A Bumper From an Old Horseman.

Over the signature of an "Old Horseman," I wrote you a few lines recommending to the Robert Bumper's singular medicine, which I had proved to be, verified in this morning's paper. If however, it can will benefit of a thirty years experience among the equine race. Now, sir, I have no hesitation in saying that the recipe about to be given, is at least recommended by every person owning a horse, it is known to be one of the very best condiments and tonics in creation, which is simply Bell's India Cattle Powder, mixed in a warm bran mash, one tablespoonful to three quarts of bran, and one tablespoonful of common salt. Almost every horse will eat this heartily, and no better food should be given him, as this alone does will influence more result than enough to stable and better his coat. Kill a mess of horses. At the same time his legs and body should be kept warm, and his wounds washed with Bell's Vinegar, and if strictly adhered to, I do not hesitate saying that it will do on the high road to recovery. By the way, the best article of the kind recommended I have found to be either the one made by Thwaite of Dedham, and sold by any respectable grocer.

An Old Horseman.

Old Adam's Mistakes.

Old Adam C—, residing in Berks county, had a wide way of calling every mistake. Two days ago he will [illegible] the agent [illegible] Lancaster [illegible] about sixteen years [illegible] Old Adam [illegible] Lancaster.

Dissolved Bone.

It is the Best Paying Article In the Market.

READ THE FOLLOWING:

I have tried Clark's Dissolved Bone on my corn this year, and am much pleased with the result. I also used a higher priced article, and find Clark's the superior fertilizer for corn.

W. H. REID.

Langley, Fairfax co., Va., Aug. 1, 1871.

I have used Clark's Ammoniated Dissolved Bone beside other higher priced fertilizers, and consider it the best now manufactured.

R. W. MILLER.

Fall's Church, Va., Aug. 2, 1871.

Mr. O'Neale:—I used Clark's last year, and am much pleased with it. I put it on some potatoes, leaving one row without any. Where I applied Clark's I got a good yield of fine potatoes, but on the row where I used none, I got no potatoes. I consider it a genuine article, and shall use it again.

Very respectfully, JOHN PEDREY.

Falls Church, Va.

I like Clark's Dissolved Bone better than anything I ever used. I used it with several others, and find it the best. I shall never use anyother as long as I can get it.

ROBT. WALKER.

Alexandria co., Va.

I tried Clark's, beside several others, and find it equal to any. It is a good thing.

ALFRED LEIGH.

Fairfax co., Va.

I used Clark's on late potatoes last year, and got finer potatoes than where I used Peruvian Guano and Bone.

THOS. J. PEACOCK.

Fairfax co., Va.

I have used Clark's alongside of ——, and like it very much, and can recommend it as a superior article. I shall use it in future. It pays.

WM. HUDDLESON.

Georgetown, D. C., Aug. 23, 1871.

I have used Clark's Dissolved Bone side of (every) other, and think it the best I ever tried on corn. I made some of the finest corn I ever saw with it last year. I intend to use it in future.

W. S. OLIVER.

Prospect Hill, Fairfax co., Va., Aug. 23, 1871.

I find Clark's an elegant fertilizer; have used it on corn and wheat, and like it better than any other.

A. H. G. DARNE.

Fairfax co., Aug. 26, 1871.

CERTIFICATE.

The State Inspector of Georgia, says:

The recent analysis of Clark's Ammoniated Dissolved Bone warrants me in pronouncing it a highly reliable compound for the liberal and effective nutrition of crops, with a sufficient quantity of ammonia to stimulate, develop and sustain the plant. It contains a liberal proportion of Soluble Phosphoric Acid to insure an ample fruitage. It, therefore, has an official sanction as a good fertilizer.

A. S. MEARS,
Inspector, Savannah, Ga.

Ask those who have used it.

It is genuine. Every package warranted. Go and examine before buying.

JAS. R. O'NEALE,

188 Bridge Street,

GEORGETOWN, D. C.

A liberal share of patronage is solicited.

W. REUBEN PUMPHREY,
Washington Street,
Rockville, Md.

june 10—tf

Composed of 800 pounds of No. 1 Peruvian Guano, and 1200 pounds of Soluble Phosphate of Lime, (bones dissolved in Sulphuric Acid,) Potash and Soda.

Forming the most concentrated, universal and durable fertilizer ever offered to the farmer, combining all the stimulating qualities of Peruvian Guano and the ever durable FERTILIZING PROPERTIES of Bone. In fine dry powder, prepared expressly for drilling, and can be applied to any quantity, however small, per acre; and it is the opinion of many close calculating Farmers, after THIRTEEN years experience in testing it side by side with other popular fertilizers, that an application of 100 pounds of Excelsior is equal to from 200 to 300 pounds of any other fertilizer of guano offered for sale, and therefore is fully 100 to 200 per cent. cheaper.

Look out for imitations and counterfeits. The popularity of Excelsior has induced unscrupulous parties in this and other cities to copy our trade mark, and resort to other dishonorable means to sell their worthless compounds.

Farmers should see that every Bag is branded as above, with the analysis and OUR NAME in RED LETTERS. All others are counterfeits.

PRICE $60 PER TON.
