We are truly rejoiced to find the heartiest responses every where on the Eastern Shore to our proposed Convention on the 14th and 15th of April, except from Kent, Queen Anne's and Dorchester counties—from the two last we will still indulge hopes. We trust that our common interests will yet prompt responsive action. In Queen Anne's we have heard that it has been imagined that this Eastern Shore Appropriation question operated in the late Senatorial question in Queen Anne's county, but from deliberate investigation we feel sure this is a mistake—other considerations entirely operated to defeat Gov. Grason in that contest. The friends of that gentleman since assert that he was in favor of the appropriation, and of course we cannot see how this question could have affected his election.—Kent and Dorchester are warm American counties and we fear that they will mirge their devotion to the common interests of the Shore in the appropriation to their desire to carry the Convention as an American measure. Warmly devoted as we are to the American party and ever have been, as we said before, we yet waive party in this great question. We must go for this great measure without regard to ulterior party results. We fear some other of our friends of the American party are going like Kent county, to give a side blow to this Convention for fear it may operate injuriously on the State Convention question. We know not what results may ensue, but as a true friend of the Shore, come what may, we go for the Shore.

We see our distinguished Eastern Shoreman, Judge Chambers, who so nobly stood by us last winter at Annapolis, headed the Kent meeting, declining to send delegates; we since learn the Judge is out as a candidate for the Convention. This looks ominous, but we know not the fact; it is mere rumor. In the meantime we will say let Kent come individually and manfully to the rescue. It is a *mass meeting—no county convention* is necessary. All can come and all will be welcome. Americans and Democrats "come upon your own hooks" regardless of the dictations of your party leaders—our country calls upon us, let no true Eastern Shoreman be laggard.—Queen Anne's and Dorchester do likewise. We have no fears for the other counties.—Old Worcester and Somerset are moving majestically. Caroline will be here by scores. Old Cecil is a unit on the question and will be down in solid phalanx. "Our country calls, let all obey!"

Death of Hon. P. B. Hopper.—Before this many of our readers have heard of the death of this highly esteemed and pious man. He breathed his last at his residence, near Centreville, Queen Anne's county, about 3½ o'clock, on Sunday morning last. The long period in which he has been acting as Judge of this judicial circuit, both as assistant and chief, has been marked by fairness and impartiality on every hand.—And in the demise of this gentleman, not only the community in which he lives, loses a valuable member, as a neighbor, a friend, and a useful man generally, but the Bars of the different counties to which he was so closely connected and the Church of which he has so long been a leading member will sensibly feel his loss.

France.—The consequences of the attempt to assassinate Louis Napoleon on the 14th of January, does not, it appears, end with the life of Orsini. The more violent followers of the Emperor do not hesitate to offer an opinion that the Emperor would be justified in taking vengeance on those neighbors who, as they say, harbor assassins. It is no rare occurrence to hear some men who have weight in the Emperor's councils promulgate opinions that Belgium should be invaded, and the Rhenish provinces seized. Others speak openly of a descent upon England.

Custom House Changes.—Among the changes that were made in the custom house officers last week, we notice that Jno. H. T. Magruder, of Prince George's county, has been appointed an inspector, in place of H. L. Edmondson, formerly of Talbot county.

The Kansas Question.—The Kansas bill passed the House of Representatives on Friday, with the Crittenden amendment, by yeas 120, nays 112.

Maryland Wheat Crop.—Advices from almost every section of the State are encouraging as to the appearance of the wheat crop.

The Cambridge Eagle.—Our remarks and those of our correspondent, in our last issue, in reference to the Railroad question, caused our friend on the other side of the Choptank to "soar aloft," and alight, not on "daddy's wood-pile" but on the heads of those who do not think as it does, in an article of a column and a quarter. We desire to give room this week to the call for the Eastern Shore Convention, and the long list of names attached thereto, and have not, therefore, time or space to point out the crooked course our lofty bird took in its last issue—its misconstructions and misrepresentations. We will endeavor to give it a notice next week.

The Fourth Annual Award of Premiums, by the Cosmopolitan Art Association, took place on the evening of the 25th ult. Though the Honorary Secretary, Levin H. Campbell, Esq., we learn that Powers' Greek Slave was drawn by Miss A. E. Coleman, of Cincinnati, O.

The beautiful oil painting, scene in the "Jerseys," was drawn by our townsman, Mr. A. P. Jump.

The members of the Association can see the drawing by calling at the Drug and Chemical store of Levin H. Campbell.

