Give to a needy family— pick one from this list

Happiness at Christmastide depends upon what you give, not what you receive.

For just a little bit of your thoughtfulness and kindness and time you can rest at ease as you enjoy the Yuletide. How can you help at least one of these families?

The AFRO's Mrs. Santa invites all readers to participate in her annual charity project.

Needy families are listed in this story by number. All you have to do to adopt a family is call the AFRO's Mrs. Santa at the AFRO office, 728-8200, daily from 9 a.m. to 5 p.m., and she will supply the name and address. Then, you take it from there and make the family— happy for Christmas.

CAUTION — Please do NOT call Mrs. Santa and ask for a family's name unless you plan to help them. Once Mrs. Santa has given a family's name and address out, she lists that card from her files.

IF YOU promise to adopt a family and fail to do so, some youngsters will have a very unhappy Christmas.

REMEMBER: If you do NOT have time to adopt a family, you can still help the AFRO's Mrs. Santa make others happy.

FAST, EFFICIENT BURNER SERVICE

The 1973 Chryslers and Plymouths. Every one of them comes with extra care in engineering.

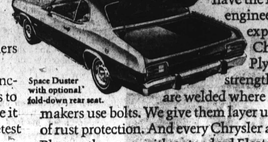
We built a lot of different kinds of cars for 1973. Chryslers, Furys, Satellites and Dusters. But as different as they are, they all have one thing in common. Something extra. The engineering care that goes into every Chrysler and Plymouth we make:

For example, there's something extra in the new Plymouth Satellite Sebring-Plus (shown below on the right). It's extra quiet. We not only did everything we could to make it good looking. We added new sound deaderners and silencers to make it the quietest Satellite we've ever built. We also redesigned the suspension system to give the Satellite a smoother, more comfortable ride than ever before. That's Satellite. It's built to be seen. Not heard.

1973 Plymouth Fury.

Our new Chrysler Newport (shown below on the left) is also newly designed and quieter than ever before. It's built to give you all the room and comfort you've always expected of a Chrysler. And, although you wouldn't know from looking at it, it's the lowest-priced Chrysler you can buy.

All our other cars (from our full-size Fury to our compact Duster) have the kind of engineering you'd expect from a Chrysler or a Plymouth. For strength, the bodies are welded where other car makers use bolts. We give them layer upon layer of rust protection. And every Chrysler and Plymouth comes with a standard Electronic Ignition System.



Space Duster with optional fold-down rear seat.

You can see all our new cars at your Chrysler-Plymouth dealer now. Choose one, test drive it. Find out how extra care in engineering can make a difference for you.
