Just What the Kirschbaum Guarantee Means to You

Our Kirschbaum Clothes are guaranteed to be all wool. That promises wear. Before any fabric is accepted by the A. B. Kirschbaum Co. it is proved 100 per cent. pure wool by chemical test.

Next—the color is fast. It was tested with nitric acid. Kirschbaum clothes will not fade.

Then the woolen was shrunk by the original London cold-water process, which is the most thorough method of its kind.

The skillful hand-tailoring given Kirschbaum clothes insures their permanent handsomeness.

And every point of strain is sewn with silk thread. No opened seams no prematurely broken stitches.

These five points are covered by the guarantee which will come with your Kirschbaum "Yungfelo" Clothes $12, $15 and $20. See the guarantee and price ticket on the sleeve. You will readily see that no other clothing is sold in such a business like way.

Why not choose your clothes while our assortment is largest. The "Yungfelo" clothes for young men are the best buy possible.

POTATO SEASON ON

Sweet Potatoes Now Being Harvested in Upper Sections of Queen Annes

The sweet potato season in upper Queen Annes is now on and reports show the yield this year to be a medium sized crop. The problem of storage has again presented itself. Shippers and growers alike have been a bit wary about storing the sweet potatoes on a big scale this season because of their experience with the rot, or black rot, which caused such a tremenduous loss to those who stored potatoes last season.

Prices in general are better now than they were a year ago, when sweet potatoes sold very cheaply. This is expected to keep the crop moving but the ever present chance of a slump in the market along in the winter months will hold a strong temptation for shippers to fill their storage houses as a speculative venture. Great care is being taken this season, however, to guard against diseased stock. The potatoes that are kept for storing are carefully examined and, in fact, the buyers have been making inquiries as to whether there has been any suspicion of the disease on the farms before they have bought heavily.

Warnings issued in the spring have resulted in many of the growers taking extra pains in their seed selection and using other precautionary measures to guard against the spread of the disease. Inspection is said to have shown that the sweet potatoes grown in this section this year are not dangerously infected, but with a similar report last year the loss from rotted potatoes at the end of the season was comparatively large. With improved systems of storage and arrangements for the periodical sorting of the stock, shippers hope to lessen the loss in storage this year.

FREE TRIP FOR BOYS

Rich Neck Farmers Club Offers to Send Two Lads to Exhibit in Baltimore Next Month

In Queen Annes county boys will be sent to the Maryland Exhibit in Baltimore next month absolutely free of charge.

The generosity of the members of the Rich Neck Farmers Club will enable two county boys to go to Baltimore and stay there for two days with means to see the exhibits that will be shown there by farmers from all parts of Maryland.

This week President W. Irving Walker of the Rich Neck Farmers Club conferred with Prof. Demuth Straight Hughes, Keeper of Centreville and showed that these trips would be given to the two boys making the highest score in the corn exhibit at the Queen Annes county Schools Fair to be held in Centreville in November, [illegible]

The first prize will go to the Rich Neck club member who makes the greatest score, the second will go to the boy who makes the second highest score, and so on.

County Demonstrator Kocher has been at work for some time on this proposition and asked the Rich Neck club to make some effort to the boys. He anticipated some trouble in getting the boys to be interested, and he was therefore very agreeably surprised when President Walker announced that the club had decided to pay the expense of two boys to the Fair. The winners will be announced immediately after the school farmers meeting.
