ADLER-ROCHESTER Clothes

THE angora luxuriates in the parlor. The mouser yowls on the fence. And the whole difference is a matter of overcoats.

The man who buys an overcoat simply for warmth is paying full price for a halfway purchase. For, in the world's eye, the overcoat's most important function is as an index to the wearer's wardrobe and estate.

Adler-Rochester overcoats are styled, primarily, to such service. You'll understand what we mean the minute you put one on.
