For Victory—Buy Bonds.

—L. L. B.—

It's not a gift, it's a loan.

—L. L. B.—

Come across—or the Kaiser will.

—L. L. B.—

Patriots buy bonds, others make excuses.

—L. L. B.—

Liberty Bonds are the buy-way to Berlin.

—L. L. B.—

If you can't go across, come across for Liberty Bonds.

—L. L. B.—

A Liberty Bond sale is like an election. Every citizen who buys a bond votes to back up the United States in this war. Will you vote for your country or against it.

—L. L. B.—

Pay the printer and the preacher. They eat, drink and wear clothes like other people. The printer gives you the news about this world and the preacher about the other one to come.

—L. L. B.—

The Third Liberty Loan drive is now on. Hang out "Old Glory" as an inspiration to help in the campaign, talk Liberty Loan to your neighbors—but above all subscribe for a Liberty Bond at once.

—L. L. B.—

Maybe, after all, one lot in life is not much better or worse than another, so far as happiness goes, but there are some things in life that seem very necessary to us, big and little, great and small, and that little corner in God's creation we call home is one of them.

—L. L. B.—

Have you purchased a Third Liberty Bond? Have you purchased War Savings Stamps? Have you planted a war garden? Have you sent a boy to the front? Do you observe "wheatless" and "meatless" days? Have you eliminated all waste of food from your table? Have you joined the Red Cross? If not—WHAT HAVE YOU DONE to help Uncle Sam win the war? Remember it is YOUR war he is striving to win.

—L. L. B.—

EVERY AMERICAN'S DUTY.

To work, economize, and lend money to the Government is the duty of every American.

Hundreds of thousands of our men have been called to arms and taken away from the productive forces of the country.

Hundreds of thousands of others have been diverted from producing things used in peace to producing things used in war.

In the face of this lessened productive force and production a great and unusual drain upon our resources is made by our Army and Navy and our Allies.

Work and speed-up production to make up for the lessened production; economize in consumption to lessen as much as possible the drain upon our resources; lend your money to your Government to prosecute this war successfully and make our soldiers powerful, effective and victorious.

Every American can do an individual service to his country by working, saving, and buying Liberty Bonds.

—L. L. B.—

EFFECTS OF GOOD READING.

Childhood is truly the time to acquire knowledge; a healthy child is never still or idle. Every moment he is awake he is learning something. All his knowledge of the world is through his five or six senses as some count them, but he learns most, as we guess we all do, from what he is told, from what he sees, and from reading. Before he knows one letter from another he will look at pictures for an hour at a time and if he can find anyone to read or tell him about what he sees, his tongue is as busy as his eyes. His little brain must do some thinking to keep both members busy. What he learns from a picture book cannot be calculated.

As soon as the child is old enough to read, if he isn't provided with reading material, there are only two ways for him to do, either to find books and papers for himself or to spend his time in some other way. As what a child reads, it is very important that parents be very careful about what their children read. If a taste or desire for reading or study is not formed early in life it is probable it never will be, or if a passion for the worthless, sensational print be acquired it will be difficult to eradicate such a desire. Negligence or thoughtlessness of parents on this question is often the cause of lifelong regret.

—L. L. B.—

LEND—NOT SPEND—YOUR MONEY.

If you lend your money to the Government you may be quite sure that it is going to be used for some National purpose—to prosecute the war successfully, to care for, equip, arm, and supply our soldiers in France, to be used by our Navy in ridding the seas of the murderous U-boats.

But if you spend your money even with the belief that by putting it into the channels of trade others into whose hands is comes will lend it to the Government, you will have done something the patriotism of which may be very questionable.

First, you have withdrawn from the supply of material of the Nation something to replace which in the market of labor and material which should be devoted to war purposes.

Second, the person to whom you pay your money may also use it to purchase things requiring material and labor which should be devoted to war purposes. And the person to whom he pays it may repeat the operation.

But when you lend your money to the Government instead of spending it, you will at once lessen the drain to a certain extent on our country's resources, its material, its labor, and its transportation facilities, and in addition you supply your Government with money to be used in winning the war.

