To the President and Board of Trustees of Bay View Asylum.

Gentlemen,

Whereas it was the understanding of each and every one of the undersigned now Resident Physcians at Bay View, previous to entrance upon their duties at said Institution, That The Dead House, attached to the Asylum was under the exclusive control of the Visiting and Resident Physcians, and that with the exception, of such cases, as were claimed, within specified hours after death, Each and every one of the Resident Physcians had at any and at all times, the privilege of examining and of dissection if deemed desirable, any "Subject" That was within the Walls of the Dead House, We the undersigned, hereby respectfully request, that the Superintendent be so notified
Signed by Drs. Fenton, Brown, Claude, Trippe, Ransome Emack, Iglehart, Pugh, McDevitt, and Newbill. dated Bay View Asylum June 1st 1875.
In reply to the foregoing communication, the Agent, was directed, to present ~~to~~ to them, the following Answer.

Bay View Asylum,
Balto. June 16th 1875.

To Drs. Fenton and other Resident Students at Bay View Asylum,

Gentlemen,

Your communication of the 1st instant, was duly presented to us, and our reply to its contents, was delayed, in the hope That we would have a fuller attendance at the Board, at a subsequent meeting, than was present on the day of its receipt. You state in your communication that it was the "Understanding of each and every one of us, now, resident Physcians at Bay View previous to entrance upon their duties at said Institution, that the Dead House, attached to the Asylum, was under the exclusive control of the Visiting and Resident Physcians with the exception of such cases, as would be claimed, within specified hours after Death &c. The Board are not aware, That any such understanding was arrived at, between you and them, nor have they any recollection of any conversation, upon That subject, having transpired between us. If such a proposition as that indicated in yours, would have been submitted to us, it would not have met with any favor at our hands. We would be derilict in the discharge of the duties enjoined upon us, and very properly subjected ourselves, to public censure, if we yielded to any department connected with the Institution, exclusive control of the same, when the management of its entirety is confided to us, and we are held responsible for the proper administration of all the Departments.

We presume, Gentlemen, That you were severally furnished, with a Copy of the Rules, adopted for the government of the various

departments of this Asylum. By reference to Articles Sixth, under the caption of "Duties of the Resident Students" you will find the following language employed, to wit "The Students shall under the direction of the attending Physicians, have the privilege of making Post-Mortem Examinations of their respective cases, except in those cases where the friends of the deceased apply for the bodies for burial at their own expense, All Post Mortem Examinations are to be conducted in a private and otherwise unexceptionable manner" Out of the interpretation of this Rule arises the difference of opinion, now existing between the Superintendent and yourselves. Upon inquiry of the Superintendent, we learn, that he has not at any time, interposed any objections to Post Mortem Examinations being made by you. When made, in conformity with the true intent and meaning of the Rule above recited, but that his objections, consist to your making use of the Dead bodies, or portions of them, for purposes not contemplated by the above Rule, and that such use, as it was designed to make of the Dead bodies, come in conflict, with that portion of the above recited Rule, which requires Post-Mortem Examinations to be made in a private, and otherwise unexceptionable manner.

If your object in asking us, to notify the Superintendent, not to interfere with Bodies, after they have been placed in the Dead House, is for the purpose of appropriating them, or, any portion of them, to private uses, you are asking us, to do that, which we have no authority to do, and, if we were authorized, would deem its exercise, to say the least of it, of very doubtful expediency for more reasons than one.; You will therefore excuse us, for declining to grant your request.

Very respectfully

By order of the Board of Trustees for Bay View Asylum

signed, Henry Snyder, President.

