culture of every kind of grass suitable for the raising of sheep, and the neighbourhood of Hagers-Town presenting many sites for the erecting of machinery to be worked by the force of water, co-operating with a fair prospect, that the celebrated sheep called Merinos, will be introduced into this part of the state with great spirit, for which the proprietors are entitled to the thanks of every friend to the extension of American woollen manufactures. With the above stated advantages, it is ardently hoped and confidently expected that the monied men of this county, will form an association for a manufactory on a liberal and extensive scale. Such an establishment at Newport, in the state of Delaware, by an account lately published, is stated to have yielded a profit of 25 per cent; and like establishments in the state of Connecticut, are reported to have yielded a greater profit. It is a truth, and it ought to be seriously impressed on the mind of every sincere friend to the American States, that unless our citizens can supply themselves with the necessaries of life, every idea which we may fondly cherish that we are an independent nation, is certainly fallacious and consequently ridiculous

A YANKEE TRICK.

The sch'r Honest Tom, from Tonningen Ephraim Holmes, master, sailed from the above mentioned port for Boston, Tuesday June 26th 1810 June 28 was boarded by an English 18 gun brig, called the *Strenuous*. They put on board five men in order to carry us into Leith. Being afraid of the Scotch disorder, we determined to prevent it if possible. On July 3d we being nigh in with the land, secured them by tying their hands, gave them the choice of two boats, supplied them with provisions, and water to *drink their king's health*, and sent them off about their own business, with our compliments to the king and parliament. We then proceeded on our voyage for Boston, where we arrived safe Sept 1, 1810

A BUCKSKIN TRICK—to match the above.

Philadelphia Sept 12

We have the pleasure to announce the arrival of the valuable missing ship Mercury, captain O'Connor, from Calcutta. She reached the Lazaretto late last evening, had been captured by the French manned and sent for the Isle of France, but captain O'Connor thought proper to alter his destination, by politely ordering the prize master and crew into his long boat within sight of Bourbon, and visited them safe ashore—pursuing his voyage home, and meeting with no other accident. Touched at St. Helena for supplies.

Sir Francis Burdett having been invited by letter, to dine with the Electors of Westminster on the 31st of July, returned the following answer

Piccadilly, July 1810.

GENTLEMEN,

The Electors of Westminster do me great honour by his invitation which they have sent me through your hands, and I receive it with great pleasure. At all times, and in all places whether their Representative or not, I shall always be found ready to do them any reasonable service in Parliament or out. To yourselves Gentlemen, whom I well and personally know, I beg to return my best thanks; and I hope we shall spend a pleasant day together on the 31st of this instant, July, unless the King and the Commander in Chief and the Secretary of State, should draw out a numerous army, with a train of artillery, to declare war in our streets against Roast Beef.

I remain, Gentlemen,
Your most obedient and
Very humble servant,
FRANCIS BURDETT.

IMPORTANT TO MAKERS OF CYDER.

METHOD OF CLEANSING CASKS.

Communicated by Elias L'Hommedieu, vice president of the New York Society, for the Promotion of Useful Arts

Take for a barrel, one pint at least, of unslacked lime; put it into the barrel; pour in a considerable quantity, two or three gallons, of hot water; bung the barrel and shake it. While the lime is slacking observe, occasionally to give it vent, lest the barrel should burst. Let it stand in it till cooled, and then rinse the barrel with cool water; it will be perfectly sweet for use.

Another method, communicated by Mr Van Derveer, of Kings county.

Take for a barrel half a bushel of hickory nut leaves, gathered from the tree—boil them in two or three pails of water—after boiling 1/2 or 3/4 of an hour, pour the water and the leaves into the barrel; bung it up close, and let it stand up over night. In the morning rinse out the barrel with cold water, and it is fit for use. Note—The former method communicates no taste to the cider; the latter gives it a taste and flavour which is extremely agreeable to some.

BOSTON, September 14.

FROM CADIZ.

Last evening arrived the ship Monsoon, captain Bingham, from Cadiz.—Sailed Aug. 6th. Affairs remained as at the previous dates. The British and Spaniards had completed their system of fortifications for the security of the city, and were in excellent spirits—Salt provisions were plenty, but some difficulty was experienced in procuring water. It was reported a large number of French seamen had arrived over land at St. Lucar, where a number of gunboats were in readiness for their accommodation. It was said several American vessels had been taken.

There were a large number of gunboats at Cadiz, that were daily employed in attempting to annoy the enemy on the opposite coast; and frequently injured the batteries. They sometimes returned without a few shot.

Prices at Cadiz—Flour, 13 to 14 dolls. dull sale—Beef, 14 to 15—Pork 17.

COMMUNICATION.

Departed this transitory life on Sunday night last, after a short but painful illness, which he bore with christian and resigned fortitude to the will of the wise disposer of all good—Capt M H Inwright in the 52d year of his age. The deceased was a native of Ireland, but for many years a useful and respectable citizen of Baltimore. He was the friend of the distressed of all denominations—He has left an amiable family, and numerous friends to deplore their loss.

MRS GROOMBRIDGE,

Grateful for the extensive patronage she has been honored with during six years residence in Baltimore, assures her friends and the public, that the report of her intention to give up her School, is entirely without foundation, she is far from having such an idea; & although she has twelve Teachers in whose ability she can confide, yet she dedicates the principal part of her time to the superior advantage of her pupils. Their progress she does not enlarge upon, as the parents and guardians of those confided to her care have had frequent opportunities of judging for themselves, both in her public and private examinations.

In addition to the other branches of education, the Italian and Spanish Languages are taught with elegance and correctness.

Persons or guardians who desire to have their young ladies instructed in those branches, may have an opportunity of hearing the pupils, through their exercises, by applying to Mrs. Groombridge for a prospectus.

In submitting the above scheme to the public, the Managers will not attempt any eulogium on the importance or necessity of the object in view. They believe that, at this time, not a doubt exists in the mind of any well informed person, of the efficacy of the Kine Pock as a safe and certain preventative of the Small Pox. The difficulty, and it might be added the impossibility, of preserving this remedy without the aid of an institution, (such as is intended to be established and supported by the profits arising from this Lottery) is also well known. But it is proper to observe, that this Institution not only contemplates to preserve the genuine Vaccine Matter for the use of the citizens of this state, but also to give it, at all times, free of every expence, (with directions when required) to any of them who may have occasion to use it. To aid them in accomplishing objects such as these, the Managers feel confident of the liberal and prompt support of the public.

The Scheme on an attentive examination, will be found to afford inducements to adventurers, at least equal to any heretofore proposed in this city. All prizes will be paid within sixty days after the drawing is completed.
