

A No, except of course there is a balance to be paid I know due of \$700 and some odd dollars. I don't know what the monthly payment was.

Q What have you to say as to the best interest and advantage of the infant whether the property be sold?

A To the children?

Q Yes? A. Well, of course I meant that.

Q Your sister had a child by a former marriage?

A Yes.

Q Only one child by Mr. Reuben Bishop? A. Yes.

Q Barbara Jane Bishop. What have you to say as to it being to the best interest of Barbara Jane Bishop that the property be sold?

A I think Barbara is eager for an education; I think her mother is eager to have her educated; and I think it would be beneficial, because they will have more money to devote to the education of the child. Can't be any other way. She can live more humbly and educate her child to a greater extent because she will have the means to do it.

Q Mr. Fox, your sister was talking about building another home. Can another home be built from the proceeds of sale of this?

A Well I think so, because she is not quite so ambitious as she once was - I mean she is going to be content with less, and she can build a house; she can build a concrete block house that requires no painting and never rots down, and she wouldn't have to have a house as large and elaborate as this house.

Q Could a concrete house be built for \$1200 or \$1300?

A Less than that. We have one up at Shookstown we live.

Q Are you a mechanic?

A Well no, I wouldn't call myself that. I have done some work.

Q You have another brother who is a builder?

A Yes. I have two brothers that done a great deal of building.