Spring Trade.—The most of our merchants are making preparations for the Spring trade. Some have already received a large stock of goods and others are in the city making their purchases. It will be seen by examining our advertising columns that Mr. James H. Grace, has just received a large lot. Messrs. Patchett & Wright have also added a large addition to their stock, making their supply complete.

Inspectors of Grain in Baltimore City.—The Governor has appointed the following inspectors of grain for Baltimore city under the act of the last Legislature:—William Frazier, of Dorchester county, (who will probably be the chief inspector;) John H. Dodson, of Dorchester county: James Treakle, of Howard county; T. D. H. Ruth, of Kent county; Teagle Townsend, of Worcester county.

Rev. Chas S. Spencer, of this town, for some time past Assistant in the Easton Academy, and son of M. Spencer, Esq., Principal of that Institution, will, in a short time, remove to the city of Baltimore, where he will enter upon his ministerial duties in St. Luke's Church, Franklin Square, of that city.

Crowded Out.—We are very sorry that we are compelled, for the want of space, to omit the Resolutions of the Easton Bar, expressive of their regret of the demise of the Hon. P. B. Hopper, Judge of the 7th Judicial circuit. Also several advertisements, among which are some of Dawson & Bro's., of Liquid Glue, Cork Wood, Brushes, Rack Salt, Pickles, Sauce, &c.

Election of Postmasters.—A bill has been introduced into the House of Representatives, proposing to make the Postmasters elective by the people.

Philadelphia M. E. Conference.—This body adjourned on Monday to meet next year in Philadelphia. The following are the Easton District appointments:

Easton District.—T. C. Murphy, P. E. Smyrna—Wm. H. Brisbane. Smyrna Circuit—S. W. Thomas. Dover—W. C. Robinson. Camden—R. W. Todd and Bryan. Frederica—J. S. Willis. Vernon and Williamsville Mission—J. Walton. Milford—G. Heacock and C. Shock. Denton—W. M. Warner. Greensborough—W. E. England and Hammond. Talbot—T. J. Quigley and McClintock. Easton—C. Hill and S. B. Hugh. Centreville—T. W. Simpers H. S. Thompson. Kent Island—W. E. Smith. Suddlersville—Palmetter and Quin. Kent—J. Asprill, Gardner. Millington—J. Allen, G. F. Cooper. Willow Grove—J. N. Magee, T. S. Willins. Wye Mission—P. W. Maclary.

The following is an extract of a letter from a farmer in Jay county, Illinois, to the American Industrial Association:—People here cannot pay their debts, things are so low; wheat 45 to 50 cents per bushel; butter 8 cts. per pound; eggs 5 cents per dozen and other things in proportion. We would like to have a good girl to help in housework, but to raise the amount of traveling expenses is out of my power. I have over $2,000 due, and cannot command $18 over and above current expenses; but if you are disposed to send me a girl, I will see that you get the money as soon as I can command it."

The Young Men's Christian Association at Pittsburg has distributed 52,000 bushels of coal to the poor without any reference to sect, class or nation. It supplied, in one day, forty families with fuel to keep them comfortable a month. Nearly 5,000 persons have been kept comfortable during the whole winter, through the efforts of this society.

Murder.—In Portsmouth N. H., last evening, the wife of Daniel R. Spinney was shot dead, while entering her house in company with her husband. Mr. Spinney also received a buckshot in his arm. Nelson N. Downing has been arrested for the crime, between whom and Mr. Spinney a difficulty had occured a short time previously.

Arrest for Bigamy.—A man named Gannett has been arrested at Boston on the charge of bigamy, having, as it is alleged, three wives living, two of whom he married within the past month. He was formerly a merchant in good standing in that city.

Harford.—Three negro boys belonging to Robert W. Holland, one to Mrs. Hanna Lee, and a negro girl of Henry W. Archer, ran away on Sunday last. None have yet been captured. A reward of thirteen hundred dollars is offered for the arrest of the four boys.

RELIGIOUS REVIVALS ON THE INCREASE.

The peculiar "pious awakenings" which especially manifested itself in England more than two centuries ago marking intervals of the world's history ever since, and which recently received a fresh impulse in New York, spreading thence to most of the prominent towns and cities in the United States, is now gaining quite a stronghold in Baltimore. Very many of our citizens are already alive to it. Prayer and religious meetings are being held daily in various sections of the city, which are largely attended, whilst a considerable number, once thoughtless and careless regarding spiritual things, are brought to acknowledge their errors, and give evidence of a determination to do better in future. Several of those assemblages, we learn, are literally crowded with anxious seekers, of all ages, sex, and sizes.