Every purchase of a Liberty Loan Bond is an individual act toward bringing victory to America and her Allies.

—L. L. B.—

THIRD LIBERTY LOAN.

While it is yet early in the Third Liberty Loan campaign, the great interest and enthusiasm displayed in this patriotic movement during the few days of the "drive" that have passed, is convincing evidence of the fact that this loan is destined to be an even greater success than the two preceding ones. The people of America had not fully awakened to the seriousness of the great war at the time the First and Second Liberty Loans were floated, but now, with American soldiers fighting on French soil, with American guns thundering their reply to the German cannon, and with the menace of the savage Hun hovering above our nation as well as those of our Allies, every man, woman and child have opened their eyes to a full realization of what is expected of them in this trying crisis. And they are buying the bonds, making personal sacrifices if necessary to get the money to do so, for they know that by investing their dollars in Liberty Bonds they are giving the support so greatly needed to the khaki-clad heroes who are devoting their lives to the cause in the trenches of far off France.

Let there be no slackers in Queen Annes county in this third call of our Government to our patriotism. Let us invest our last cent, if necessary, in these bonds. Let us make Queen Annes county a 100 per cent. Liberty Loan county, with every family the holder of one or more bonds. Where it is impossible for any citizen to pay cash for a bond, arrangements have been made to sell them on convenient time payments. But every citizen of the county who can possibly afford to do so should enlist himself and his dollars in the cause of Liberty and Democracy, by loaning, not giving, his money to Uncle Sam at a very fair rate of interest. We are asked to invest, not to donate, our dollars in this Liberty Loan, and the bonds that we receive in exchange for our money represent a safe and attractive investment that rivals, and in many cases surpasses, the bonds issued by public service corporations.

The campaign is just beginning, and there remains several weeks in which we can place our names on the subscription lists. But let us encourage Uncle Sam, and show him that we are standing right at his shoulder by subscribing for our bonds now. Not tomorrow, but NOW—TODAY!

—L. L. B.—

"The battle has been won," said the Kaiser in a telegram to the Empress a few days ago. [illegible] the political claims the [illegible] before

IS THE NEW TIME DOOMED TO FAILURE?

(Continued from First Page)

cording to our idea, especially as daylight is in the sky until nearly 9 o'clock in midsummer.

"The hour for the evening meal in summer is 7 o'clock. Seven o'clock by the clock will mean 6 o'clock by the sun. This is generally the hottest and most disagreeable time of the day. Will anyone desire to drop his work, recreation work in gardens, etc., or his play, automobiling, golf, tennis, etc., when the sun is two hours high and hurry to his evening meal? You may say if anyone does not care to stop work or play with the sun two hours, more or less, high, he can have his meal at 8 o'clock by the clock. Do you think so? Your cooks and other servants will demand that you eat by the clock.

"As to saving fuel and light, so far as fuel for cooking is concerned, the same number of hours and the same amount of fuel will be consumed, sun time or clock time. No one has a hot fire any longer than necessary in hot weather; and so far as lights are concerned, they are lighted at present one hour earlier than they would have been had not the clock been set forward, and from May to October the use of artificial light for illumination is always at a minimum.

"It seems to us that this saving of an hour per day is somewhat of an illusion."

SERIES OF PRIZES.

To Be Offered As a Stimulation of the Production of Food Products.

The United States Food Administration of Maryland, in co-operation with the Department of Agriculture and the Maryland Agricultural College, is arranging a series of prizes for the stimulation of the production of food products in the State of Maryland during the coming season. These prizes, full details of which will be announced later, will aggregate $25,000.00, which sum is secured by private subscription and is not out of public funds.

The plan, as outlined, will include among other prizes, a number in each county for the best farm garden of one-half acre or more, and a separate set of prizes for the best home or farm garden of less than one-half acre. These garden prizes will aggregate about $500.00 for each county in the State.

LEVY COURT.

