Sinai gets OK on rate raise here

(UPI) — The Maryland Health Service Cost Review Commission has granted Sinai Hospital an 8.8 per rent across-the-board rate increase to cope with the effects of inflation on the facility's payroll and service.

The impact of the increase was expected to raise the average daily room charge for a medical-surgical patient to $102.16.

Jack Cook, a spokesman for the commission, said the inflationary increase was granted on an annual basis to keep hospital revenues even with expenses but he conceded the commission may have to grant a supplementary increase later this year.

Walter Schneckenburger, the hospitals vice-president for finance, said Sinai needed the increase because its non-profit status meant the hospital could not consistently lose money and remain solvent.
