Sarah M. Roach Plaque Presented

A bronze plaque was given in memory of the late city educator Mrs. Sarah M. Roach by her colleagues of Baltimore City Public Schools recently at the new Sarah M. Roach Elementary School, 3400 block Frederick Road.

A committee of teachers headed by Miss P.E. Hollaway from School No. 73 sponsored the plaque presentation.

A group of the late Mrs. Roach's friends and co-workers contributed the donations to have the plaque made. It will be placed in a prominent place in the school building of School No. 73 which bears her name.

The committee listed the following persons names who contributed to the project.

• • •

They are: Dr. Roland Patterson, Dr. Haywood Harrison, Calvin Roach Sr., Mrs. Florence Bailey, Mrs. Lillian Dantley, Miss Pattie Holloway, Miss Eva Brown, Miss Lorraine Owens, Leon Pulley, Mrs. Marion Dixon, Mrs. Sylvia Henry;

Mr. and Mrs. S. Leroy Taylor, Mrs. Cleo Diggs, Mrs. Helen Thomas, Mrs. Catherine Dixon, Dr. Rebecca Carroll, Mrs. Pearl Brackett, Mrs. Bernice Turner, Mrs. Beatrice Rawlings, Mrs. Lillian Johnson, Mrs. Marlene Brown, Miss Carolyn Jones;

Miss Brenda McClain, Mason Hawkins, Mrs. Ruth Johnson, Mrs. Ruth Payne, Mrs. Vivian Green, Mrs. Loretta Reid, Mrs. Catherine Snead and Mrs. Gertrude Urguhart.

Members of the committee that presented the plaque were: Miss Pattie E. Holloway, Miss Eva Brown, Mrs. Carolyn Jones, Mrs. Marlene Brown, Mrs. Lorraine Owens and Mrs. Bernice Turner, principal of School No. 73.

HONORING A COLLEAGUE—These four teachers represented a committee of city educators as they presented this bronze plaque recently to the new Sarah M. Roach Elementary School, 3400 block Frederick Road. The plaque is in honor of the late city educator Mrs. Sarah M. Roach. From left Mrs. Carolyn Jones, Miss Pattie Holloway, Miss Eva Brown and Mrs. Bernice Turner, principal of the school.

Anne Arundel Public Library plans lots of summer activities

Parents and kids are finding out that the Anne Arundel County Public Library is a good place to go this summer. The following activities are free to the public.

Annapolis Branch, 1410 West St.

Animal Films for Families are shown Mondays, through July at 7 p.m. "Nature's Half Acre" and "Blind Bird" are for July 2.

Films for Children are Thursdays, starting July 5 through Aug. 30, at 1 p.m. until 2 p.m.

Coin Club is July 3, Tuesday, 7-9 p.m.

Dynamic Reading Demonstration by Evelyn Wood is Thursday, July 5, 7-9:30 p.m.

Anne Arundel Homemakers meet Friday, July 6, 9:30-12 noon.

Decoupage and colors by Mrs. Virginia Radaj are in the gallery through July 21.

Yo-Yo Contest is Tuesday, July 10, 3 p.m.

Outdoor Story Hours are held Tuesdays, 1:30 p.m. for children kindergarten to 3rd grade.

Wednesday Preschool Story Hour (3-to-5-year olds) is at 10 a.m. followed by filmstrips at 11:30 a.m.

Join the Charlie Brown Reading Club. Read six books at leisure - one in each category, and come to end-of-summer party to receive reading certificate (for Grades 3-6).

"Hunted in Holland" is the movie for kids Saturday, July 7, 3 p.m.

Kuethe Branch, 3 Crain Highway, Glen Burnie

Register for pet show one week before show July 12, 2 p.m. (Main date - July 13, 3 p.m. No show animals - just children's pets. No pets dressed in clothes.

Ribbons are awarded in each class (dogs, cats, and miscellaneous.) All pets must be on a leash, in a cage, box, bowl, etc.