upon him, the appointment, and who are held responsible, for the welfare and good management of the Institution committed to their charge? this leave of absence however, was granted upon the condition, that he should furnish, without any charge to the City, a substitute fully qualified, to a proper discharge of the duties pertaining to the position, and who would be entirely acceptable to the Board of Trustees, so that the Institution should suffer no detriment by reason of his temporary absence: this condition he has complied with, by substituting his Son, a young man, twenty four years of age, who has been assisting his Father, for several years past in the transaction of the business pertaining to the office, and who has thus acquired a thorough familiarity, with the duties enjoined upon him, and who has thus far discharged them, in a very creditable and acceptable manner. In further answer to the third enquiry, we beg permission to say, that the Act of Assembly confers the power of appointment of Purveyor, to the Board of Trustees, and having thus, the Authority to appoint, we presume it carries with it, the Authority to remove, either temporarily or permanently, their appointee, and of substituting another, to supply his place, and we are therefore not aware, that we have transcended, the Authority vested in us by permitting the substitution to be made, as is hereinbefore indicated, Very respectfully submitted Signed by Henry Snyder, Joseph Clarkson, Joseph Friedenwald, Thomas White, Joshua H Atkinson, Trustees,

Baltimore September 30th 1876

At a special meeting of the Board, called upon hearing the painful intelligence of the Death of their esteemed fellow member, Joshua H. Atkinson, the following proceedings were had.

Whereas it has pleased an all wise Providence to call to his eternal rest our colleague and Co-worker in the management of this institution, and although it behooves us to bow submissively to His unerring dispensation, yet we cannot withhold the expression of our deepest regret at the infliction visited upon us, in taking from us one of our most dearly beloved and useful members.

In the demise of Joshua H. Atkinson, the City has lost an able, efficient, conscientious and faithful Officer, the Board of Trustees, one of its most agreeable associates and wisest counsellors, the inmates a devoted friend, who was ever ready and willing to minister to their wants and comforts.

Therefore Be it Resolved, That we tender our heartfelt condolence, to his Aged Mother and other surviving relatives in their most painful bereavement, and that the Trustees and Officers of the institution, as a last tribute of respect to departed worth, attend the funeral of our lamented friend.

Resolved, That a copy of the proceedings, be presented to the Aged Mother of the deceased, and that it be entered on the Journal.

Whereas, An Italian Woman, named Rosa Brecalau came to Bay View Asylum, as an Inmate February 25th 1876, and remained in the Institution until the 13th day of April next following, when she Died, upon enquiry Capt. Mitchell, the Superintendent, discovered that the deceased had deposited to her credit, and in her own name in the Savings Bank of Baltimore Seven hundred & fifty two 67/100 dollars not knowing that said deceased had any relatives in this Country, Capt. Mitchell applied for

and obtained letters of Administration, and thus came into possession of said funds, On this day the Revd. Father Andreas of St. Vincent Church, presented what purports to be a Letter of Attorney, from an individual who claims to be the Husband of said deceased, and is now living in Italy, authorizing the said Father Andreas, to collect from the said Administrator such proportion of the Estate of said deceased, as he, as the husband of said deceased, may rightfully be entitled to. On the same day a communication was received by the Board of Trustees from the Italian Consul, residing in the Port of Baltimore, requesting the Administrator to have the Orphans Court to revoke the Letters granted to him as aforesaid, in order that the said Consul, may take charge of the Estate of the said Rosa Brecalau, with a view of distributing the Assets, to such of the surviving relatives as may rightfully be entitled to receive the same, in conformity to the treaties existing between Italy and the United States, because as he alleges, the deceased left no Heirs in the United States, And if we are correctly informed the deceased, has now living in this Country One or More Children, who would, we presume upon establishing their identity, be entitled to a distributive share, Therefore Resolved that the President of the Board, confer with the Law Officers of the City, with a view of eliciting their opinion in the premises.

The Board convened at a Special meeting. Present Col. Snyder. Joseph Clarkson & Thomas White. and decided to visit Bay view Asylum this day. and after their visit, they adjourned to meet at the Office. City Hall on Monday January 8th. and requested that Dr. Tiffany and Teackle to be in attendance.

Office of Bay View Asylum. City Hall.
January 8. 1877.

The Board met at 11 o'clock a. m. Present Col. Henry Snyder. President. Joseph Clarkson. Thomas White and Joseph Friedenwald. Secretary. when the following was adopted.

