PUBLIC NOTICE
BALTIMORE COUNTY DEPARTMENT OF PUBLIC WORKS
WARREN ROAD EXTENDED TO I-83

Notice is hereby given that location approval is being considered for the proposed extension of Warren Road to a new interchange with I-83. The "Location/Design Public Hearing Transcript" and the "Final Environmental Impact Statement" (FEIS), jointly prepared by the Baltimore County Department of Public Works and the Maryland Department of Transportation—State Highway Administration—and approved by the U.S. Department of Transportation—Federal Highway Administration, are available for review and copying.

Alternate 45/4D, as presented at the December 16, 1986, Location/Design Public Hearing, has been selected as the basis for further project development. The proposed project includes improvements to the existing intersection at York and Warren Roads and a new roadway from York Road to a new interchange at I-83. Between York Road and Beaver Dam Road, the new Warren Road will be designed as a five-lane, 60-foot wide, curbed roadway. An at-grade crossing of the Conrail tracks is proposed, with appropriate signing, pavement markings, and warning lights. Between Beaver Dam Road and I-83, the new road will become a four-lane divided highway, with graded shoulders, a 34-foot median, and controlled access. The partial interchange with I-83 will provide movements to and from the south only; traffic to the north on I-83 will be directed by appropriately placed signs to the Shawan Road and Padonia Road access ramps.

The FEIS and the Public Hearing Transcript are available for public review at the following locations:
