To the CITIZENS of Anne-Arundel and Prince-George's counties.

GENTLEMEN,

HAVING frequently heard it expressed, with respect to your next delegation to congress, that re were objections both to col. Mercer and capt. mpbell, and at the same time a wish, that some er person would come forward; I am therefore inced to offer my services, that, if it should be the h also of a majority of the citizens of the district, y may be thereby enabled to avoid electing either them—And, as my sentiments with respect to gonment, may not be sufficiently known, I think it per to publish them on this occasion, that you may ge in time, whether they are such as would probaincline me to vote and act in congress in opposition our sentiments.—My idea is, that the great source political happiness is the *confidence* the people themes have in their government—That, although gonment be very imperfect as to its *principles*, yet the ple may be very happy if they could only have a confidence in its administration, and that, alugh a government be *perfect*, yet the people cannot bly be happy if their confidence in it should by means be destroyed—therefore, (though a politiought always to be guarded against encroachments he rights of the people) I should be induced, in *ases* of *doubt*, to act and vote in support of the ing measures of the government, and in such a ner as would have the least tendency to destroy the dence of the people in the persons into whose they had entrusted the administration. As capt. bell has declined, I shall only observe as to col. er, that unless you believe his political sentiments as would induce him to act *more* in conformity to wishes than myself, you will judge for yourselves ther that sentiment of *rotation* to be derived from principles of free government, ought to be a suffit inducement or not, to prevent your continuing in preference to electing

ALEXANDER HAMILTON.

November 23, 1791.

To the VOTERS of Anne-Arundel and Prince-George's counties.

GENTLEMEN,

MY address comes to you, not cloaked with the sophistry and ingenuity of a lawyer, nor is it aided by the artifice of a speculator, but its the genuine language of a heart that throbs within the breast of an honest planter. From the solicitations of my friends, I am induced to make you a tender of my services as a delegate for the second district; this may be a matter of more moment than you may imagine. It is your duty, Sirs, to come forward on the present occasion, and make every exertion to elect a man of unblemished character—Let him be a man of independent principles—Let him be a man of sound judgement—Let him be a man noted for his assiduity, industry and sobriety—Let him be a man of the same occupation with yourselves; for believe me, interest is the energetic—interest, I say, is the main-spring by which all men are actuated—Then your best, your only security, is to elect a man whose interest and yours are inseparable; who, to give a vote that would injure you, must essentially injure himself.

I have no other occupation under the canopy of the Heavens but the cultivation of my lands—The whole of my property is vested in lands and negroes, the production of which is tobacco and wheat—This then, Sirs, makes me a fast friend to the planter—this then, Sirs, makes me a fast friend to the farmer.

I flatter myself these are reasons sufficient to evince every impartial reader that its his interest to give my scale the preponderancy; and should I be so happy as to be elected by the voters of this district, I do, in the most solemn manner, pledge the sacred honour of a gentleman, that the best of my abilities shall be devoted to your service—It shall be my first, my last, my only study, to support your government, to make you a free, independent, and happy people.———This is the pure language of him who has the honour to subscribe himself——

Your most obedient, and, I sincerely hope,
Humble servant,

RICHARD A. CONTEE.