Whereas a sensational Article, was published in "Balto American" and "Baltimore Bee", on the Morning of Saturday last. charging the Officers of Bay View Asylum. with treating with great inhumanity One "Samuel Johnson" Colored, who was placed in said Institution by his friends, on the 8th day of December last past, and who remained in said Asylum until the 18th of the same month, when his friends called for and removed him to his home, on Ophia Alley, where as is alledged, he is still suffering from the effects of the bad treatment, he

received, whilst an inmate of said Institution,

Therefore. Be it Resolved that Drs. Tiffany and Teackle be requested to visit said Johnson at his residence and enquire into the Mental and Physical condition of said Johnson previously, to his having been placed in Bay View Asylum, as also the character of his treatment, he has received since the 18th of December, the time at which his friends, removed him from the Asylum, and report at the earliest practicable moment.

Dr. Stewart, City Health Officer, was requested by the Board of Trustees, to accompany Drs. Tiffany and Teackle, to see Johnson at his residence, and to unite with them, in the investigation of his condition, who kindly consented to do so.

Report of Dr. Tiffany. Saml. Johnston, colored aged 26 years, entered Bayview Asylum Dec. 8. 1876. examined by Dr. Price and Wylie, admitted by Dr. Price, Senior Medical Officer, Patient was carried into the Office of the Institution by his friends, carried bodily, bound with rope, his wrists were tied tightly together & marked deeply by the cord; The hands were swollen, The wrists were tied to his waist, The elbows and arms to his sides, The rope being wrapped around and around his body a number of times, his Ankels were tied very tightly together, the feet much swollen. his feet were at once unbound and with the assistance of four attendants, he was assisted to the Colored Insane department, being scarcely able to walk, he complained several times to the Physcians saying "My feet hurt me". It was reported to the Physcians that he had attempted to injure or kill his attendants, On arrival in the Colored Insane department, he was stripped and examined by the

Physicians, Physically excepte the hands and feet he was well, Wrists and Ankles marked by rope. He was unruly, and was confined in a Strait Jacket, Bay View Asylum, provided in its construction no adequate accomodations for the insane, it has always been necessary, to prevent injury to themselves and others, to confine this class of patients, during an attack of violent Mania by one limb, this was required and was done in the present instance, A Mattress was supplied to him, on the floor as is proper during a paroxysm of Mania, also two blankets. He wore shirt, drawers, socks. I saw him the following day Dec 9th at my regular visit He was acutely insane, would not remain in bed, would remain covered occasionally only, laid upon the floor etc etc. I examined his feet carefully; They were swollen, somewhat discolored etc & presented the same appearance as on the previous evening, when he was brought to the institution, in the opinion of the Physicians. The condition of the feet was due to the interruption of the circulation, not having the history of the patient previous to his admission to Bay View. I attributed the condition of the feet to the ropes which had been tied around the Ankles, the said binding being amply sufficient to account for the trouble, I instituted proper treatment, The Patient refusing to take medicine, the prescriptions ordered were administered surreptitiously in Coffee of which he was fond. By the 11th the patient had greatly improved, & was able to converse with some show of reason etc, This day he complained a little of Cold, a third blanket was supplied him, The condition of his feet had not improved, nor did they while in the Asylum, He was seen by the Physicians when making their daily rounds, He was seen by me at any daily visit, Having paid for board his food, was better than that of the other inmates, it was supplied regularly and was occasionally not all eaten by him.

No pane of glass was broken in the window opening upon Johnston's Cell during his stay at in Bay View. One night an insane patient having torn up everything within reach, took off his own shoes and threw them through a window, but this was not in the part of the room, that Johnston occupied, nor was the window near him. In the same room with Johnston were lodged seventeen (17) Inmates. of these five (5) slept on Mattresses laid on the floor, that they might not suffer injury by falling from a bedstead, Epileptics one (1) suffering from acute Mania had a Mattress on the floor, when he did not tear it up. None of these patients were frozen. Johnston was discharged Dec 18 by request, he could walk with difficulty, being assisted down stairs by three men. The extent to which his feet were affected was not apparent when discharged, no time having formed to seperate healthy from diseased parts. The Morning of his discharge he dressed himself almost without assistance. When leaving he thanked the Resident Medical Officers for their kindness to him. In conclusion.

1st Samuel Johnston was properly cared for when an inmate of Bay View Asylum.

2nd His feet were diseased when he entered the Institution.

3rd He was not frost bitten at all.

Hon. Board of Trustees for Bay View Asylum.

