HRD need more time to comply with court order

State Human RESOURCES Department officials say they need a larger staff to meet a federal court order mandating prompt processing of food stamp applications but a legal aid spokesman threatened more legal action this week if the order is not obeyed.

Human Resources Secretary Kalman Hettleman said waiting times for food stamps have been reduced since a class action lawsuit was filed in U.S. District Court alleging the state forced some food stamp applicants to wait weeks before receiving aid.

Judge Shirley Jones has ruled the state was negligent in identifying applicants eligible for emergency service, in delivering services to emergency cases within three days and in providing food stamps within 30 days to other eligible applicants. She ordered the state to comply fully with the federal time limits by July 15.

The state has contended that since the lawsuit was filed March 29, plaintiffs Carolyn Hess and Gunwood Davis have been issued food stamps and grounds for the class action no longer exist.

That argument will be addressed at another court hearing July 15.

Hettlemann said he still lacks the staff to process the applications promptly because "the food stamp caseload is continuing to grow. We are struggling to keep up."

He said the court order gives the human resources department "a little extra time to see if they can pull themselves into compliance."
