A twenty-five member advisory board of citizens, business leaders and community organization representatives has been formed. D.C. Supervisor Court Judge Duke C. Moore and Dr. Samuel Ethridge, assistant executive secretary of the National Education Association, are developers of the project, along with members of the local and national Prometheans organization.

The Prometheans have established an Adopt - A - School headquarters in the NEA building at 1200 16th St., N.W. and a local chapter office at 7723 Georgia Ave., N.W. The program utilizes business, government and other professional expertise in providing career development assistant to in - school youth, 14 - 21 years of age.

In addition, the program will provide role models and career guidance in groups and one to one contact by a variety of individuals acting on their own initiative as well as in concert with adopting firms, agencies and organizations.

The program will also emphasize a variety of innovative techniques, including part - time and Saturday employment as a method of promoting career exploration and job training incentives for achieving school attendance objectives.

The pilot project will be conducted in nine District junior - and senior high schools, including those which emphasize special education, career development and adult counseling education.

The program will be seeking to inspire students to become technicians and tradesmen as well as doctors, engineers, lawyers and teachers. Nothing about the project should stigmatize it as an essentially remedial program, Ethridge emphasized.

It is anticipated that by May, 1981, a majority of the target schools in the greater Washington area will be actively participating in the project, Prometheans officials states.

Details of expanding the program to other cities where Promethean chapters are located were discussed at the organization's annual national board meeting in December at the Shoreham Americanana Hotel.
