To the Public.

CALEB M'KENZIE, *Mathematical Instrument Maker* from Philadelphia, at No. 21, Thames-street, Fell's-Point, next door to Mr. James Ransey's, takes this method of informing the citizens of Baltimore, the Mercantile and seafaring part in particular, that he has been induced, in consequence of the death of Mr. Sweeny, to leave a very good establishment in Philadelphia for the purpose of carrying on the above business in this city where he flatters himself from his being regularly brought up to his profession, by an apprenticship of seven years, added to the experience of five years as a foreman, and two years as a master, he shall be enabled to give every satisfaction to those gentlemen who may please to honor him with their business; and as C. M'Kenzie is the only person at present in this city, who has been regularly bred to his profession, he has reason to hope that he will have no cause to regret the exchange he has made.

N. B. Sextants, Quadrants, Telescopes and Compasses cleaned and repaired in the most correct manner. Brass and wood compasses made to any size or dimension. Gauging rods of all kinds made on the most approved construction.

I do certify that the bearer Caleb M'Kenzie has been regularly instructed by me, in the Mathematical and Optical branches of business, and that he is capable of carrying on the same in such a manner, as to give satisfaction to all those who are inclined to employ him.
THOMAS BIGGS,
Mathematical and Optical Instrument maker, No. 85, South Front-street, Philadelphia

We believe the above character given of Mr. Caleb M'Kenzie, to be strictly just and well deserved.

Wm Gwynn, — Thomas Sheppard,

Peter Diffenderffer, — John Small,

William Price,
July 14.

To the Stockholders in the Mechanics' Bank of Baltimore.

GENTLEMEN,

THIS morning you will be called upon to make choice of fifteen directors to organize and manage this institution for one year, it is therefore of the utmost importance to elect men of known integrity and impartiality; men, whose private and public conduct will stand the test of investigation, and men whose lives have not been disgraced by some selfish and dishonorable passion. It is an incontrovertible fact, the success which will attend this institution greatly depends on having it go into operation under the particular direction of men of independent minds and honest principles. I have sincerely at heart the welfare of the Mechanics' Bank, and have no other wish than to see it flourish, and become useful to this growing, enterprising and populous city. Without disparagement to other candidates, the following gentlemen are earnestly recommended as proper persons, and whose characters are too well known to require any eulogium from

CANDOR.

Wm. Jessop, — Owen Dorsey,
George Valiant, — Adam Fonerden,
James Mosher, — John Roy,
Robt. C. Long, — Robt. Stewart,
Wm Jackson, — Jacob Small,
George Warner, — John Trimble.
Christian Mayer,

Mr. Pechin,

Sir, observing in your paper that Mr George Taylor is in nomination for the Mechanics' Bank, on the part of the retail dry good merchants, I shall certainly give him my vote, not only because he is the choice of the retailers, but because he certainly is a man of information, in every independent circumstances: a gentleman of high sense of honor, and a strenuous and able supporter of the mechanical and retail interest. He has evinced his friendship for the institution, by becoming a large stockholder, and I hope will be generally supported, as I am well convinced a more proper character could not be selected.

A LARGE STOCKHOLDER.

Mr. Pechin,

As this day the stockholders in the Mechanics' Bank are called on to select from the numerous candidates suitable characters to direct and govern that institution, and as it is a high trust and will require more ability and skill to conduct the affairs of the company in such a manner as to render the institution respectable and respected, as well as profitable, and that the object contemplated in the establishment may be fully realized, it behoves us to be in honest in our choice of directors, and to elect those only who are likely to promote the prosperity of the institution, which I am fully persuaded will prosper to the full extent desired, under the following gentlemen:

James Mosher, — Wm Price,
William Jessop, — John Roy,
Wm. Gwynn, — William Jackson,
Isaiah Mankin, — George Taylor,
Adam Welsh, — George Warner,
Joseph Jamison, — C. Mayer,
John Sinclair, — Peter Little
Robert Stewart,

Are respectfully recommended to those who are interested, by A STOCKHOLDER.

