COMMUNICATION

By the Passenger on board the John Wharton.

"Tuesday, 29th July, made sail at 8 o'clock and got under way from Port-de-Paix for Philadelphia. Two of the men sick, another complaining of headache—the master also unwell——next morning like to have run on the rock of Great Heanengo—just cleared ourselves: the captain continued sick, observation this day, ——— steering a NE. course. Next morning, mate was taken ill—keeping our course this way until the morning of Thursday, the 7th Aug.—Captain, mates, and two of the hands very sick—without observation or reckoning, when we saw to windward of us a schooner, we hoisted signal of distress—she bore down upon us and hove too—we told the master our situation, and requested to be permitted to steer after him that night; the master very generously granted our request—sent on board five bottles of wine and some tea for the captain; and on a piece of paper, "schooner Minerva, of and for Baltimore, capt. Wm. Price, from Nevis, out — days, lat. 29, 35, long. 73, & the bearings of Cape-Hatteras." Next morning she lay too again for us till we came up, and then led the way—we continued in this distressed situation without observation—captain and mate very ill, until Friday the 10th, at 6 o'clock, A. M. when the mate died. The Minerva, hove too again in the evening as usual to speak us; another of the crew having been taken ill that day, we then requested him to take us under his care and protection, that the master continued extremely ill, and now only two men fit for duty, and to carry us into Baltimore with him, which he immediately assented to, and assured us he would not leave us wilfully; he took us into tow occasionally, until Thursday the 14th, at 1 o'clock, P. M. when we received a pilot on board. Next day made the Capes, entered the Bay, and proceeded as far as New Point-Comfort, where we came to anchor.

THE WIDOW
OF THE LATE
RICHARD LEE, JUNIOR,
RESPECTFULLY informs the public, that her husband at the time of his death was sole proprietor of the undermentioned celebrated FAMILY MEDICINES, and that she continues to have them faithfully prepared according to the original recipes, which are in her possession. This public notice is rendered necessary by imitations of them having been lately advertised for sale in New York and other places, and also by a report having been widely circulated of my having declined the business. Effectually to counteract such unprincipled attempts, I wish the public to be informed that my friends purchased for me, at the late public sale of my husband's moveable property, all the large stock of Medicines then on hand, and all the necessary apparatus for preparing them—It being *then* and *now* my firm determination to continue the business for the benefit of myself and children. With this intention I have appointed Mr JAMES HANNA, No. 102, Market street, my wholesale and retail vender for the city of Baltimore; and Mr. BENJAMIN WILSON, opposite the Market, Fell's Point, at which two places they may be had genuine, and no where else in Baltimore. The genuine Medicines have on the outside wrappers the signature of
HANNAH LEE.
☞ Please to observe that the Agency is removed from Warner & Hanna's, to James Hanna's, druggist, No 102, Market-street.