Preschool story hours, Thursdays at 10:30 a.m. (3-5-year-olds).

All library branches and headquarters offices will be closed July 4, Independence Day.

First male student in dental hygiene

One of twenty students enrolled in the University of Maryland School of Dentistry's hygiene program, Edward Neal is unique in at least one way.

He is a 32-year-old Navy veteran and the first male student in the department of hygiene.

Neal, whose interest in dentistry began while working as a dental technician in the Navy, said he would encourage other men to enter the program.

"I can't say enough for the school and the program," he said and added. "Students get in depth experience and the curriculum is very comprehensive."

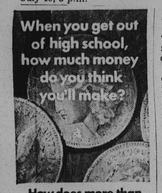
"There is a demand for men in the profession but many may be apprehensive of entering a traditionally women's profession," Neal continued.

Neal also feels that there is a need for teachers and room for men in the administration of hygiene schools.

Neal does not find the experience of being the only male in a classroom situation new.

He has taken classes at the Community College of Baltimore and Georgetown University in preparation for the dental school's hygiene program where he found himself surrounded by women.

A GOOD citizen is registered and prepared to VOTE. You can register today at Supervisors of Elections, People's Court Building, Fayette and Gay Sts., open daily from 8:30 a.m. to 4:30 p.m. Mondays through Fridays.



When you get out of high school, how much money do you think you'll make?

How does more than $340 a month (after just four months) sound to you?

There's more to it than just the pay. You don't have to spend your money for food, housing, medical or dental bills. You get some of the best job training in the world. You can travel to places like Hawaii and the Caribbean . . . and you get a raise automatically in four months. To see if you qualify, to find out if you've got what it takes to make it in the New Navy, call or see

Essay-poster winners cited by Fire Board

During a regular meeting of the Board of Fire Commissioners Tuesday, three sixth-grade students from various Baltimore elementary schools were awarded grand prize plaques in conjunction with the "Adopt a Fire House" essay-poster contest.

The contest, sponsored jointly by the Baltimore Fire Department and Baltimore Schools, encompassed the entire city and was limited to sixth graders.

One grand prize winner in the poster contest was Dale Lee, 11, a student at Pimlico Elementary School who was accompanied by his mother, Mrs. Florence Lee.

Other grand - prize winners were Jimmy Hoffmaster, a student at Bay Brook Elementary school and Jennifer Pickett who attends Leith Walk elementary school. Jennifer was the grand-prize essay winner.

• • •

In other business, Board President Howard Owen announced consolidation of the Fire Department Ambulance Service and Infirmary into what will be designated as "Fire Department Medical Division."

This consolidation will be under the command of the Deputy Chief-Staff Services.

Mr. Owen also announced that the recently approved city budget made no cuts in the fire Department's budget.

He added that 30 new pieces of fire apparatus would be forthcoming and, after re-surveying this year's budget, 30 more cars would be ordered.

Mr. Owen said he was confident there would be "a massive shot of new equipment into the Baltimore Fire department.

• • •

Additionally, the board president revealed plans for the purchase of a tanker truck designed to distribute fuel to the more than 60 fire house locations in the city.

The purchase of the $18,000 truck was engendered by a mandate which calls for the stoppage of gasoline delivery to the Fire Department as of July 1.

The action was direct result of the fuel shortage which is beginning to paralyze parts of the nation.

• • •

The board also announced that during the months of July and August, approximately 10 Fire Department examinations will be given.

The positions for which the tests will be given and their tentative dates are:

Fire Lieutenant, 7-28-73.

Fire Pump Operator, 7-30-73.

Fire Emergency Vehicle Driver, 7-31-73.

Fire Captain, 8-1-73.

Battalion Fire Chief, 8-9-73.

Emergency Medical Technician, 8-10-73.

Lt. Emergency Medical Technician, 8-10-73.

Lieutenant-Pilot, 8-13-73.

Fire Lieutenant - Maintenance, 8-13-73.

Battalion Fire Chief - Maintenance, 8-13-73.

