The Maryland Poison Information Center of the University of Maryland School of Pharmacy, offers tips to prevent accidental poisoning during the holidays:

- Keep toxic gifts, such as perfumes and after shaves, from under the tree, and the reach of children and pets.
- Put away materials for decorations, paint, glue, pins and scissors, as soon as you are through with them.
- Keep tinsel and angel hair, considered extremely poisonous, off low branches of your tree out of the reach of children and pets.
- Ask grandparents and relatives to poison-proof their homes before you take children to visit.
- Know the plants and flowers you are giving and receiving. Some, such as mistletoe, are very poisonous.

For a free holiday guide to poisonous plants and other holiday poison hazards, contact the Maryland Poison Information Center at 528-7701.