INFALLIBLE AGUE AND FEVER DROPS,
For the cure of Agues, Remittent and Intermittent Fevers.
Never was a medicine offered, that has a greater claim to public approbation than this, as many thousands can testify. It would be needless to expatiate largely on the extraordinary virtues of these Drops, it being the generally received opinion that if taken regularly, and according to the directions, it is the most efficacious medicine in the known world, for the AGUE and intermittent FEVER. Thousands can testify of their being cured by these Drops, after the bark and every other medicine have proved ineffectual. Not one in a hundred has had occasion to take more than one, and numbers not half a bottle.
These Drops are particularly recommended to the inhabitants of low, marshy countries, where the worst sort of AGUES generally prevail; which, unless early attended to, and speedily removed, injure the constitution exceedingly, and bring on dropsies, putrid fevers, and a variety of complaints of the most dangerous and alarming nature. Many other medicines are daily offered to the public for the cure of this disorder, which upon trial have been found either dangerous or useless. The bark is the usual remedy made use of, but being a very bitterish medicine, and seldom taken in sufficient quantity, it very often fails; and children and those who have weak stomachs are frequently lost for want of a more easy and pleasant remedy.
Philadelphia, May 22, 1806.
TO MRS. LEE.
MADAM—Having in a most singular manner experienced in my family the astonishing efficacy of *Hamilton's Worm-Destroying Lozenges*, prepared by the late Mr Lee, I feel it my duty to add the following curious case to the list of remarkable cures performed by that celebrated medicine. My daughter at the age of 17 months was taken ill with those symptoms which are supposed to denote worms; after having tried a number of things (which are said to be good in such cases) without any benefit, we had the attendance of a respectable physician; but she still continued to decline in health, and at the end of six months became so weak that she could not walk, nor keep food on her stomach, it was so extremely disordered. At this interesting period, one of our neighbors recommended your Lozenges to us; urgently, we were induced to send to Mr. Birt, for a box of them; on her taking a third dose, according to the printed directions, there came from her a living animal about three quarters of an inch long, and of a most frightful appearance, being very white, with a great number of legs, and something which resembled wings, by which it appeared to spring, and which it did repeatedly (to our great surprize) about the same distance that a small toad can hop on the ground. Its form was altogether unknown to every person who saw it. It lived (in water) about 18 hours. We afterwards put it in spirits, and it is now in the possession of Dr. Bleight, of this city. The child grew better from that day; in a very short period began to walk again, and is now in perfect health.
Your's, &c. WM. BRADLEY,
Callowhill-street, between 8th & 9th streets.
Any person may be satisfied of the accuracy and authenticity of this singular occurrence, by making enquiry in the neighborhood; many of the neighbors saw the creature alive, and are well acquainted with the above particulars.
W. B.

HAMILTON'S WORM-DESTROYING LOZENGES.
(There is reason to believe) have within 7 years past, cured upwards of Two Hundred Thousand persons, of both sexes, of every age, and in every situation, of various dangerous complaints arising from WORMS, and from obstructions or foulness in the stomach & bowels.
Among the symptoms attending worms, are disagreeable breath, especially in the morning; bad and corrupted gums—itching in the nose, and about the seat—convulsions and epileptic fits, and sometimes privation of speech—starting and grinding of the teeth in sleep—irregular appetite, sometimes loathing food, & sometimes voracious—purging with slimy and foetid stools—vomiting—large and hard belly—pains and sickness of the stomach—pains in head and thighs, with lowness of spirits—slow fever, with small and irregular pulse—a dry cough—excessive thirst—sometimes pale and unhealthy countenance, and sometimes the face bloated and flushed.
Persons afflicted with any of the above symptoms, should have immediate recourse to "Hamilton's Worm-Destroying Lozenges," which have been constantly attended with success in all complaints similar to those above described.
A dose of this medicine given occasionally during the warm season, will effectually prevent "vomiting and purging of children, a dreadful disorder, which annually destroys thousands of the infant part of our citizens." It is likewise the mildest and most certain remedy known, and has restored to health and strength a great number when in an advanced stage of the fatal complaint. Particular and plain instructions are given for every part of the necessary treatment in such cases.
Children generally take this medicine with eagerness, it having a pleasing appearance and an agreeable taste.
Hamilton's Worm-Destroying Lozenges are sold by JAMES HANNA, druggist, No. 102, Market-street; also by BENJAMIN WILSON, opposite the Market, Fell's Point—and no where else in Baltimore.

50 Dollars Reward.
RAN away from my service on the morning of Saturday the 16th instant, a Negro Man named EDWARD JOHNSON, but commonly called NED; it is supposed he is gone to the Eastern Shore, from whence he came, and where he had been permitted several times to go to see his friends. Edward is about 5 feet 10 inches high, straight and well made, has a good countenance, and is an active, smart fellow, about 22 years of age. He had on when he absconded a short round fustian jacket, a pair of velveteen pantaloons, white waistcoat, and black hat; however he had in his possession some other clothes and he will probably change his dress. He took with him a dark brown mixed cloth long coat and waistcoat, several pair of nankeen pantaloons. The above reward will be paid if he is taken and secured within the city or county of Baltimore, thirty dollars if without the city or county and within this state, or Maryland, and the above reward of fifty dollars if out of the state, and reasonable expences for delivering him to me at Baltimore.
