Dr. Patterson issues orders on drugs in local schools

Dr. Roland N. Patterson, superintendent of public instruction, has issued the following rules on the drug situation in schools.

In a letter to all principals and heads of Central Office Units, Dr. Patterson said:

1. "It is mandatory that all known drug users are brought to the attention of the school administration, except in those instances where there is a violation of the recent law passed by the Maryland Legislature, House Bill No. 455.

"The principal should ascertain that the concern is valid before making referral of the student to the Special Services Division. This action will be known as an Administrative Suspension.

* * *

"Principals should call Extension 2513 or Extension 421 for all such referrals. The Special Services Division will intercede with the proper agency for a medical evaluation and/or treatment. The Division will then recommend to the principal when the student should be reinstated in school.

2. "Students apprehended with drug paraphernalia, in the possession of narcotics, distributing or selling narcotics, should be immediately removed from the school environment and reported to the Police Department. The suspension will continue until some disposition of the case is made by the Police Department.

3. "Students suspected of illegal use of drugs should be thoroughly examined and the suspicion verified before any of the above action is taken."

NEW PROGRAM FOR THE UNSKILLED—With the promised participation of the construction industry, Community College of Baltimore will initiate a federally funded project to train unskilled minority Baltimoreans for trades in construction. Pictured are (L. to R.) Grover McCrea, project director; Elias Dorsey, training coordinator; Milton Dugger, dean of community services; Miss Laverne Wallace, project counselor; and Dr. Harry Bard, CCB president.

Gordon's: It's how the Merrie Olde English keep their gin up!

Let down on the crackling dryness of Gordon's Gin? Never! Every bottle is based on Mr. Gordon's original 1769 formula.) A fanatic devotion to our discoverer? Perhaps. But then, anything less wouldn't be the spirit of the season!
