Lottery prize $$$ raised in honor of first year.

At a press conference held at 10:30 a.m. on December 10 Francis M. Roesler, chairman of the State Lottery Commission, and Martin M. Puncke, state Lottery director, announced a celebration in honor of the lotto game's first anniversary. The lotto game, which started October 31, 1983, was officially one-year old on October 31, 1984.

In honor of Lotto's first anniversary Mr. Puncke stated that the lottery would like for lottery players to also participate in the celebration. Therefore, as part of the first anniversary celebration, the lottery is going to increase the prize pool in the lotto game by $1 million for the drawing of December 15, 1984.

That will mean an additional $500,000 available for the jackpot prize, an additional $220,000 going to those players that correctly match 5 of the 6 numbers, and $280,000 going to those players that correctly match 4 of the 6 numbers.

This $1 million is in addition to prize pool money that will be provided during the normal lotto sales week.

This additional $1 million in prize money is funded from the Unclaimed Prize Fund which the lottery maintains. The Unclaimed Prize Fund is the accumulation of monies from winning tickets which were never presented for payment to the lottery. These funds belong to lottery players.

In the past when the lottery operated Weekly lottery games, this was done through Bonus Games. Since both the 3 Digit and 4 Digit Games have fixed odds, distribution of Bonus Funds through these games is impractical. The lotto game, which has a pari-mutuel prize structure does allow the lottery to place additional revenues into the prize pool from the Unclaimed Prize Fund.

Ms. Deloise Singletary, who was the winner of the first and largest Jackpot to date of $5.5 million, attended the press conference and assisted Mr. Roesler and Mr. Puncke in cutting a ceremonial birthday cake for the Lotto Game.

The legislation that created the Lotto Game required that for first year the net revenues from the lotto game would be returned to the 23 subdivisions and Baltimore City in equal percentages to the Lotto sales generated within that subdivision. For the period of time this legislation was applicable, October 31, 1983 through October 30, 1984, the net revenue returned to the 23 subdivisions and Baltimore City amounted to $20,814,964.54.

Key Bridge ramp closed weekends

The Maryland Transportation Authority advises area motorists that the exit 44 ramp (Dundalk Avenue) from the northbound Francis Scott Key Bridge will be closed to traffic between 7 p.m. Friday (December 14th) and 6 a.m. Monday (December 17th).

The spokesman said that northbound traffic which normaily uses exit 44 will be diverted to exit 43 (Bethlehem Blvd.), which provides access to the Dundalk area. The detour route will be marked with signs.

The exit 44 ramp closing is necessary to permit resurfacing work. Traffic using entrance 44 to the southbound Key Bridge will not be affected.
