Jenkins hits 125G with arm

CHICAGO (UPI)—Chicago Cubs pitcher Fergerson Jenkins will be paid more than 100 grand annually for the next two years under a new contract announced by the Cubs.

The lanky, Canadian-born Jenkins reportedly will be earning $125,000, but the Cubs refused to specify his precise salary, saying only he would earn "in excess of $100,000."

Jenkins, 28, thus becomes the highest paid Cub in history, moving ahead of teammate Billy Williams who became the Cubs' first $100,000 a year player last year.

His salary boost follows five seasons in which he has won 20 or more games. Last season, he compiled a 24-13 record and led the National League in victories, and received the Cy Young award.

The tall right-hander had an earned run average of 2.77 and led the league with 30 complete games and 325 innings pitched.

Jenkins' attorney from Montreal, David Schatin said Jenkins will be the subject of a one-hour film, to be financed by the Canadian government.

He said two books also will be written on Jenkins in the next year, one an autobiography and one an instructional manual on how to throw a baseball.

Class stars attracted to 5th CYO track meet

COLLEGE PARK—Two 1968 Olympic gold medalists who have been voted the National Invitational Meet's outstanding athletes for the past two years, return for the fifth annual competition at the University of Marland's Cole Field House tonight (Friday).

More than 400 athletes — men and women—have registered for the 33 events beginning at 7:30 o'clock.

Willie Davenport, unattached, who formerly raced for Southern University, and Lee Evans, also unattached, who formerly ran for San Jose State where he presently is an assistant track coach, both will be back.

Davenport, voted the world's No. 1 hurdler from 1965-60, has won the 60-yard high hurdles event in the NIT meet for the past three years and two years ago was voted the outstanding athlete after having equaled the world's indoor record while winning the 60-yard high hurdles.

Evans succeeded Davenport as the meet's outstanding athlete a year ago when he set a new world's indoor mark of 54.4 while scoring in the 500-yard run, but is moving up to 600 yards this year.

Both Davenport and Evans plan to compete in the 1972 Olympic Games.

They are two of nine world record holders who will make their bids in the National Invitational Meet sponsored jointly by the Catholic Youth Organization and the Maryland M Club Friday night.

Other notables in the world record setting class competing will be: Kjell Isaksson, Sweden, pole vault; Pat Matzdorf, University of Wisconsin, high jump; Ken Swenson, U.S. Army, and Tom VonRuden, Pacific Coast Club, 880-yard run, and Capt. Mel Pender, U.S. Army, 60-yard dash.

Interesting newcomers who will challenge Davenport as the latter seeks his fourth consecutive win in the CYO meet's 60-yard high hurdles are Rod Milburn, of Southern University, the world's No. 1 high hurdler, in 1971, and Tommy Hill, who achieved that honor the year previously before injuring a knee.

Milburn was a freshman at a time Davenport was a senior at Southern U., and ran fifth at a time Willie was equaling the world's record of 6.8 in the 60-yard high hurdles event at Cole two years ago.

NEW SCOREBOARD—The Civic Center new scoreboard went into operation at the Bullets basketball game on January 5. The ultra modern board, a $200,000 package, has the capability of keeping statistics for basketball, hockey, track and timing for all events where required. The dimensions of the board are 18 feet at the top which narrows down to 12 feet at the bottom. It weighs 6 tons and has approximately 10,700 light bulbs.

Morgan ends 1st half of season at JC State

JERSEY CITY — Coach Nat Frazier and his Morgan State College basketball team close out the first half of the 1971-72 campaign here tomorrow (Saturday) night against Jersey City State College.

The young tutor, in his first year as head coach of the Bears, would like to see his charges score their 11th win of 14 starts before going into the 2-week semester break.

Following the game here, the Bears will remain idle until Feb. 4, when they open a 3-game road trip.

* * *

The Bears are scheduled to oppose Allen University at Columbia, S.C., on Feb. 4, then move over to Orangeburg the next night for a Mid-Eastern Athletic Association contest with South Carolina State College.

