ALFALFA
The Profitable Hay Crop

Yields Four to Six Cuttings a Year of Easily Cured and Most Nutritious Hay. Wonderful Increases in Yield Each Successive Year.

ALFALFA "GOLD" BRAND

Its long, branching roots penetrate far down, push and crowd the earth this way and that, and thus constitute a gigantic subsoiler. These become an immense mass of fertility. As soon as cut, they begin to decay and liberate the vast resources of fertilizing matter below the plow, to be drawn upon by other crops for years to come.
