PUBLIC NOTICE

Interested parties are hereby advised that the Department of Public Works of Baltimore County is planning to widen Milford Mill Road from Washington Avenue to Gwynns Falls, a distance of about 0.37 miles. Approximately 450 feet of Scotts Level Road and 393 feet of Scotts Hill Drive will also be widened from their intersections with Milford Mill Road. The purpose of this effort is to provide some storage lane capacity for left turning vehicular traffic at all the affected intersections.

The project will consist of the installation of curb-gutter and sidewalk along the north side of Milford Mill Road plus portions of Scotts Level Road and Scotts Hill Drive, then transitioning the new roadway edge to meet the existing road. The proposed Milford Mill Road width will vary with a maximum width of 44 feet between curbs within a varying right-of-way affecting about eight properties. THEODORE G. VENETOULIS
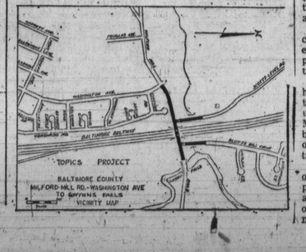
County Executive



—Dr. Patterson won't quit

(FROM PAGE ONE)

porters at the Thursday meeting and the same day by a citizens' suit filed by Mrs. Grace Hines, who co-chairs a concerned citizens group.

The suit is addressed to the board and in particular to member Robert Schaefer who is vice president of the First National Bank.

Mrs. Hines said in essence the suit cites Mr. Schaefer as being "in conflict of interest."

As a member of the board, the suit alleges the "conflict of interest" comes in his soliciting business from city employees.

Mrs. Hines refers to a memorandum from the First National Bank which asks citizens and city employees and teachers to put their money in that bank. As a school commissioner, Mr. Schaefer cannot take such action, she maintains.

—

Today, Friday, it's expected that Mr. Gibson and Mr. Ramsey will meet to set another date for the countdown meeting with the board on the "quit or be fired" resolution.

Mr. Gibson told the AFRO he did not know (as of Thursday) what date could be set since he has the commitment out of town and he would not allow his client to appear without him at his side.

However, there appears to be come other Patterson backers—two members of the board—David E. Sloan and Dr. Beryl Williams who went on record in a separate evaluation summary to find Dr. Patterson has a clean bill of health.

This brings the speculation that at least two and perhaps three board members (Howard E. Marshall) will oppose firing of the superintendent.

However, word is that the board has already been polled and Sloan's and Williams' votes will make it a "two-for-and - seven - against" result.

This is the action expected when and if the board, Gibson and Dr. Patterson decide on a date.

—

On the other hand, the theory is that before the date is set, "a dedicated superintendent, a dedicated board and dedicated citizens" may find a solution to "live together in peace."

The theory assumes that despite the anxieties of the past few days, there is still hope that it will not come to the ouster and Mr. Gibson will make his first move toward an understanding between all concerned.

—

Otherwise, if the resolution does come to the board table, the motion could be made by Dr. W. Eugene Scott. It could be seconded, presumably by Mr. Schaefer and voted on with the "fire him" commissioners winning.

—

In this case, Mr. Gibson has already notified the board that he will see that Dr. Patterson has the benefit of due process under city and state law to a hearing.

This position was in a letter to Norman Ramsey dated June 5 which says:

GIBSON'S LEGAL STAND

I have read your evaluation of the Board's legal posture. I find your position particularly as set forth in the attachment marked evaluation to your letter of June 2, 1975 to be legally unsound.

While it is true that the superintendent serves subject to the "power and authority" of the Board to "appoint and remove" him at the Board's "pleasure," contrary to your assertion, the Board does not have an "obligation" to appoint and remove that official."

Rather, it has power to do so, at its pleasure, but only following a public hearing first being granted, if the same is requested.

There are two other interpretations of the law which you make that are indeed in error.

First, the Board's power to either appoint or remove the superintendent is not absolute, nor unlimited.

Indeed, these is a significant body of state and federal law that imposes important limitations upon the Board's power.

For example, the Board has no power to remove the superintendent for fraudulent or racial reasons. Moreover, its power cannot be exercised in bad faith or with caprice or arbitrariness.