The Board of County Commissioners met Tuesday and passed warrants from Nos. 8156 to 8183, inclusive, to the amount of $3,085.52, and checks were drawn on Charles H. Quimby, Treasurer, to pay same.

Warrant No. 246 to the amount of $235.80 on the General Improvement Bond Account, contract No. 335, was passed and check drawn on Treasurer to pay same.

Messrs. Massey and Coppage, of the Board, met with the Kent County Board and the State Roads Commission in Baltimore April 6th, in reference to building Crumpton Bridge. The Kent Board, however, refused to join with Queen Anne and the State in building a concrete structure.

The Board forwarded a letter to Dodson & Bailey, contractors, St. Michaels, notifying them that unless the material and labor was in place for the completion of the Centreville-Queenstown road within ten days they would exercise their legal rights under said contracts.

A similar letter was sent to the Holt Construction Co., Denton, Md., informing them that their neglect and failure to supply the necessary material and labor for the completion of the road in Queen Annes county between Dudley's Corner and Church Hill within the next ten days would be considered a breach of contract and the Board would at once proceed to exercise their legal rights.

FRANK McWHORTER.

Frank McWhorter, aged 45 years, until a few years ago a resident of Church Hill, died at his home in Wilmington Friday of last week. Mr. McWhorter was a son of the late Mr. and Mrs. Geo. McWhorter, of Church Hill. He is survived by a widow, who was Miss Emma Meeds, of this county, and three children, Frank, Harold and Pauline. He also leaves three borthers and two sisters, viz: Messrs. Harry and George McWhorter and Mrs. Nellie Sterling, of Chestertown, and Mr. Charles McWhorter, of Jesupe, Maryland, and Ms. Harrison D. Massey, of Church Hill.

The remains were brought to Church Hill Tuesday morning and interment was in Church Hill Cemetery.

FARMERS SHOULD SUBSCRIBE.

That the farmers of America are automatically getting rich because of the increased demands for food products, and that on acount of this condition they should subscribe liberally to the Liberty Loan Bonds, was emphasized by Irvin F. Paschall Wednesday afternoon at the noonday luncheon of the Advertising Club of Baltimore in the Hotel Emerson.

Mr. Paschall, who is the advertising manager of the Farm Journal, stated the farmer was the only individual in the United States who is being loyally loaned to get rich, and that by reason of the land values that have

Kennard & Co.

Made in U. S. A.

Quality plus patriotism commend the productions of merchandise made in the United States. American brain and brawn have demonstrated their superiority in every line—no more are we dependent upon others than ourselves for all that is best.

Women's pure silk Hose, 65c, $1.00, $1.25, $1.50, $2.00, $2.50, $2.65 pair.

Pure silk double finger tipped Silk Gloves, $75c, 85c, $1.00, $1.25 a pair.

Chamoisette Gloves, 75c, 85c, $1.00, $1.25 pair.

Woolen Yarns of all kinds.

The newest weaves in silks for Skirts, Dresses and Waists.

All-Wool Fabrics of all the wanted kinds.

Cotton fabrics form a wonderful assortment of Skirts, Waists and Dresses.

Muslin, Silk and Knitted Underwear and Sweaters.

In the Garment section there is represented the highest type of workmanship in the display of Top Coats, Suits, Dresses, Waists and Skirts.

Let everyone help along the new Liberty Loan drive beginning tomorrow. How little is asked in comparison with those who offer their lives for us "over there."

We solicit charge accounts of those of established credit, and deliver free within a reasonable distance.

Wilmington

The Cleveland Tractor

The Cleveland Tractor will plow 2½ miles an hour and to 10 acres a day. That equals the work of three good horses and three men.

Traveling on its own tracks it will go practically anywhere—even through ditches or gumbo, mud and gravel. Although small enough for work in orchards the Cleveland develops full 17 h. p. at the draw bar for hauling.

At the pulley belt it gives 20 h. p.—plenty for stationary work, such as shelling corn, cutting ensilage, filling silos, pumping and many other uses on the farm where power is needed. You can turn it in a 12-foot circle—just about what it takes to turn a team. It can be housed in less space than it takes for a horse.
