THE MAIL ROBBERY.—No further disclosures have been made, as we have heard of, in the perpetration of this outrage.—We take the following from the Centreville *Times*, which gives a more lengthy account of it than we were able to give last week:

The mail bag for the transmission of matter between Easton, Md., and Wilmington, Del., via. Hillsborough, Greensborough, and Smyrna, was robbed in a mysterious manner on Saturday night last. On Tuesday morning a gentleman appeared at our post office having a quantity of mail matter, letters from Easton and St. Michael's, postmarked the 8th inst., some of them containing cheques, together with packages of unopened letters and newspapers, which he stated had been found in a ravine at the back of the mill, where he was picking blackberries. On Wednesday, the contractor, Mr. Woolworth and Mr. Hardesty, of Easton, came to this place on search of the mail, and in company with several gentlemen repaired to the place where the matter was found on Tuesday, and succeeded, after some search, in finding bundles of newspapers and the mail bag, the lock of which was cut out—it was also cut open down one side. All the matter found was in a damp state, having been exposed to the heavy rain of Monday evening. The driver having the mail in charge left Easton on Saturday evening, and at 10 o'clock that night was at Mr. Cahoon's hotel in this place, where he drank at the bar and stated that he had fallen asleep and got off his route. He left here about 11 o'clock the same night. The affair is at present shrouded in mystery, but doubtless developments will take place affording some clue to the perpetrator. The postmaster here has communicated with the Department and made every effort in his power to investigate the matter.

The mailing business appears, in our minds, to be something in which the strictest caution should be used by contractors in procuring the proper kind of drivers.—It is very evident, as the present case shows, that a man under the influence of liquor is unfit to occupy such a position.—There have been numerous complaints against this same driver for some time past, on account of negligence or unfitness for the station—owing to his intemperate habits. A banking institution or a single individual might loose by one transaction of this kind an amount which would take years to repair. The Easton Bank, we understand, made a lucky escape from this robbery, intended to send $15,000 by this mail, but from some cause deferred it. There is a great responsibility resting on a mail driver, and which he should constantly feel. We speak not of this as a party matter, but for the public good. We think such things should be freely spoken of, let the contract be given from whatever party it may.

ROW ON BOARD THE GEORGIA.—Whilst the steamer Georgia was making her trip from Baltimore down to the Royal Oak Camp on Saturday night last, a row was kicked up on board between the whites and negroes, which resulted in the very serious injury of the mate of the Georgia, and the shooting of a negro in the back of he head, the ball, however, did not penetrate the bone, only running round under the scalp. It was extracted by Dr. J. R. Andre, of the Chapel.

STEAMBOAT DISASTER.—A terrible disaster took place on long Island Sound on Saturday morning last between the propeller J. W. Harris and the steamer Metropolis. The steamer run into the propeller and nearly cut her through, causing the loss of about thirty lives. The scene is represented to have been one of the most heart-rending character.

WE understand the M. P. camp meeting near Church Hill Queen Ann's county, last week met with great success, some eighty pro[illegible] to be renewed by the Spirit.

WE [illegible] indebted to Mr. J. W. Cheezum, of the firm of Stevens & Cheezum, Philadelphia, for Philadelphia papers.

REMOVAL OF MRS. CUNNINGHAM TO THE TOMBS.—Until Thursday Mrs. Cunningham was suffered to remain at the house No. 31 Bond street, alleging that she was too ill for removal. She was under the special charge of Capt. Dilks, of the Fifteenth ward police, acting as agent of the warden of the City Prison, to which she had been formally committed by the warrant of Justic Davison.—On Thursday morning, however, no chance of her obtaining bail, remaining, it was resolved to remove her to the legitimate place of confinement—the Tombs.

THE FILLIBUSTERS.—Among Walker's men on board the U. S. ship Saratoga, at Greytown, on the 20th ult. were Jacob Sturtz, of Baltimore; F. Kapp, of Maryland; C. Willson, of the District of Columbia; Wm. R. Johnson, of Va., and Wm. H. Hill, R. P. Caldwell, of Tenn. There were 39 in all on board, and 194 others still in Greytown.

IT appears from the Louisville papers, of both parties, that the Democrats have carried only one branch of the Kentucky Legislature. In the Senate there are 20 Americans and 18 Democrats, leaving an American majority of two. In the other House there is a Democratic majority of from twelve to twenty.

WASHINGTON RIOTS.—The Washington election riots have ended in smoke. All the appliances of power were brought to bear in the endeavor to convict several Americans of partisipation in the affair.—They were indicted and tried; but the jury could not agree and was dischaged.