The following Tuesday, Frazier leads his youngsters to Princess Anne, Md., for their first of two annual battles with Maryland, Eastern Shore.

* * *

Morgan ran her MEAC record for the year to 3-1 on Wednesday night, by defeating Delaware State for the second time. The 60-47 decision followed an early season victory over the Hornets at Dover.

A capacity crowd at Hurt gym watched as the Bears raced to a 15-2 lead in the first seven minutes and held Delaware to a pair of free throws.

They took a 34-22 halftime advantage, utilizing good outside shooting over the Hornet zone defense and themselves playing steady ball defensively.

Abdul Jabbar 'kareems' NBA

NEW YORK—Kareem Abdul-Jabbar of the Milwaukee Bucks leads in two key departments and is second in another in National Basketball Association statistics which explain why the Bucks are heavy favorites to win their second straight world championship.

League figures show that Abdul-Jabbar has scored 1,456 points in 43 games for a 33.9 average which puts him 6.2 points per game ahead of Bob Love of the Chicago Bulls. John Havlicek of Boston ranks third with 28.8 and Gail Goodrich of Los Angeles is fourth with 26.2.

Abdul-Jabbar also is the field goal percentage leader with 597-for-1,021 and a .585 mark and ranks seconds in rebounds with an average of 17.3 per game. Wilt Chamberlain of the Lakers is the leader in rebounds with an average of 19.8 per game.

Jack Marin of the Baltimore Bullets continues to lead in free throws with 200-for-223 and .897 while Jerry West of the Lakers leads in assists with an average of 9.7

Dudley is elected to head Scholar-Athlete Committee

Officials of the Quarterback Club of Baltimore, Inc. and the Greater Baltimore Chapter, National Football Foundation and Hall of Fame, have named Albert H. Dudley, Jr., chairman of the 1972 Scholar-Athlete Selection Committee.

The youngster chosen will be named at the ninth annual Scholar-Athlete Dinner to be held on February 16 at the Eastwin. Dudley, a prominent Baltimore physician, is a member of both sponsoring groups.

* * *

Other members of the selection committee include Herbert E. Armstrong, president of the Maryland Scholastic Association and business manager of the Baltimore Orioles; Herbert B. Williams, an official of the Mercantile-Safe Deposit and Trust Company; John L. Buckley, Jr., an executive with McCormick and Co.; Alexander Sotir, athletic director at the Gilman school; Dr. Ralph F. Hills, a Baltimore physician; Harry L. Lawrence, former football coach at Baltimore City College and Bucknell University and currently a Baltimore City educator; Roger B. Goss, president of the Quarterback Club; and H. William Hauversteed, Jr., an executive at Towson State College and president of the Greater Baltimore Chapter, National Football Foundation and Hall of Fame.

* * *

The annual dinner will honor 64 young men from high schools in Baltimore City and surrounding Anne Arundel, Baltimore, Howard, Carroll, Harford and Frederick Counties, both for their athletic abilities—particularly in football — and for their scholastic records and their achievements in school and community life.

One scholar-athlete will be named the recipient of a $2,500 scholarship to the college of his choice, the money being made available by the Quarterback Club.

TOUGALOO, Miss. — Lefroy Jackson, president of the Tougaloo College National Alumni Association, has named a committee to select an alumnus of the year and a vice president for the organization. On the panel are **Robert Smith, Theodore Jones, Betty Coleman, Henry Briggs, H. M. Thompson** and **Ernestine Holloway.**

Things Are Changing.

Change is constant. This law is as true in the affairs of men as in the world of nature around us.

But man's ability to think means that this change can be managed. We at Westinghouse have not only accepted the inevitability of change, but the challenge of managing change. The challenge of shaping change in technology to the common good. The challenge of moving into new markets. The challenge of being the leading edge in areas where change is swift and complete.

Westinghouse has accepted the challenge of adapting techniques used in our defense contracting business and related non-defense electronic systems to viable new areas. Already we have been successful in obtaining a number of contracts in the areas of nuclear instrumentation, security systems, mine rescue communications systems and work with the Federal Aviation Administration.

