Just What the Kirschbaum Guarantee Means to You

Our Kirschbaum Clothes are guaranteed to be all wool. That promises wear. Before any fabric is accepted by the A. B. Kirschbaum Co. it is proved 100 per cent. pure wool by chemical test.

Next—the color is fast. It was tested with nitric acid. Kirschbaum clothes will not fade.

Then the woolen was shrunk by the original London cold water process, which is the most thorough method of its kind.

The skillful hand tailoring given Kirschbaum clothes insures their permanent handsomeness.

And every point of strain is sewn with silk thread. No opened seams no prematurely broken stitches.

These five points are covered by the guarantee which will come with your Kirschbaum, or Yungfelow Clothes—$15, $18 and $20. See the guarantee and price ticket on the sleeve. You will readily see that no other clothing is sold in such a business like way.

Why not choose your clothes while our assortment is largest. The "Yungfelow" clothes for young men are the best buy possible.

Don't fail to see our line of

Ladies' Tailor-Made Suits

now ready for your inspection. Stunning values.

Prices Range From $10 to $20

Call early and look them over.

INFORMATION For Contractors

Sealed proposals addressed to the Queen Anne County Commissioners and endorsed "Proposals for Bridge at Queen Anne" will be received at the Court House, Queen Anne, Md., until 10 o'clock A. M. on the 6th day of October, 1914, for the erection of a bridge across Tuckahoe Creek on the State Aid Road in Queen Anne County, upon the site and according to the plans and specifications on file in the office of the County Commissioners of Queen Anne County, Maryland, between the hours of 9 A. M. and 4 P. M. on the day of letting.

Each proposal must be accompanied by a certified check payable to the order of the Commissioners of Queen Anne County, Maryland, for the sum of Two Hundred Dollars ($200.00), which will be forfeited to the County if the successful bidder shall fail to enter into a contract and give bond with approved security for the faithful performance of the work within ten days after the award of the contract.

The Commissioners of Queen Anne County reserve the right to reject any and all bids.

By order of the Commissioners of Queen Anne County, Maryland.

Attest: Wm. H. Wright, Clerk.

POTATO SEASON ON

Sweet Potatoes Now Being Harvested in Upper Sections of Queen Annes

The sweet potato season in upper Queen Annes is now on and reports show the yield this year to be a medium size crop. The problem of storage has again presented itself. Shippers and growers alike have been a bit wary about storing the sweet potatoes on a big scale this season because of their experience with the rot, or black rot, which caused such a tremendous loss to those who stored potatoes last season.

Prices in general are better now than they were a year ago, when sweet potatoes sold very cheaply. This is expected to keep the crop moving, but the ever present chance of a slump in the market along in the winter months will hold a strong temptation for shippers to fill their storage houses as a speculative venture. Great care is being taken this season, however, to guard against diseased stock. The potatoes that are kept for storage are carefully examined and it is said the buyers have been making inquiries as to whether there has been any suspicion of the disease on the farms before they have bought heavily.

Warnings issued in the spring have resulted in many of the growers taking extra pains in their seed selection and using other precautionary measures to guard against the spread of the disease. Inspection is said to have shown that the sweet potatoes grown in this section this year are not dangerously infected, but with a similar report last year the loss from rotted potatoes at the end of the season was comparatively large. With improved systems of storage and arrangements for the periodical sorting of the stock shippers hope to lessen the loss in storage this year.