Gentlemen.

In accordance with the resolution of your Hon. body hereto appended, I visited Samuel Johnston, Colored, lately an inmate of Bay View Asylum at his home No. 30 China Alley. This day January 8th I was accompanied by Dr. James A. Stewart, Health Commissioner, and Dr. St. George W. Teakle, Visiting Physician to Bay View Asylum.

I found Samuel Johnston insane, suffering from gangrene of both feet; the line separating healthy from diseased tissue, followed accurately the deep impress of the ropes with which his ankles were found when he was carried to Bay View. I learned from his family that he remained bound with rope for three days prior to his removal to Bay View Asylum. I concluded my report January 6th of this case with three statements.

1st. That Samuel Johnston, when an inmate of Bay View was properly treated.

2nd. That when Sam. Johnston, entered Bay View his feet were diseased.

3rd. That he was not frost bitten at all.

These propositions I reaffirm, and add furthermore

1st. That he is now suffering from gangrene of both feet.

2nd. That the gangrene of the feet, from which he now suffers, is the direct result of injudicious confinement with ropes.

3rd. The said ropes were upon his person when he was first carried into Bay View Asylum, and were

On the 8th day of Dec. last I learn by his friends, that he was committed to Bay View and that he was conveyed there by his friends, his feet & hands being secured by ropes. He was received as I understand and believe with his feet swollen & his Ankles abraided, due to injudicious tying. His injuries, which will result in the loss of his feet from gangrene, is not in my opinion due to any improper treatment while an inmate of Bay View Asylum. I am very truly your obt Serv. A. W. When the following communication was read, from the First Branch of the City Council.

To the Honorable the Board of Trustees of Bay View Asylum

Now Henry Snyder, President.

I have the honor, to submit the following true Copy of a Resolution, which has been adopted by this Branch of the City Council.

"Resolved by the First Branch of the City Council of Baltimore, That the Board of Trustees of the Poor, be and they are hereby requested to inquire into the expediency and to report to the Council as soon as practicable, upon the advisability of establishing in connection, with Bay View, a receiving Asylum, within the City where cases of sudden illness or Accident may be taken, and where the deserving poor in destitution and distress may be temporarily provided with food and lodging instead of being forced, as they often are to take shelter in the Station Houses among the drunken and depraved."

Very respectfully &c
A. V. Mitholland,
Chief Clerk

We would respectfully reply, That by Ordinance No. 63 Approved April 28. 1876 provisions is made for the reception of twenty five City Patients in the Hospital attached to the Washington University

and for a like number of City Patients, in the Hospital attached to the University of Maryland, where cases of sudden illness or Accident may be taken for maintenance and for Medical and surgical treatment by the Physcians and Surgeons attached to the respective Universities. These Hospitals are eligibly situated, easy of access, and will in the future as they have in the past, subserve the purposes contemplated in the inquiry.

In reference to that portion of the inquiry in relation to a receiving Asylum, in connection with Bay View within the City, we would say, that we deem such a project entirely impracticable, as it would be virtually establishing an Alms House in the City, with all the attendant expences indispensable to such an Institution. It would afford no releif whatever to our own deserving poor, or to the deserving poor Non-resident, but would in its effect, in our judgment be the establishing of a kind of half way House for the worthless tramps that roam over the Country for purposes of support or plunder.

We the Board of Trustees of Bay View Asylum, sincerely lament the Death of our former Colleague Col. Henry Snyder, which occurred on May 27 1879. There are indeed few, who leave such a large Void in the known Charities of this City.

He was for many years, the President of this Board, where he had endeared himself, to the Poor, Sick and afflicted Inmates of this Institution, his courteous manners, integrity of purpose and assiduity of attention to the laborious work of Presiding Officer, won for him the esteem and affection of his fellow Trustees, who held him during life, with the highest veneration, and now Mourn his Death as an inestimable loss.

Therefore, Be it Resolved,

That we bow with humble submission, to the Will of the Supreme Ruler of the Universe and ask his Mercy, for the consolation of his bereaved family.

Resolved that a Copy of this Preamble and Resolutions, be sent to the Family of our deceased Brother, and also be spread upon the Minutes of the Proceedings.