Soft as a Kiss

WILL THERE BE ENOUGH GASOLINE FOR YOUR VACATION THIS SUMMER?

PROGRESS REPORT NUMBER 3 FROM AMOCO ON THE GASOLINE SHORTAGE

If you're planning a driving vacation this summer, the gasoline shortage has to figure in your plans.

Different areas of the country will experience different degrees of shortage this summer. Just as they are now. From mild to fairly severe.

So, depending on where you are at any given time on your vacation, you won't know what the situation is up the road. Some stations may have all the gasoline you can take on. Others may be limiting the number of gallons they will sell to each motorist. And still others may be out completely.

Some stations may close early to stretch their supply—or not open at all on some days. Others will be running at their normal hours.

We're producing more gasoline than ever before but there's just not enough to go around. So we are allocating our supply to our dealers on a monthly basis as fairly as we know how. We will be delivering gasoline to our dealers all summer long but to stretch their supply, they may find that some of the above measures are necessary.

But all this doesn't mean the situation is so unpredictable that you should give up your trip. We do urge you to exercise a little consideration when you choose a vacation spot though. And a little care in getting there.

Here are some tips we suggest:

Fill your tank in the morning. That's when stations are most likely to have gasoline. Some stations will sell only so many gallons per day, and then close early.

Also try to be off the road early. You don't want to be on the road late at night if the stations in that area have shortened their hours.

Think about keeping your tank at least one-quarter full. That way, you'll have a reserve in case you come across a station that can't supply you.

There are also many things you can do to conserve gasoline along the way, and get more miles to the gallon.

Make sure your car is in tune before you leave. A tuned car will get about 10% better gas mileage than one that is out of tune.

High-speed driving is hard on mileage, so slow down. If you drive 50 mph instead of 60 mph, you can save about one gallon in ten.

Try to maintain a steady speed. You'll get better mileage than if you constantly speed up and slow down. For example, passing a line of cars on a two-lane highway may get you there a little sooner, but the extra acceleration means your car is going to gulp a lot more gasoline.

If you tow a boat or trailer, uphill climbs cut into your gas mileage heavily. Build up your speed before you reach the hill, so your engine doesn't have to work as hard on the way up.

Use your air conditioner sparingly. When it's running, you get less mileage per gallon.

All of us at Amoco hope these tips will be helpful to you this summer. And that your vacation is an enjoyable one.

SLOW DOWN Save gasoline.

KEEPING COOL—Action for participants, chaperones or spectators at the recent Special Olympics for retarded children held at Towson State College was hot and heavy. Persons pictured here found time to make some shade as Mrs. Bruce Greene does with her umbrella or just to sit down and relax. From left, Miss Vanessa Smith, Mrs. Bruce Greene and Miss Virginia Riely, Miss Paula Ross, James Greene, Mrs. Elizabeth Harrison and Mrs. Frances Bond, all from Hartford County.

Univ. of Md. not independent of State Elkins tells Regents

The University of Maryland is not and cannot be independent of the state legislature and it is far from being independent of the Maryland executive branch, University President Wilson H. Elkins emphasized today in his annual report to the Board of Regents.

President Elkins will begin his 20th year as the chief administrator of one of the nation's ten largest universities this September, making his term of longevity greater than any head of state universities in the country.

"Despite problems relating to many aspects of the University, the past year has been one of achievement," Dr. Elkins said.

He cited that more students have been accommodated, 9685 were graduated, the relevance of the curriculum is continuing to be examined, research has produced significant publications, and that the physical plants of all of the University's five campuses had been expanded.

Commenting on the lack of disruptions on the campuses this year, for the first time in three years, Dr. Elkins pointed out three reasons.

"The first factor was the end of the war and the draft, which removed or blunted the issue which often led to violence.

The second factor was the failure of the radical element of the student revolution to overthrow the capitalistic system and the establishment.

The third factor . . . was the recognition of legitimate student interests and the inclusion of students in the internal governance of the institutions.

• • •

The president explained that, while students do not make the final decisions, they have been given a voice in institutional policies and practices. "Participation has been limited and often disappointing, but the principle has been a vital element in the improvement of student-faculty-administration relations," he said.

Another important development of the year stressed by Dr. Elkins was the stabilization of enrollment at the University. The peak enrollment for the past fall was approximately 55,200, as compared with 54,763 for the previous fall. Including the overseas programs of University College, the enrollment was approximately 70,300, which was about 400 less than in 1971, because of the decrease in military personnel in the Far East.

The president's annual report to the Board is presented each June at the final meeting for the fiscal year. The next regularly scheduled Board meeting will be in September.

Blue Cross offers new benefits

Blue Cross and Blue Shield of Maryland have announced they will provide special coverage to supplement Medicare benefits for beneficiaries under age 65 who become eligible for the federal program on July 1 by virtue of new provisions which extend Medicare protection to the disabled.

Through Medicare, the federal government will begin covering persons under age 65 who are disabled, require rental transplantation for chronic renal disease.

The new program, called Blue Cross and Blue Shield Medicare Supplement, will cover most of the deductible and co-insurance payments required under Medicare.

Anyone eligible for Medicare may join the supplemental program even though he or she may not now be Blue Cross and Blue shield members.

Persons wishing to obtain this added protection, including Blue Cross and Blue shield members, should call 828-4360 in Baltimore, or any of the local Blue Cross and Blue Shield district offices.

U. of Md. appoints 3 new vice chancellors

The appointments of three vice chancellors at the University of Maryland have been announced by the University's Board of Regents in College Park.

Dr. Joseph G. Wutoh was appointed vice chancellor for academic affairs at the Eastern Shore campus in Princess Anne. He has served as acting vice chancellor since 1972. His first appointment at Eastern Shore was in 1970 as assistant professor of biology and director of research and grants.

A native of Ghana, Dr. Wutoh was director of research and graduate training at Mianjelo Products in Accra before coming to Maryland. He holds the doctor of philosophy degree from the University of Queensland (Australia) and the bachelor of science degree from the University of Wales.

Appointed to the position of vice chancellor for administrative affairs at the Eastern Shore campus is Joel C. Mack, presently director of administrative affairs. Mack joined the Eastern Shore campus in 1968 as assistant professor of mathematics. He previously was on the faculty of Langston (Okla.) University.

Dr. Stanley J. Drazek was named vice chancellor of University College, the continuing education for adults component of the University. Dr. Drazek first joined the staff of Maryland in 1946. He has served as dean of University College since 1970.

Since 1968 Dr. Drazek has been chairman of the State Advisory Council, Title 1 of the Higher Education Act of 1965 for the State of Maryland. In addition he has served as a consultant to the U.S. Office of Education and to several colleges and universities.

Regional housing plan proposed

A new, regional housing plan proposed by the Area Housing Council (AHC) was made public Friday.

The AHC, an advisory arm of the Regional Planning Council (RPC), drew up the plan in the past year and a half.

It calls for the replacement or rehabilitation of the 96,600 inadequate or substandard housing units in the region. The 10-year plan sees the need for new housing at the rate of 20,300 units a year.

Among the most important goals of the program are "improved housing opportunities for families of all incomes and races, maintenance of sound residential neighborhoods, provision of adequate community facilities and services, and shaping residential and community development to improve the environment."

The plan calls for "an increase in low and moderate income housing production in the counties, and an increase in middle-upper income housing production in Baltimore City."

Robert W. Catzen, chairman of the AHC, said that the plan would have to be presented before the people of the region before it would be accepted by the RPC.

William Mercer Jr. of the Beacon Hill Tenants Assoc., vice chairman and only black officer of the AHC, commented that acceptance of the plan was "not going to be easy."

He said that the program is "good for integration", but that the counties would interpret low-income housing as causing "a black invasion." He did seem confident that the counties would eventually see the housing is to their advantage.