PROGRAMME FOR THE CAMPAIGN.—It will be seen by reference to another column that the candidates of the American party have laid down their programme for the present campaign. The 20th day of October is the day set aside for Easton, and the 22d for Cambridge—when the candidates on the State ticket will address the people.

TOO FAST.—Some of the democratic press are glorying over the Hon. R. A Sollers denouncing the American party. This is a mistake. Mr. Sollers has *not* left the American party—and which fact has been stated by papers knowing something about the matter. Every sort of report will be gotten up to *strengthen* the *weak*.

HISTORY OF THE UNITED STATES.—We have received Nos. 29, 30, 31, 32, and 33 of Dr. Spencer's History of the United States, an admirable work, freely sustaining the character of the previous numbers. This work should be in the possession of every one who desires a correct history of his country.

THE Democrats of Worcester county on Tuesday last nominated Geo. W. Landing, Esq., for the House of Delegates, in place of Dr. Adreon, declined, and Dr. Hillery R. Pitts for Register of Wills. Hard to make stick.

SECRETARY OF STATE.—Governer Ligon yesterday appointed Jonathan Pinkney, Esq., of Annapolis, Secretary of State in the place of Nathaniel Cox, Esq., resigned.—Mr. Pinkey qualified and entered at once upon the discharge of his duties.

GEN. T. TILGHMAN, has been appointed Collector at the Port of Oxford, by President Buchanan, to fill the vacancy occasioned by the death of R. B. Willis.

RICHARD GROOMES, nominated by the union party of Montgomery county, Md., for sheriff, has declined.

Counterfeit gold dollars are in circulation, made of tin. They can easily be bent by the fingers of the unlucky holder.

H. S. Roberts, of Md., was among the Americans in Paris, 25th ult.

AMERICAN CONGRESSIONAL NOMINATING CONVENTION

In pursuance of previous call a delegation of the American party, from each county of the Congregressional district composed of Queen Annes, Talbot, Caroline, Worcester, Somerset and Dorchester, assembled in Cambridge on Wednesday the 12th inst., for the purpose of nominating a candidate for Congress, to be run at the ensuing election.

The convention assembled at 11 o'clock, and was organized by calling Robert G. Price of Queen Anne's to the chair and appointment of E. M. Tingle secretary, and Samuel Jones and William Ridgaway, Esqs, as Vice Presidents.

On motion a committee of one from each county was appointed to examine credentials, who reported the following delegates.

Queen Anne's County—S. E. Sullivan, Robert Price, Robert H. Perry.

Caroline—James H. Barwick, Curtis Davis, George M. Russum.

Somerset—Samuel W. Jones, Purnell Todvine, W. Edgar Jones, Joseph C. Bush; one vacancy.

Worcester—Rowland Bervans, Dr. Geo. Bushop, E. M. Tingle: one vacancy.

Talbot—A. P. Jump, William Ridgway, J. H. Harris.

Dorchester—Algernon Thomas, James Waddell, J. B. Foxwell, R. S. Tall.

On motion the report was received.

The chair stated that the convention was ready to receive nominations. when the names of Messrs Teagle Townsend of Somerset, Mr. Jacobs of Queen Anne's, and M. Fountain of Caroline, were put in nomination, and balloted for with the following result: Townsend 14, Jacobs 5, Fountain 3.

The nomination of TEAGLE TOWNSEND, Esq., was then declared unanimous.

On motion of Mr. Todvine the chair appointed Messrs Todvine, Harris and Perry a committee to inform Mr. Townsend of his nomination.

It was ordered that the proceedings of the convention be published in the American papers throughout the district; when.

On motion of R. S. Tall a vote of thanks were tendered the officers, and the convention adjourned:

ROBERT PRICE, President.
E. M. TINGLE, Secretary.

[COMMUNICATED]

CAROLINE COUNTY,
Aug. 15, 1857.

MR. EDITOR:—I must show some courtesy towards Mr. *Forfex* ("Scissors") by noticing a few points in his abortive *effort* in to-day's *Journal*, then leave him to reflect upon his *erroneous* articles. While I speak of gentlemen of more importance, and give you some information how this "Foreign Bogus Democracy" are trying to gull the voters at the coming election.

