BUY A TICKET!

Or as many as you want each week. Tickets for "TWIN-WIN" are 50¢ each. Each ticket is a chance to win $50,000 or other cash prizes EVERY WEEK and a chance of winning $1,000,000 ($50,000 a year for 20 years) in a MILLION DOLLAR PLAYOFF. There are thousands of Lottery Sales Agents in Maryland. Look for the official "TWIN-WIN" Lottery sign in the window. The more tickets you buy, the greater your chances of winning!

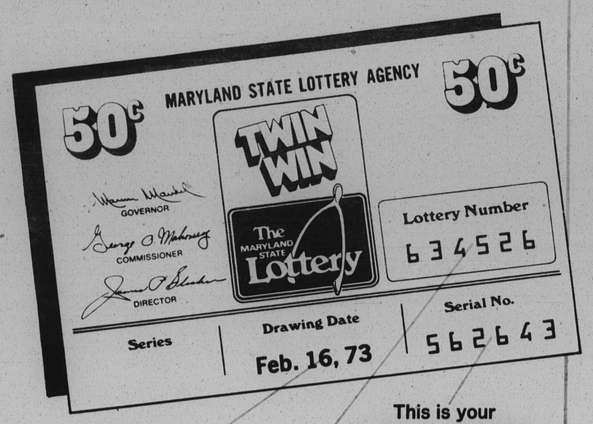
SIGN YOUR TICKET

Write your name on the back of your ticket. Now only you can collect if your ticket wins.

LOOK AT THE DRAWING DATE

This could be YOUR LUCKY DAY! On this date, the WEEKLY WINNING NUMBER will be announced. This number will be published in Maryland newspapers each week and posted by all Licensed Agents. NOTE: Tickets are valid for one week's drawing.

Check both the LOTTERY NUMBER and the SERIAL NUMBER of your ticket against the WINNING NUMBER drawn in the WEEKLY DRAWING for which your ticket is eligible.



This is the **DRAWING DATE.**

This is your **SERIAL NUMBER.**

This is your **LOTTERY NUMBER.**

WHAT TO DO IF YOU ARE A WINNER

If you are a cash winner in the weekly drawing, take your ticket to any Official Lottery Claim Center (complete list is available at all Lottery Sales Agents). DO NOT MAIL YOUR TICKET. After your ticket is validated, you will receive a check.

Winning tickets must be registered at a Lottery Claim Center within one year of the drawing date printed on the ticket in order to receive prizes.

IMPORTANT REMINDER:

If you have only the two right-hand digits in correct matching order, do not take the ticket to the Official Lottery Claim Center. KEEP YOUR TICKET. . . . It may become a prize winner in the MILLION DOLLAR PLAYOFF. It could still be worth a million dollars ($50,000 a year for 20 years).

HOW TO WIN TWO WAYS

WEEKLY DRAWING

TWIN WIN

1. EXACT NUMBER MATCH

Your ticket's LOTTERY NUMBER has six digits. So does the WEEKLY WINNING NUMBER. To find out if you are a winner, simply compare the two! For example: If the WEEKLY WINNING NUMBER is 634526, here are LOTTERY NUMBER combinations that win.

6	3	4	5	2	6	All six digits in exact order wins $50,000.
X	3	4	5	2	6	Last five digits in exact order wins $1,000.
X	X	4	5	2	6	Last four digits in exact order wins $100.
X	X	X	5	2	6	Last three digits in exact order wins $25.
X	X	X	X	2	6	Last two digits wins qualification into MILLION DOLLAR PLAYOFF.

NOTE: There may be several $50,000 winners each week (on the average one for every million tickets sold). "TWIN-WIN" guarantees at least one $50,000 winner each week.

All tickets having the last two digits in correct order qualify for "MILLION DOLLAR PLAYOFF"

2. SCRAMBLE WINNER

"TWIN-WIN" also enables you to win one weekly SCRAMBLE prize:
If all the digits in your LOTTERY NUMBER match the six-digit WINNING NUMBER in *any* order, you win $35
OR,
If all the digits of your SERIAL NUMBER match the six-digit WINNING NUMBER in *any* order, you win $35.

SCRAMBLE CHECK

On the sample WINNING NUMBER (634526) given here, 562643 would be one of the possible scramble matches. Try it this way. . . . Write the six-digit WINNING NUMBER and then *your* six-digit number (either LOTTERY or SERIAL NUMBER), and draw lines between matching digits to check if *you* have a winning match!

WINNING NUMBER

6	3	4	5	2	6

5	6	2	6	4	3

IT'S A SCRAMBLE MATCH!

HOW WINNING NUMBERS ARE SELECTED WEEKLY DRAWING

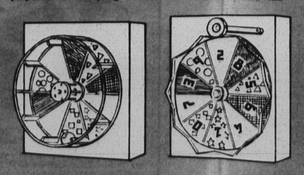
The drawing process used to pick the winning numbers has been carefully designed to assure a completely fair and unbiased selection of numbers.

All drawings are public events, and the mechanics of each step in the drawing are clearly visible to the audience.

At the weekly drawings two wheels are used in combination to select each digit of the winning six-digit number. This makes it impossible for anyone to control or anticipate the digit selected and assures a random selection of winning numbers.

