opportunities. Specific openings include computer programming, thermal engineering, analog and digital circuit design, structural design and analysis, missile systems test and analysis, operations research, and production engineering (transit and rocket).

The Laboratory's principal locations are in Silver Spring to suburb of Washington, D. C.) and in Howard County, midway between Baltimore and Washington. These exceptionally complete facilities contain large-scale computers, well equipped laboratories, libraries and reference.

Address your inquiry to:
Mr. W. S. Kirby
