THE SO-TO

I've seen many a girl
Who would marry a churl,
Providing he'd plenty of gold,
And would live to repent
When the money was spent,
When she found that her heart had been sold,
It is so! It is so!
You may smile if you like,
But it's so!

I've known many a lass
Who would thoughtlessly pass
Whole hours promenading the street,
While her mother would scrub
All the while at the tub,
Never minding the cold or the heat.
It is so! It is so!
You may smile if you like,
But it's so!

There is many a man
Who will "dress" if he can,
No matter how empty his purse,
And his tailor may look,
When he settles his book,
But his patron has vanished, or worse.
It is so! It is so!
You may smile if you like,
But it's so.

I know people so nice,
They will faint in a trice,
If you mention hard labor to them;
Yet their parents were poor,
And were found to endure
Many hardships life's current to stem.
It is so! It is so!
You may smile if you like,
But it's so!

There are many about
With faces "long drawn out,"
Who will prate for the harm of a laugh,
Yet they will cheat all the week,
Through Sundays quite meek,
To my mind they're too pious by half.
It is so! It is so!
You may smile if you like,
But it's so!

VARIOUS ITEMS.

—When was beef-steak the highest? When the cow jumped over the moon.

—Which runs the faster, heat or cold? Heat, because you can catch cold.

—Why are persons born blind unfit to be carpenters? Because they never saw.

—A lady, on putting on her corsets, is like a man who drinks to drown his grief, because in *so-lacing* herself she is getting *tight!*

—Why cannot a deaf man be legally convicted of crime? Because it is not lawful to condemn a man without a hearing.

—Dean Swift said, with much truth, "It is useless for us to attempt to reason a man out of a thing he has never been reasoned into."

—The first institution vouchsafed to our race was the Sabbath; the next, marriage. So, give your first thought to Heaven, the next to your wife.

—A Southern paper says: "The Yankee business of cheating negroes seems to be rapidly approaching the dignity of one of the fine arts."

—Young gentlemen who would prosper in love should woo gently. It is not fashionable for young ladies to take *ardent spirits*.

—Do one thing at a time—that's a rule. When you have done slandering your neighbor, begin and say your prayers.

—One of our contemporaries, in an obituary of a young lady who lately died, closed by saying, "She had an amiable temper, and was uncommonly fond of ice cream and other delicacies."

—Josh Billings says he always advises short sermons, especially on a hot Sunday. If a minister cannot strike oil in forty minutes, he has either got a poor gimlet, or else he is boring in the wrong place.

—A criminal being once asked what was the first step that led to his ruin, answered: "Cheating a printer out of two years' subscription. When I had done that, the devil took such a grip on me that I could not shake him off."

—A publisher of a newspaper out West in his first issue of his journal, returns thanks to those who loaned him pecuniary means, and gratitude to heaven, that there is no law in that State enforcing imprisonment for debt.

—Pride is as cruel a beggar as want, and a great deal more saucy. When you have bought one fine thing you must buy ten more that your appearance may be of a piece. It is easier to suppress the first desire than to satisfy all that follows it.

—The editor of a new paper in Nebraska begins his introductory article with the following sentence: "The object in view in the establishment of this paper is the procuring of means wherewith to buy bread and butter and good clothes."

—A New Jersey editor who classically called in Prometheus to illustrate one of his articles, was fearful that his readers might not be familiar with the history of the long-suffering captive, and so proceeded to enlighten them by saying: "Prometheus was a Roman who was chained to a rock for killing and eating a vulture, the vulture being considered among the Romans a sacred bird." There's lore for you!

—"Luck" and "Labor" both begin with the same letter, but end with very different results. Luck is ever waiting for "something to turn up;" labor, with a keen eye and strong will, bravely turns up something. Luck lies in bed, and wishes that the postman would bring him news of a legacy; labor turns out at six o'clock, and with busy pen, springing hammer, lays the foundation of a competence. Luck whines, labor whistles; luck relies on chance, labor on character; luck slips downward to indigence; labor strides upward to independence.