This *Southern* gentleman continues to persist in calling "2d District's" articles misstatements. Such as the *gentlemanly* epithets of "untruths" "base falsehoods," &c. As he speaks so positive about the dimensions of the room in which the "Democratic Central Committee" held their meeting, he can have it his own way. I am sure no *sensible* man could agree with him. He says: "Was it not a meeting of the Central Committee of the party," "thought the meetings of such a committee are not generally attended by others than the members of which it is composed, yet they are not secret. If 2d District had desired an interview with any member of that committee, he could have entered the room without any sign or countersign, and his presence would not in the least have suspended or embarrassed its proceedings"

This is a statement of "Scissors," which I cannot *rely* upon as being correct. I know a gentleman who asked permission to enter the room, and the reply to him was, that he could not be admitted while they were attending to business pertaining to the duties imposed upon them. Will Mr. *Forfex* please inform 2d District what position a man has to occupy, to "take an active part or hold a high stand" in his party? If it is by attending *divers* political gatherings and occupying the *rostrum* for an hour in the way of addressing the crowd in a Political speech, then "Scissors" holds the "high stand;" if otherwise then perhaps "2d District" has taken an "active part." "Scissors" remarks, "neither does he expect to be a candidate for office at the approaching election." That is well said, neither has his party ever entertained the most *remote* idea of placing his name upon a ticket, at the "coming" or any future election. Perhaps he may at some future period be elected as town Bailiff, though it is very doubtful. As to the elections resulting to "2d District's sorrow," "Scissors" need not apprehend any serious result; as he ("2d District") is at all times ready and willing to abide the decision of the people He "regrets very much that he questioned" me upon the holding of a "K. N." meeting in public—he need not be uneasy at all—"a meeting of such little consequence that three men outside the limits of your party, cannot be found that remembers anything in regard to its being held." There can be a score of as responsible and (perhaps) more respectable gentlemen (than this perfidious "Scissors") outside the party, that knew of the meeting. He asked to be cited to a meeting of any description held publicly by the "K. N." (American) party. This I have done and am not at a loss to name numbers of others, if I were disposed to gratify his curiosity. The gentleman of the *unterrified* party garbles me; he does not give a full quotation of what I assert, but alters to suit his own interest. I did not say there was some that could "*take*" the polls but "*take charge*." Will "Scissors" be kind enough to inform 2d District whether or not he ever made use of any language in regard to being one of 50 men who would go to the city (for any purpose) on the day of election.

The Democratic Central Committee, I have spoken of heretofore called a meeting through the "Denton Journal" for all Democrats to meet in Denton to transact business of impottance. They met and appointed (I believe) delegates to the Gubernatorial convention which met in Baltimore.—In to day's *Journal* I see a call for the "*Union*" party to hold district meetings for the purpose of electing delegates to the county nominating convention. They first called a meeting of Democrats, then one of the "*Union*" party, one signed by the 'Democratic Central Committee;' the other by the Central Committee. Will "Scissors" please inform his numerous readers to which of the two parties he is attached—whether the "Democratic" or "*Union*" or both? I will bid Mr. "Scissors" a friendly adieu for the present

The American party have had no meeting yet for the purpose of nominating a county ticket, probably there will be some action taken shortly, their aspirants are few, the Democratic are numerous. No less than seventeen are aspiring to the next Sheriffalty, they are sure that a nomination is equivalent to an election. The American state ticket will receive a hearty support. Mr. Hicks will do good service, while Mr. Purnell will leave the "Bogus" party trying to scratch "Dad" from under the defeat.—Democracy will stand no chance before Maj. McPhail. Mr. Seabrook will leave no stone unturned. They are all good conservative men, and no true American can find fault of them. Col. Groome cannot get the strength of the Democratic party—neither will the old line Whigs support him: his prospects for success are rather gloomy. Judge Stewart will be somewhat disappointed at the call of a convention: he wished to run as before, an *Independent—no party man*. The Hon. T. Townsend will make him declare his political principles The Judge will loose a number of votes on account of the manner in which he conducted himself at the beginning of the session.—He declared himself to be of neither party, That no party had any claims upon him.—He may look for a defeat at the hand of one T. Townsend. I have occupied more space than I anticipated and will have to give way at psesent.

Yours, 2D DISTRICT.

From Rio--Great Rise in Coffee.

NEW YORK, August 18.—Advices from Rio to the 20th of July confirm the great rise in coffee. The market was excited, and 100,000 bags had been taken in a few days for the European market and 37,000 for the United States. Flour is improving in price.

New York Correspondence.

NEW YORK, Aug. 15, 1857.

