FOLLOWING PRE-DAWN RAID in New York, Friday, the FBI says the strength of the Black Liberation Army has been "considerably diminished" with the arrest of key members. Left photo shows suspected BLA member Andrew Jackson (C), under heavy guard as he is taken from FBI headquarters. Jackson, 26, wanted in connection with the killing of four New York City police officers, was arrested in his west side apartment. Black Lib Army Power Hurt, Says Cop

NEW YORK (UPI) — Donald Cawley, police commissioner, said the arrests considerably diminished the "the strength of the Black Liberation Army."

"We have motst of the ringleaders now," he said.

Police and FBI agents arrested a 26-year-old leader of the Black Liberation Army who was sought in the slaying of four policemen, believed to be part of a nationwide conspiracy to kil policemen.

Police identified the Black Liberatio Army (FLA) member as Andrew Jackson. Also arrested in the pre-dawn raid was Miss Denise Oliver, 25, another member of the alleged anti-police terroirst group.

Jackson was wanted in connection with the killings of officers Rocco Laurie and Gregory Foster, shot in Manhattan's East Village last year, and the killings of officers Waverly Jones and Joseph Piagentini in a Harlem Housing project in May, 1971.

He is also suspected in the armed robbery of a bankers trust branch in Queens, and murder and arson in connection with the death of Lee Napier, the circulation manager of the Black Panther newspaper, who was found shot and burned at Panther headquarters in 1971.

He is also wanted for questioning in a St. Louis shootout with police and escapeing the Dekalb County Jail in Atlanta.

Miss Oliver, identified by police as a BLA member, was charred with harboring a criminal.

The arrests were the third and fourth of BLA members within three days. Last month a fifth member of the band was arrested in a gunbattle on the New Jersey Turnpike. One policemen

While police officials have blamed the killing and wounding of officers in several cities on the BLA, its actual structure is not known.

Police said they were acting on a tip that a BLA weapons cache was housed in an apartment in a Manhattan brownstone. A loaded .38-caliber revolver was recovered in the raid,

Cawley said, "We are searching now for two more members of the BLA — Twyman Myers and Avon White. We have reason to believe they are still around

"The killing in the past two years of police officers and the unprovoked assaults on unmarked police cars would lead me to say there has been a conspiracy to kill police officers," Cawley said.

The news of Jackson's capture came less than 24 hours after police in Brooklyn arrested Fred Hilton, 21, another alleged BLA member. In that action a police officer realarm mistook a detective in a police-FBI stakeout for a prowler and shot him, police reported.

The detective, William Jakes, 44, shot in the abdomen, was listed in good condition at Brookdale Hospital.

Hilton also was wanted in connection with the Laurie-Foster slayings and in connection with the shooting of a policeman in Atlanta.

Victor Cumberbatch, 21, charged in the slaying of a transit patrolman, told police he belongs to the BLA.

On May 3 Miss Joanne Chesimard, also a suspect in the Laurie-Foster killing, was arrested in a shootout with troopers on the New Jersey Turnpike in which one of her companions and a police officer were shot to death.

Nixon, Agnew should resign, says Fulbright

HOT SPRINGS, Ark. (UPI) — Sen. J. William Fulbright, D-Ark., said Watergate "has embarrassed us before the world" and unless President Nixon can restore confidence in the government he and Vice President Spiro T. Agnew should resign.

"And I have no idea what he can do" to restore confidence Fulbright said. "It would be a miracle to me if he does it."

Fulbright, who in 1946 recommended to President Truman he should resign, told the Arkansas state AFL-CIO he had never seen a scandal like Watergate in his 30 years career in politics.

"I consider the state of the union as very perilous," he said.

"I don't like to contemplate impeachment," Fulbright said. "I think it is a last resort. If the President is able to re-establish his leadership and create confidence in his capacity to govern, I'd be delighted to see him do it."

Inner city lead cases increase

Baltimore Health Department's 1973 statistics show an increase in lead poisoning cases compared with last year. Seven cases have been reported this year as opposed to eight for all of 1972.

Most of the children affected are from the inner-city where many old homes still have layers of leaded paint. Young children are especially in danger if they nibble the paint.

It only takes a small amount of paint to give a child poisoning and cause such problems as mental retardation, blindness and death.

Part of the increase in detecting cases of the sickness is due to increased screening sponsored by a federally-funded City Health Department project.

For more information on lead paint poisoning, city residents can call the Baltimore City Health Department's Child Lead Poisoning Project at 396-4427.