But, as an old saying has it, the more things change, the more they stay the same.

And so it is with our concern for community affairs. There has been no change in our active involvement with various activities that combine to promote progress and a higher standard of living for thousands of families.

As things continue to change for the better for the economy and the nation, you may be sure we will be exerting every effort to *manage* change—change for the better for Maryland, for you, for us.

An Equal Opportunity Employer

Westinghouse BALTIMORE DIVISIONS

CHANNEL 67 & BALTIMORE CITY

It is obvious that reception of WMPB, channel 67, is not uniform throughout the station's 50-mile signal radius, particularly in parts of Baltimore City.

The problem is that television signals — especially those on the UHF band (channels 14 through 83) — can be disturbed by obstacles between the transmitter and the viewer.

UHF transmission is almost line-of-sight, that is, the signal travels directly from transmitting antenna to receiver. Large obstacles in that path can obstruct the signal.

FCC Assignment

The Federal Communications Commission assigned channel 67 to Baltimore as a broadcasting station. It was not a requested number. In fact, for two years before channel 67 went on the air, the administrative staff of the Maryland Center for Public Broadcasting made every effort — legally and technically — to get the channel assignment lowered.

Power was boosted to 1,000,000 watts. Still, there are locations where the signal from WMPB does not make the impact it should.

Earlier this year, the Center commissioned a Washington-based consulting engineering firm to conduct an impartial electronic survey of channel 67's signal in Baltimore City.

The survey showed that about 35% of the city does not receive a usable signal from channel 67. That is the result of geography — the location of the WMPB transmitting tower and the contour of the Baltimore area.

There is a way to bring the same signal into Baltimore from another direction. A device called a translator can be installed at a high downtown location. This will enable many people who now receive channel 67 poorly or not at all to aim their UHF antennas in another direction for the same programming.

Translator Approved

The Federal Communications Commission has approved installation of a translator in downtown Baltimore. It will receive channel 67's signal, boost its strength, and retransmit it on channel 73.

The FCC approval was received just a few days ago. Technical design is now underway, and channel 73 will be on the air as soon as design, location and construction considerations permit.

The suggestions concerning channel 67's reception in Baltimore City, and the efforts of many city residents to extend our viewership are most appreciated. We are very happy to be able to proceed with the construction of the channel 73 translator to improve the reception of public television programs in Baltimore.

School bus barred on bias charge

CHARLESTON, S.C. — The Deer Park Baptist School has been barred from sending its bus onto Charleston Naval Base property because the school allegedly practices racial discrimination.

Every morning 45 students walk out the base gate where they board the bus.

The U.S. Navy Judge Advocate General's office notified the school last month that it is Navy policy not to allow segregated buses on Naval property. The Navy said Dec. 2 that the school would be given 30 days to comply with Navy policy or be barred from the base.

The Rev. J.M. Woods Jr., head of the Deer Park School, said the school refused to desegregate. Woods said that the Navy's policy, although not causing a hardship, is being unfairly applied against his school.

"There are others in the area which are still permitted to go on the base although they are guilty of the same sin as defined by the Navy policy," he said.

A Navy spokesman said the policy will be applied on a case-by-case basis with Navy authorities acting on complaints by families. A. Black enlisted man complained his child was not allowed to enter Deer Park School because of race.

What foe calls 'best fight' leaves champ Frazier cold

NEW ORLEANS—He tried to refrain from saying as much, but if what Terry Daniels calls his "best fight" is indeed that, Joe Frazier feels sorry for the kid.

Frazier, who makes his eighth title defense against Daniels Saturday night, watched Daniels win a 10-round decision over Manuel Ramos, the Mexican heavyweight champion, last July 26 in Houston's Astrodome. Frazier noted he saw the fight and then began apologizing for Daniels.

"Of course, you don't judge a fighter on one fight," said Frazier. "He may be better than that. Sometimes a guy has to fight different because of his opponent. I don't know if Daniels was at his best then or not."

Daniels, who has a 29-4-1 record since turning pro three years ago, said that was his finest fight.