Such purported exercise of power has long been proscribed by both state and federal law. No Board or other agency of government can arrogate unto itself absolutt power free of these legal restraints.

Next, we cannot agree that the employment contract entered into between the city and the superintendent is not valid. The Wyscki case, carefully read, will be seen to be beside the point at issue in this matter; moreover, in no event would that decision be regarded as authoritative.

Finally, my client will surely insist that the Board honor its obligation under the said contract.

Finally, the hearing requirement provided for in the Charter and alluded to in your letter as a meaningless formality cannot be dismissed in such summary fashion.

The meaning of a "hearing" is too well settled in both state and federal law to mean "due process" if it means anything at all.

Naturally therefore, my client will demand that the Board comply with this Constitutional obligation which it indeed is under.

Other matters discussed in your correspondence not covered herein, relating to the criteria of evaluation and actions of the Board already taken may not be assumed to be accepted by us.

At the appropriate time in the appropriate forum those matters will be answered should the same become necessary.

The Resolution

The resolution which is not yet termed "official board action" is as follows:

Be it RESOLVED by the Board of School Commissioners of Baltimore City that the Board will not renew or extend any contract or will it negotiate a new contract with Dr. Roland N. Patterson to serve as Superintendent of Public Instruction after the expiration of the term purported to be set by his contract allegedly executed on December 8, 1971.

Be it further RESOLVED that in order to permit an orderly transition in the office of the Superintendent of Public Instruction that Dr. Roland N. Patterson submit a resignation to the Board of School Commissioners on or before the 24th day of June, 1975.

Be it further RESOLVED that if such resignation is not received on or before the 24th day of June, 1975, the Board will relieve the Superintendent of his duties effective on the 25th day of June, 1975, subject to the right of the Superintendent to formally request a hearing by a notice in writing no later than Saturday, June 14, 1975.

Be it further resolved that if such hearing is requested, it will be scheduled for June 20, 1975.

There is attached hereto and made a part hereof, the specifications which are the basis for the conclusion that a continuation of service would not promote the interest of public education and that in the interest of public education Dr. Roland N. Patterson should be removed as Superintendent of Public Instruction if he should refuse to comply with the call for resignation contained herein.

CHARGES

1. By his letter of May 28, 1975, counsel for Dr. Roland N. Patterson demonstrates an unwillingness on the part of Dr. Patterson to accept and negotiate, in accordance with the provisions of the Charter of Baltimore City, a legal and valid contract to serve as Superintendent of Public Instruction.

2. By the aforesaid letter, Dr. Patterson seeks to have the Board execute a contract which is legally invalid and improper under the Charter of Baltimore City and the laws of Maryland.

3. That by declining to express a willingness to negotiate a contract in accordance with law, counsel is seeking to accomplish a substantial impairment of the rights and obligations of the Board of School Commissioners to control and direct the Superintendent in the execution of policies adopted by the Board and the power and authority of the Board to perform the obligations required of it by law would be substantially diminished.

4. That there has developed major differences between the Board of School Commissioners and Dr. Roland N. Patterson in many areas where harmony and cooperation are required so that Dr. Patterson can no longer function effectively as the chief executive officer on the Board of School Commissioners.

A. The Superintendent has demonstrated an inability to accept criticism and direction.

B. The Superintendent has failed in the important obligation of maintaining harmonious working relationships with the Board.

C. The Superintendent has interposed intolerable restrictions on the availability of information to the Board from members of the school system by depriving staff of the right to communicate informally with the Board.

5. That in the area of staff and personnel matters the Superintendent has, by his conduct, fostered the growth of conditions which are inimical to the best interests of public education.

A. Staff morale has declined

B. He has exhibited favoritism between and among personnel.

C. He has not displayed the ability to delegate authority so as to implement the decentralizing of authority mandated by Board policy.

D. He has failed to recruit and assign the best personnel.

6. That there has developed a substantial and abiding doubt in the minds of the majority of the Commissioners as to credibility of the Superintendent and this has also manifested itself in the area of relations between the school system and governmental agencies where cooperation and credibility are of paramount importance. This substantially affects the interest of public education in Baltimore.