The six digits for a WEEKLY WINNING NUMBER are selected one at a time beginning with the left-hand digit.*

*The last digit drawn is related to an official horse race for purposes of exempting winners from Federal excise tax.



WEEKLY DRAWING

6 3 4 5 2 6	Wins $50,000
X 3 4 5 2 6	Wins $1,000
X X 4 5 2 6	Wins $100
X X X 5 2 6	Wins $25
X X X X 2 6	Qualifies—Hold ticket for special drawing

Match any scramble of ↓

6 3 4 5 2 6

and win $35

How to tell if you qualify for the MILLION DOLLAR PLAYOFF

To qualify, the last two right-hand digits of your LOTTERY NUMBER must match those of the WEEKLY WINNING NUMBER drawn on the date for which your ticket is eligible.

If you have the correct matching numbers, you have a "qualified ticket." Congratulations! You're on your way toward the Million Dollar Playoff Drawing. The next step is the Preliminary Drawing.

THE PRELIMINARY DRAWING

The Preliminary Drawing in the Million Dollar Playoff applies only to the SERIAL NUMBER of your ticket. At the Preliminary Drawing, a special three-digit number is picked. This number determines the winners of over one thousand additional $100 prizes AND determines which ticket holders will go on to the Million Dollar Drawing event itself. The Million Dollar Playoffs will be held as often as the revenue from the sales of weekly tickets warrants the awarding of Million Dollar prizes.

HOW TO TELL IF YOU ARE A WINNER IN THE PRELIMINARY DRAWING

Serial No.

5 6 2 6 4 3

Corner of Ticket

Let's say, for example, the Special Number drawn is 6 4 3.

If only the last two right-hand digits of the SERIAL NUMBER on your "Qualified Ticket" match the last *two digits* of the PRELIMINARY DRAWING three-digit number, register your ticket and YOU WIN $100.

If the last three right-hand digits of the SERIAL NUMBER on your "Qualified Ticket" match the three-digit number exactly, register your ticket. You will be invited to participate in person in a MILLION DOLLAR DRAWING where you can win prizes up to a million dollars ($50,000 a year for 20 years). YOU WIN AT LEAST $500.

Ticket Drawing Date	2 Right-Hand Lottery Digits
JAN 12	47
JAN 19	69
JAN 26	13
FEB 2	92
FEB 9	05
FEB 16	26
PRELIMINARY DRAWING	
	643

3 Right-Hand Serial Digits

Note: If you have already turned in your ticket for a weekly cash prize, our computer will automatically examine it to see if it matches all or part of the special three-digit number. The $100 award will be forwarded automatically, and those eligible for the MILLION DOLLAR DRAWING will be invited to attend.

THE BIG ONE—The Million Dollar Drawing

The MILLION DOLLAR DRAWING is the climax of the Million Dollar Playoff

HERE'S WHAT YOU CAN WIN:

1st Prize . . . $1,000,000 . . . ($50,000 a year for 20 years)
2nd Prize . . . $ 100,000 . . . ($10,000 a year for 10 years)
3rd Prize . . . $ 10,000 . . .
4th Prize . . . $ 5,000 . . . (seven winners)

All other participants in the MILLION DOLLAR DRAWING win $500.

REMEMBER: **There are two requirements to become a participant in the MILLION DOLLAR DRAWING.**

REQUIREMENT 1
You must have a "qualified ticket" . . . that is, a ticket with the last two right-hand digits for the LOTTERY NUMBER matching those of the WEEKLY WINNING NUMBER drawn on the date of that ticket.

REQUIREMENT 2
Also, the last three right-hand digits of the SERIAL NUMBER on that "qualified ticket" must exactly match the three-digit number drawn at the PRELIMINARY DRAWING for which the ticket is eligible.

Once you have successfully passed these two requirements, bring your ticket to an Authorized Claim Center. You or your representative will take part in person at the Million Dollar Drawing.*

*Qualified tickets having the correct three digits matching all three digits of the Preliminary Drawing that are not registered in time will be deferred to a later Million Dollar Drawing Event.

HOW WINNERS ARE SELECTED AT THE MILLION DOLLAR DRAWING

Each participant puts his name in a hollow ball and places it in a big transparent sphere. Ten of these balls are then selected at random from this sphere and are placed on the Post Position Board in the order in which they were drawn. Each post position corresponds to the post position of a winning horse in an actual race. Then, three races and their winning positions are selected at random by use of a second rotating sphere which contains ten balls numbered 1, 2, 3, 4, 5, 6, 7, 8, 9, and 10, corresponding to the post positions shown on the Post Position Board. The first, second, and third races selected identify the first, second, and third place winners. The other seven places on the Post Position Board represent fourth place winners. — All others participating in the MILLION DOLLAR DRAWING win $500.

When balls representing participants (or post positions) are placed in the large transparent rotating spheres, they are thoroughly tumbled about and then one is extracted by a cup device set into the surface of the sphere. As with the wheels, this makes it impossible for anyone to control or anticipate which ball is selected.*

*Official horse race results are used in identifying post position numbers because prizes in State Lotteries in which the ultimate winners are selected by the results of a horse race are exempted from Federal excise tax.
