RICHMOND, July 16.

By a gentleman just from Augusta in Georgia, we informed that about the beginning of June, a all party of Indians hunting on the frontiers of eorgia, three of whom met a negro belonging to e of the inhabitants of Wilks county, who they mediately seized and forced away with them, as ey were going towards Shoulder Bone, on Okoo- ee river, they met with one M'Michael and ano- her young lad going home from hunting, who en- deavoured to persuade the Indians to set the negro liberty, which they refused, and for fear of be- discovered, one of them fired at M'Michael hom he killed on the spot, and took off two scalps, other endeavoured to make his escape, but was osely pursued by one of the Indians, who came up ith him and killed him also, and hid him among me bushes. The report of the guns was heard ones of the neighbours, whose curiosity led him to e who it was, thinking it to be some of the inha- itants hunting, when to his astonishment he met ith M'Michael, who he knew, dead and scalped the road. He immediately alarmed the neigh- ourhood, who went in pursuit of the Indians, but efore they got to the river, the Indians had crossed er with the negro. They left their guns and shot ouches behind till they got the negro clear over, but ing closely pursued could not return for them, hich fell into the hands of the white people, and in e of the shot bags were found two scalps. The ext day colonel Alexander of Wilkes county militia, ith a party of between 40 and [illegible] came up with six Indians [illegible] ho after informing them [illegible] ho killed the white people [illegible] with the negro, ey immediately put them to [illegible] Colonel Alexander [illegible] the Indians came up with them [illegible] night, rescu- e negro, and killed the [illegible] in [illegible] nd the two succeeding days they came up with, d killed in all 18 Indians. [illegible] days [illegible] olonel Alexander had raised [illegible] 250 and 300 olunteers, in Washington and [illegible] counties, hom he marched into the lower [illegible] tion, in order to burn all their [illegible] destroy much of their provisions as possible, before the dians would be all alarmed; so that there is not least doubt of a serious war between the Georgi- s and Indians this fall.

ANNAPOLIS, August 9.

Extract of a letter from Dartmouth, dated July 22, 1787.

"At a late examination in Dartmouth college, ere appeared a monster of erudition, viz. A young ntleman from Ireland, who, upon a sarcastical unt being reflected on the schoolmen of his coun- , gave the preceptors and examinators, a formal erary challenge, in which he gave them choice of e languages, and the chief of the most essential ts and sciences; a day was appointed accordingly, d crowds flocked thither to be spectators of the rned combat, and many wages were laid by Eu- pean gentlemen in behalf of their countryman. he youth appeared, and in the space of three hours tally confuted their arguments, insomuch, that ving no subterfuge, they tamely acknowledged his nsscending superiority; he harangued extemporane- ly for eleven hours, in which time he gave such nal proofs of his exquisite knowledge in the learn- and oriental languages, and the arts and sciences, at the arbitrators, in their verdict, declared (that they had not been eye witnesses to his perform- ce) they would look upon it as an impossibility for e most brilliant genius to attain the knowledge he s possessed of in less than half a century.

A glorious incentive to excite emulation in the dious youths of this state, in their pursuit of li- ature, which, alas! is too much neglected.

N. B. The aforesaid youth appeared to be scarce his twentieth year.

A correspondent informs us that 1500 such lumina- s would rise in our western hemisphere.

One for every state.

Messrs. PRINTERS,

burn half a bushel, or three pecks, of (green) old d red oak bark to ashes, boil the ashes in three llons of water, until reduced to one, strain that e gallon off, and boil it away to thick substance, milar to butter-milk or cream), apply a small quan- on a piece of silk or flat, to the cancer, no bigger n the place or part affected.—I have known two illers to effect a cure, where the cancer lay in a per position for the medicine immediately to pene- e down to the roots of it, otherwise it may take eral plasters; as the medicine must be repeated ry two hours until the cancer's roots are suffici- y killed, then apply healing salve (with a little ercurial ointment mixed therein) and dress it twice y, until cured, which is will surely be in about twenty or thirty days (at farthest). I have known several persons entirely relieved of cancers (and none have failed) by the above prescription—One in particular, was cured after being twice cut by a skilful doctor.

P. S. After being greatly alarmed myself with a cancer, about three years ago, having followed a most impartial, and well experienced skilful doctor's directions for some time, contrary to his opinion, and my family's fears, (on that account), I, nevertheless, most happily experienced two plasters of the above medicine, with infallible success insomuch that no symptom of it has ever appeared since.

PUBLICOLA to ARISTIDES is received, and will be inserted in our next.