"I derived the most confidence from it," Daniels said. "It was in front of a big crowd and it was a big fight for me."

Daniels, 25, son of a Willoughby, Ohio, millionaire, said he has a balanced punching attack and that he has the power to knock out Frazier. But he admitted that he had a better chance of winning if the fight goes 15 rounds.

"That means I've dodged a lot of left jabs," the 193-pound Daniels said. "If I get careless or thoughtless, I'm sure it'll be a rough fight."

Frazier, 28, will be after his 28th straight victory and 27th knockout in his unbeaten career. He plans to enter the ring at 206 or 207.

It will be a pound or two heavier than his last fight, his 15-round victory over Muhammad Ali for the undisputed heavyweight championship. Frazier said he needed the extra weight because of the heat in this city.

Counselor runs for Congress

GARY, Ind. — Henry T. Morgan, a counselor at Indiana University's Northwest Campus, has announced his candidacy for Rep. Ray J. Madden's First District congressional seat.

The former relocation director entered the race shortly after Mayor Richard G. Hatcher reaffirmed his disinterest in the post.

Morgas, 40, cited unemployment, social ills, environmental pollution, health care and the war in Southeast Asia as campaign issues. He has also worked for the Model Cities program and the Northwest Indiana Urban League.

Otis shares top KC Royals' award

KANSAS CITY, Mo. (UPI) — Centerfielder Amos Otis and shortstop Fred Patek, the base-stealing duo that sparked Kansas City to its best season, have been named co-winners of the first annual "Royals Player of the Year" award, it was announced Tuesday.

The two, whose 101 stolen bases were the highest output in the American League since 1917, were chosen to share the award by sports writers and broadcasters who covered the Royals in 1971.

Higgins' works to be featured

NEW YORK —The Winter 73 issue of Black Creation, the Black arts quarterly, will feaure an exclusive preview of Chester Higgins Jr.'s new book, The Black Child.

Higgins, a world renowned photographer, colaborated on his latest book with posfess Nikki Giovanni who wrote the text to combine with some excellent photographs of black children from around the world.

Higgins' previous book, The Black Women, was abest seller last year and confirmed his reputation as one of the leading photographers in the country.

Also featured with Higgins, in what will be a special look at black children in the winter issue of Black Creation, according to editor Fred Beauford, will be photographers Pat Davis, Wesley Waites, Willard Moore, Je and Omar Kharem.

N.C. schools comply with mixing rules

RALEIGH, N.C. (UPI) — All but one of North Carolina's 152 school systems are now in compliance with federal desegregation regulations, State Superintendent of Public Instruction Craig Phillips said recently.

Phillips said the one remaining school system, Edgecombe County, will complete the process by the next school year.

In a written year-end report distributed to news media, Phillips said also there is evidence to show that the schools are learning to deal with student disruption.

Phillips said there were 13 school closings because of student unrest in 1971, compared with 30 in 1970.

He credited the Human Relations Division within the department for calming the atmosphere. Philips said the division held special workshops during the year for more than a thousand school superintendents which dealt with recognizing trouble spots and dealing with them before they reached a crisis point.

Phillips said 683,413 Tar Heel children rode school buses during 1971 at a cost of $30.69 per child, or slightly more than three cents a mile.

One of the world's great tastes

There is always a best in every field. In cheeses there are many different great tastes. In Bourbon there's Old Forester. "There is nothing better in the market."

The shape of things to come.

Prediction
The Volkswagen Beetle will be around for years to come.
Prediction
Someone else somewhere will introduce a new economy car and there will be lots of excitement.
Prediction
The excitement will die down.
Prediction
As in the past, people who own old VWs will trade them in for new VWs because (we guess) they like VWs.
Prediction
Our engineers will continue to improve the way the car works and our stylists will continue to be frustrated.
Prediction
Sometime in 1972, the Beetle will become the most popular single model automobile ever made in the world, bypassing the Model T Ford with production of over 15 million vehicles.
Prediction
We won't let that last prediction go to our heads.
