Vision-The Word for the New Year

The beginning of a new year is a time when we look forward, when we think of goals we should like to obtain, overcoming we should like to make, dreams we should like to see become realities.

We should see ourselves shedding the cares and burdens of the past shedding the fears and doubts of the past.

Let's enter into the new year with real high vision. Meet everyday stronger, healthier, happier, more prosperous and successful than ever before.

Whatever your goals for this year 1982, whatever the overcoming you hope to make in 1982, whatever dreams you long to see come true in this new year, have the vision my sisters and brothers and the faith to know that all things are possible and remember that God is with you as you enter the new year.

With a high vision won't you see this year as a special year for you and yours, a blessed year for you. Have a prosperous New Year!

THOUGHT FOR TODAY

"My vision is renewed by diving love and I see all men through the eyes of love."

Women of Vision who dared to venture

A small band of 22 undergraduate women on the campus of Howard University, in Washington, DC, in January of 1913 began to fulfill a dream.

These young black, college students had a vital concern for social welfare, academic excellence, and cultural enrichment, de - emphasizing the social side of sorority life.

From this dream has come a strong and committed sisterhood of over 100,000 women from all walks of life.

Today Delta Sigma Theta Sorority Inc. is a public service organization, dedicated to programmatic thrusts of sharing membership skills and organizational interests in the areas of educational development, economic development, community and international involvement, housing and urban development and mental health.

Through social action, scholarship and communication these courageous activists have moved the nation into new directions.

The Baltimore Alumnae Chapter of Delta Sigma Theta Sorority Incorporated chartered in 1922, has planted deep imprints in the sands of Baltimore, and the members of this dynamic, black sorority continue to trod heavily on the sands of the nation and the world.

From the seeds of the Epsilon Sigma Chapter, organized by Vashti Turley Murphy, emerged a towering inferno of torches blazing for human concern.

Who would have imagined that a Sunday afternoon tea with five women in attendance would have resulted in a strong, alumnae chapter of over 800 women, from all walks of life, some sixty years later.

In commemoration of this heritage, the Baltimore Alumnae Chapter of Delta Sigma Theta Inc. will hold its Founders' Day Activities at the Blue Crest North on Saturday, January 30th 1982.

On Sunday, January 31, the awards program will be held at the Metropolitan Methodist Church and the general public is invited to attend.

In addition, the organization has been able to get the renowned Dunbar High School Choir under the direction of Hugh Carey to perform for this program.

Bargain meat hunters— time to swoop on poultry

Consumers looking for bargain meat would be wise to think of stocking up on chicken these days according to the Maryland Department of Agriculture.

Many supermarkets in the Baltimore and Washington areas are now featuring whole, broiler - fryer chickens for prices as low as 37 to 45 cents per pound.

Production of broiler chicken is Maryland's largest single agricultural industry and current figures show that Delmarva's poultry producers are continuing to place around nine million chicks per week.

This is an extremely high and sustained level of production according to MDA's Ag Development and Marketing Division.

To move this supply of chicken, prices at the wholesale level have been forced down six to seven cents below year - ago levels. Supermarkets are taking advantage of these lower prices and are featuring chicken as a true meat special in recent weeks.

Attractive chicken prices are coming at a good time for consumers who have to stretch their food budgets due to holiday demands for goodies on the table. Family budgets will also be strained in January and February to pay fuel and Christmas bills.

Bargain chicken on the market now can help consumers stretch their budgets while putting first class meat protein on the family table, reminds MDA and the state's poultry industry.