Mr. Pechin,

As I know you are a well-wisher to working mechanics, please insert the following ticket:

James Mosher, Architect,
James Sloan, Shoemaker,
Robert Stewart, Cutter of Stone,
George Warner, Maker of Bricks,
Hezekiah Price, Carpenter & Lumb. Mert.
Wm Jackson, Blacksmith,
Adam Fonerden, Cart Maker,
Jacob Miller, Tanner of Leather,
Christ. Raborg, Brazier and Coppersmith,
Aquilla Mills, Retail Wet & Dry Store,
Joseph Jamison, Measurer and Inspector,
John Roy, Ironmonger,
John Hillen, Grocery Store Keeper,
Hosea Johns, Retail Dry Good Store,
Adam Welch.

To have men as directors of firm habits and industry, is all men can require; like passengers on board ship, when the captain is attentive they sleep easy; so with stockholders. Under such men our business will be conducted according to the true intent and meaning of the institution; for the good of mechanics, not for shipping interest, as they are still in debt to the state nine and twelve months. When the mechanic can scarce get from such people, on a Saturday evening enough to pay men off the one tenth that is due; but to keep his men in employ, goes to a shaver, but this I trust will cut it up root and branch.

A STOCKHOLDER.

Mr. Pechin,

Having carefully examined the different lists of candidates for directors in the Mechanics' Bank, and selected therefrom such characters as are in our opinions most suitable to bestow our suffrages on, knowing them to be friendly to the articles of association and disposed to promote the interest of the mechanic as well as the merchant, they are therefore strongly recommended and will be warmly supported by

MANY STOCKHOLDERS.

James Mosher, — John Lee,
Adam Welsh, — William Jackson,
William Gwynn, — Charles L. Boehme,
Isaiah Mankin, — Peter Levering,
William Jessop, — Peter Little.
John Sinclair, — B. H. Mullikin,
Robert Stewart, — Adam Fonerden.
Wm. Price,

Mr. Pechin,

Will be supported both by mechanics and merchants, this day, as a director of the Mechanics' Bank, Mr. JOHN ROY, of the house of Slater & Roy. Mr. Roy combines every requisite for the most useful, honest and independent director—He is a steady and firm friend to equal and distributive justice, and will render unto every man his just rights, his impartial discounts, and subserve not his own private interest, but the general good, the welfare, and prosperity of the institution. I trust his support may be universal, without partiality, favor or affection.

Yours, &c. R.

Mr. Pechin,

Mr. ALEXANDER McLAIN will be supported as a director, for the third ward, in the Mechanics' Bank of Baltimore.

A Large Stockholder.

Mr. Pechin

Will please to insert the following nomination, as a suitable general ticket for the Mechanics' Bank, comprised of persons chosen from different parts of the city, active, intelligent and liberal, and will be supported by a very large number of Stockholders.

William Price, — William Jackson,
Thomas S. Sheppard, Calvert-street

Mr. Pechin,

As there are two gentlemen of the same name proposed as candidates for the directorship of the Mechanics' Bank, it will be proper for the friends of both to note, that the one on County wharf signs his name Thomas S. Sheppard, and the other on Fell's Point, Thomas Sheppard. This hint is given by a friend, to prevent mistakes and perhaps altercation.

The forgeries of Von Harten & his consequent flight have not yet escaped the recollection of the public—late events render it essentially necessary that they should not be permitted to sink into oblivion, as great and unremitted exertions are making by his friends to procure the favor of the governor for the enormous offences he has committed against society in general and many individuals in particular. It is not the intention of the writer of these remarks to say now what motives influence those who render themselves so active and conspicuous on the present occasion. The time may come (perhaps very shortly) when forbearance would be criminal—until then and till the decision of the governor is known let the matter rest. There are however some of the signers to the memorial praying for a *nolle prosequi* who are at this moment, candidates for directors in the Mechanics' Bank, who, of all others ought to be most decidedly opposed to the principle prayed for and yet would in the face of so incontrovertable a fact do an act which renders them unworthy of a seat at that or any other board, and it is confidently hoped that the stockholders will inform themselves
