Were facts about the assassination withheld from the Warren Commission? Has the American public been given all the facts about the tragic event on November 22, 1963?

These and other questions regarding the assassination of President Kennedy will be explored in a rare photographic and filmic presentation to be sponsored by the Dundalk Community College Special Events Committee and the Political Science Club on Friday, April 25, at 8 p.m. in the Dundalk Junior High School Auditorium.

The lecture is open to the public.

Bob Katz, a former journalist working in cooperation with the Washington-based Committee to Investigate Assassinations, will make the presentation.