Midsummer! the sun has come down upon us; no roofs can shelter, no blinds can secure us.—We are moist with endless perspiration, and scared by the bills of mosquitoes. Coolness, mental or physical is the desideratum. To this end we indulge in harmless potations of Lager Bier. Lager has become domesticated among us; the tutelany divinity of "Deutschers," once known only as a sedative for ill-furnished stomachs and a companion of ill-flavored cheese, is now admitted freely into velvity Bareches, and mingle gratefully with turtle and high wines. Lager Bier has become one of the institutions of Gotham. A newly arrived Frenchman, taking observations among the Broadway shop-signs was heard to exclaim, "Lager Bier! Lager Bier! how many of ze peoples is called Lager Bier!" The next volume of French "notes on America," may be expected to contain some such remark as follows: "The cellars along the principal avenue of the metropolis of America, are occupied for business purposes, almost entirely by the extensive family of Lager Bier!"

The town is quite deserted by fashionable residents, but is well filled with strangers, who keep the theatres and concert rooms afloat. Trade is getting active with the South and Southwest especially, though the West has not begun to buy largely.—An immense stock of dry goods is pushed off to-day at auction. The auction sales are getting very popular among buyers, though the consigners of goods are not very much delighted at the "slaughtering" processes of these sales. Importers to whom goods are consigned care very little what they bring, as long as their five per cent. is secured. Cotton is up and disposed to climb higher, though it will be impossible for manufacturers to obtain advanced rates for their products. It is always easy enough to get an advance on raw material, but manufactured goods will not rise—the competition is too great. Wool is sustained in price. We look for lower rates in sugar: it is time that sweetening became cheaper; the world is getting sour, since punches have been manufactured of "straight" brandy and lemons.

The Cunningham baby is on exhibition, and is said to be patronized, but nothing else excites any interest. All the stirring men have caved in since the sun came out yesterday morning. Human nature can't be provoked to excesses in such weather. People have a tendency to inertia and the stages are full, to the delight of drivers.—Apropos of stages, we heard an anecdote of one of "Kips and Brown's" drivers the other day, which will serve to illustrate the habit of that fraternity. "Every trade has its secrets." Keyser, the engine of a dilapidated "bus" retired into the hay loft of the stage stables by night, in order to count over the gains of the day and make an official return to the proprietors. One of the proprietors happened to be esconsed in the said hayloft overheard the following interesting series of remarks. Keyser Loquitor: "Dere i h von dollar for Kip dere ish von dollar for Brown; dere ish von dollar for me. Dat ish tree. Dar ish von dollar for Kip. von for Brown, von for me. Dat ish six. Here is von for Kip, von for Brown: mein Gott! none for me!" Even it must be, and the two odd dollars for me. "That is very well counted, Keyser," responds Kip from the depths of a haycock, but, seeing we furnish the stages, I think you had better give us the odd dollars, and, I guess, Keyser, you hadn't better drive for Kip & Brown any more."

The town is thoroughly empty of the "ton." All the swells are expanding on the seashore, and crinoline is scarce in these streets. The workies are here, sweating away to raise the cash to foot the bills at dry goods stores, that weave the snares that catch the beaux, that tumble into matrimony at Saratoga and Newport. Pretty soon, they too will begin to learn the expense of dry goods. By the way, that atrociously funny man in "Harper's Weekly" must stop talking about hoops; that game is "played out" as the boys say.

CULPABLE CARELESSNESS.—On Thursday last while the steamer "Hugh Jenkins" was laying at the wharf at St. Michaels, a gentleman assisting a sick lady on board in passing to the saloon, fell headlong down the coalpit, the door of which had been left open severely injuring his person. This is the third accident of the kind which has happened on board of the same boat within the last twelve months. Why is this door left open and exposed, when passengers are going to and fro? the place itself almost as dark as "Erebus," without any guard or protection thrown around it. The trap is entirely invisible to a person entering this gangway to the saloon, Who is to blame? if any one hand on board, dismiss him: if the Captain, he ought to be fined or cashered.

HOLLOWAY'S PILLS purify the secretions which enter into the composition of the blood, and thus produce a salutary effect upon every organ, for the blood feeds and sustains every fibre of the body. The cures accomplished by this famous remedy are complete because it expels from the circulation the SEEDS OF DISEASE. The oldest practitioners are thunderstruck at the rapidity with which chronic dyspepsia and liver complaint are eradicated by Holloway's Pills, after all the aperients and and tonics in their repertoires have been tried in vain. The philosophy of the matter is this—Nature is first relieved of the poisonous influences which paralyze her action, and then assisted in her efforts to recuperate the system.