Greater Mondawmin Coordinating Council fights McDonalds Drive-In

At its regular monthly meeting in the library at Douglass High School, the Greater Mondawmin Coordinating Council voted unanimously against rezoning an acre of Mondawmin Shopping Center's parking lot that would permit building a McDonald Hamburger Drive-In Restaurant.

An ordnance was introduced in the City Council, May 19 by Councilman Dr. Emerson Julian to rezone a portion of the parking lot from Business 2 (B2) to Business 3 (B3), which is the required zoning classification to build this kind of "fast food" facility.

* * *

Sen. Welcome is a resident in the community and a member of several neighborhood associations that surround the shopping center.

She said this will be the third time a "fast food chain" will try to build a drive-in facility in Mondawmin that would be separated from the main buildings.

She offered the full services of her office to work against the passing of the ordinance.

Other members commenting on Councilman Julian's ordinance stated this kind of food operation would have a terrible impact on the surrounding community. It would be another "hang out" for young people with all kinds of happenings on the parking lot.

With Douglass High School "across the street," the situation at Mondawmin Shopping Center would get worse.

It is believed the real problem for the neighborhood would be at night and weekends, especially Saturday night and Sunday afternoon.

It was also indicated that this "spot zoning" would be a precedent to open all kinds of nuisance businesses on other parts of the less used Mondawmin parking area.

* * *

Several speakers expressed arrazement at Councilman Dr. Julian sponsoring such a bill, according to a news release by the Council.

Special guests at this meeting were high police officials in the Northern, Northwestern and Western Police Districts, Colonel James A. Watkins, Area Commander, and the commanding officers of the Northwestern and Western Police Districts.

Col. Watkins and his associates spoke on techniques neighbors may use to protect their community.

In responding to several questions on the fears of exposing oneself to harrassment and injury by "being the one" to call the police, Col. Watkins repeated several times that you do not have to give your name and address.

His advice is to call the police even when you observe trouble starting. The police would rather "prevent a crime" than to come when the damage has been done.

* * *

Also present was Earl Hagan, principal of Douglass High School, who spoke on the history of Douglass High School.

Mr. Hagan invited all to attend the June 4 commencement at the Civic Center to hear Douglass' most distinguished graduates a speaker, Supreme Court Justice Thurgood Marshal, who is a native Baltimorean.

The Greater Mondawmin Coordinating Council is an "Umbrella" type of community organization. Many neighborhood and block clubs are affiliated with this Community Council.

Sen. Welcome is also against McDonalds

Sen. Verda F. Welcome issued a statement this week against McDonalds opening in Mondawmin.

Here is the statement:

The daily newspaper carried an article entitled, "Metro Plaza Revitalizes Mondawmin Mall".

The writer refers to the improvements being made by Northwest Associates, which is commendable and should receive the blessings of all citizens of goodwill, especially those of us who live in close proximity to the Mall.

However, the article also mentions the possibility of the City Council approving the necessary spot zoning of an acre of space for a McDonald's restaurant and drive-in.

This area would be the adjoining parking lot on the east side of Mondawmin, facing the residents on Gwynns Falls Parkway.

Rockefeller talks of war

By Clay F. Richards

ANNAPOLIS (UPI)

Vice President Rockefeller said Wednesday, the nation must maintain a strong defense posture to counter the growing Soviet military strength.

While recognizing need for detente, Rockefeller told the 786 graduates of the U.S Naval Academy that "cold realism requires we must not ignore the growing strength of our potential adversaries."

"If we do not make adjustments (in defense spending) we might find ourselves on the path of unilateral withdrawal from the world without adequate safeguards.

"I hope that we can work with the Soviet Union to mutually reduce our strategic arms.

"If anybody still believes unpreparedness and good intentions stave off war, I urge them to reread history leading up to World War II."

The vice president warned that the Soviets are increasing their military presence throughout the world and there is no indication at what levels they will be satisfied.

Rockefeller and his wife, Happy, collected a sackful of gifts from the midshipmen, a face full of water for the vice president, a set of Mickey Mouse ears and rubber chicken.

He was handed a rubber water rocket by one graduate, aimed it toward the audience and let it go, without realizing the spray would come back in his own face.

He took the prank with good humor.
