Ans When he first came there, he said he wanted the payment to go on the Mortgage note "Exhibit D" & I said I wanted him to pay something on a $643 note which I held against him – He said he seen what I was after, but he would let it go on the $643 note, & I wanted him to write the interest on the $643 – note himself – He said he hadn't time – that I should do it myself – it would be all right
