PUBLIC NOTICE
Request for Location Approval
Notice is hereby given that the State Highway Administration of Maryland, in accordance with U.S. Department of Transportation, Federal Highway Administration — Policy and Procedure Memorandum 20-8, dated January 14, 1969 and amendments thereto, has requested from the Federal Highway Administration by letter of April 10, 1974, Location Approval for City Avenue from Howard Street to Battery Avenue in Baltimore City, Maryland.
Location Approval has been requested for the Highway Division's proposed location as presented at the Location Public Hearings of April 18 and 25, 1974. The location as proposed and presented in a study report (Draft Environmental Statement) to public hearings held at Public School No. 165 on the Block Highway Administration Building provides for City Avenue to begin at Howard Street as a surface street and continue along existing Shade Street to Jones. Header turning south at Remington Avenue and turning Morvin Avenue until it reaches Freeport Avenue. A grade separation is proposed at Freeport 178 with 1-170 passing over City Boulevard on structure. The highway continues on a grade alignment along under Park and Lombard Streets and then intersecting Washington Boulevard diagonally. City Boulevard passes over Russell Street on a grade structure and continues on structure over the Baltimore Conrail Railroad tracks before interchanging with Interstate 395 in the vicinity of Sharp and Montgomery Streets. The Boulevard then comes down to the surface street near Hanover Street and rejoins at-grade until it terminates into Key Highway at Battery Avenue.
Maps, drawings, sketches, and other descriptive information in support of the request for Location Approval are available for public viewing during normal working hours at the Maryland Division for Baltimore City Schools, 1600 Cathedral Street, Baltimore, Maryland 21201. You may call 396-5530 for an appointment.
