John C. Motter.

Exhibit No. 1.

Filed Dec. 5-1904.

Frederick, Md.

Dec. 5-1904.

I hereby Certify that I have been a Practicing Physician of Frederick Co. Md. for the past 26. years. that as such I have at various times attended professionally Mrs. Nettie G. Keller Since June 1898. that on or About Sept. 1898. free from the actions and Conversation of the Said Mrs. Nettie G. Keller I was Convinced that She was suffering from mental derangement of the form of monomania. that from that time until October 26th 1902. at various times and for various Complaints I treated the Said Mrs Keller. That at various times she acted as one deluded and Communicated to me various illusions.

That on October 26th. 1902. she became violently insane and Threatened Violence. to those about her and to herself because of illusions as to the honesty of purpose of her best friends. That I again Saw Mrs. Nettie G. Keller on December 2-1904 and Conversed with her and from her actions and Conversation I am fully persuaded that she is Still Suffering in a more aggravated form from Mania which I believe to be Chronic and likely progressive. That in my opinion for her own Safety and the well of the Public it is best that she be restrained and treated in Some Institution for the Insane, and that Such Steps as are necessary be taken to place her business affairs in Competent Hands for their Management.

The reason for forming these Conclusions is Incoherency of statement. In Consistency in reasoning and unreasonable fear of her best friends and relatives.

Signed.