Physicians and Others
PLEASE NOTICE.

I make no secret of ingredients. Helmbold's Buchu is composed of Buchu, Cubebs, and Juniper Berries, selected with great care, prepared in *vacuo* and according to rules of
PHARMACY AND CHEMISTRY.
These ingredients are known as the most valuable Diuretics afforded.

HELMBOLD'S EXTRACT BUCHU
Acts Gently,
is pleasant in taste and odor, free from all injurious properties, and immediate in its action.
FOR THE SATISFACTOIN OF ALL
See Medical Properties contained in Dispensatory of the U. S., of which the following is a correct copy:
"BUCHU.—Its odor is strong, diffusive, and somewhat aromatic, its taste bitterish, and analogous to that of mint. It is given chiefly in complaints of the Urinary Organs, such as Gravel, Chronic Catarrh of the Bladder, Morbid Irritation of the Bladder and Urethra, Diseases of the Prostrate, and Retention or Incontinence of Urine, from a loss of tone in the parts concerned in its evacuation. FROM THE
LARGEST MANUFACTURING CHEMISTS IN THE WORLD.

I am acquainted with H. T. Helmbold, he occupied the drug store opposite my residence, and was successful in conducting the business where others had not been equally so before him. I have been favorably impressed with his character and enterprise.

Ninth and Brown Streets, Phila.

[From the Phila. *Evening Bulletin*, Mar. 10th.]
We are gratified to hear of the continued success, in New York, of our townsman, Mr. H. T. Helmbold, Druggist. His store, next to the Metropolitan Hotel, is 28 feet front, 230 feet deep, and five stories in height. It is certainly a grand establishment, and speaks favorably of the merit of his articles. He retains his Office and Laboratory in this city, which are also model establishments of their class.
The proprietor has been induced to make this statement from the fact that his remedies, although advertised, are

Genuine Preparations,
And knowing that the intelligent refrain from using anything pertaining to quackery, or the Patent Medicine order—most of which are prepared by self-styled Doctors, who are too ignorant to read a physician's simplest prescription, much less competant to prepare pharmaceutical preparations.

THESE PARTIES RESORT
to various means to effect sales, such as copying parts of advertisements of popular remedies, and finishing with certificates.
The science of Medicine stands SIMPLE, PURE, and MAJESTIC—having Fact for its Basis, Induction for its Pillar, Truth alone for its Capitol.

A WORD OF CAUTION.
Health is most important; and the afflicted should not use an advertised medicine, or any remedy, unless its contents or ingredients are known to others beside the manufacturer, or until they are satisfied of the qualifications of the party so offering.

SOLUBLE
PACIFIC GUANO.

200 LBS. SOLUBLE PACIFIC GUANO contains 70 lbs. *animal matter* yielding 7 to 8 lbs. *ammonia.*
Also 60 to 90 lbs. *earthy bone Phosphate of Lime*, 30 lbs of which are *soluble phosphate.*
It combines all the advantages of the *best brands* of Super Phosphate, with those of Peruvian Guano.
By reason of its greater *concentration*, we recommend 20 per cent. less by weight to be used per acre, than of any fertilizer costing the same per ton, and no more per acre than of those selling at 20 per cent. more per ton. Hence *its economy.*
This Guano weighs 65 lbs. per bushel, hence in applying it farmers must be governed by weight and not by bulk, for it is much lighter than the Super Phosphates. *Every cargo duly inspected.*

"Flour of Bone."

WE WILL GIVE A MONEY GUARANTEE of the *purity* of this article. It is *pure unscorched, unburnt bone*, reduced to the fineness of flour, which adds 100 per cent. to its value. It is as *quick and active* as acid *dissolved bone*, hence its value is vastly greater, because it contains neither acid nor water, which necessarily add weight and reduce the quantity of valuable elements. We recommend 250 lbs. to be used in place of 300 lbs. Super Phosphate or dissolved bone.
