No. 5102 Equity.

tract of land as described in Exhibit Marked No 1. the witness have looks at Exhibit Marked No 2 and says that paper describes the land which she sold to Tilghman A. Williard her son

To 8th Int.

8th Ans. She did. She owned at her death about 101½ acres of land it is worth about Seventy-five dollars per acre, which would make the total amount $7612 50

To 9th Int.

9th Ans. It cannot be divided in kind between the parties interested, without loss or injury to them. It would be best at this time to sell it, on account of there being an infant, as they would have to keep it so many years before he would become of age, and the improvements would be very apt to get out of repair and depreciate, and if rented out there would be so small amount to divide among so many that none would get much, and it would not justify them in holding it any longer.