The history of these "pious awakenings" is somewhat singular. They appear to have characterized especial periods, varying from ten to twenty and thirty years, begining at a certain point, spreading, or eradiating with almost unerring certainty, throughout the whole christian world.—They have, as in this instance, often been known to immediately succeed terrible financial revulsions.

In addition to the above remarks from the Baltimore Patriot, we give the following from the Clipper of Saturday:

The prayer meeting excitement in Baltimore, is on the increase. In addition to the stated meetings under the auspices of the Young Men's Christian Association: the meetings at the Rev. Dr. Webster's church on Liberty street; the meetings in the Central Presbyterian Church, corner of Saratoga and Liberty streets; and similar meetings in quite a number of our Methodist churches, we are to have a general prayer meeting, on to-morrow afternoon in the Holliday-Street Theatre.

The occupancy of Burton's old theatre, in Chambers street, New York, for this purpose, the past week, has resulted in much good. Though the hour for service was not until 12 o'clock such has been the eagerness of the crowd to gain admittance that the doors were besieged as early as 9 A. M., and on Friday, the audience chamber being thronged almost to suffocation, a secondary meeting which was participated in with much spirit, was simultaneously held in the old bar room adjoining.

Improvements at the State House.—The Legislature having appropriated $50,000 for the improvements of the State House, for heating the House with steam, and lighting it with gas, and for the erection of a Fire Proof Record Building, Messrs. Hoffman and Crowley, the committee appointed to superintend the same, have already commenced their labors.

The Hall of the House of Delegates is to be enlarged by the addition of the House Committee Room, and the alcove forming an entrance to the Court of Appeals Room and the Chancery Office. This addition will make the Hall of the House of Delegates nearly twice as large as at present.—The Senate Chamber will remain intact. But the contemplated improvements will add several Committee Rooms to that Chamber, as also to the Hall of the House of Delegates.

☞ The McDonough estate, about which there has been so much litigation has at length been divided—the portion allotted to Baltimore city is about $600,000.

A Washington letter writer says that the bar of one of the fashionable hotels in that city has taken in $21,000 for drinks during the last fourteen months.

A recent discovery is about to be exhibited at Washington, through which the gas burners may be lighted by electricity.—The discoverer states that he can attach his apparatus to the street lamps of an entire city, and then, by the turn of a screw, ignite the jets of all of them in an instant of time, and extinguish them by the same process.

WHY WILL YOU DELAY?—why will you neglect that disease which is taking such deep root, and which gives you warning by that hacking cough, that you are fast ripening for eternity. Why encourage that pain in the side, the raising of blood those night sweats, or that difficult breathing which silently whisper in your ear that something must be done to save you from the grave of the consumptive. Why act so carelessly by permitting that disease to destroy your health, and hasten you to the tomb from whence no traveller ever yet returned

SILENCE THAT DREADFUL COUGH or death must carry you to your silent grave. Why delay while there is yet hope. Consumption is caused by impure humors of the blood being deposited in the cells of the lungs. Hence the lungs are like a spring of water, when rolled up by the dirt or mud, if clear water constantly flows through the springs impurities or mud will be conveyed away by the pure water. Just so with the blood when kept in a clean or pure state; as it constantly flows through the lungs, it carries away all corrupt matter, and perfect health will be the result. From two to four Pills taken every night or every other night, or enough to keep the bowels regular, will in reasonble time cure consumption. The reason these pills are used more than all others is because they are made of purifying vegetables, and cleans the body from all corrupt matter, and drive out disease of every description, quicker and in a milder way than other Pills. Dr. Morse's Indian Root Pills are sold by all dealers in Medicines.

EASTERN SHORE CONVENTION.

To the People of the Eastern Shore:

Fellow Citizens:—Believing that the rights of the Eastern Shore are more seriously endangered than at any previous period since the days of the Revolution, the undersigned, citizens of the Eastern Shore of Maryland, earnestly invoke your attendance at a Mass Convention, to be held at Easton, on Wednesday and Thursday, the 14th and 15th of April.

For nearly twenty years our very life-blood has been drawn from us in the shape of direct taxes. In opposition to our wishes and efforts, an enormous public debt was incurred for the construction of a magnificent system of public works, on the Western Shore, which had the effect to build up a great Emporium of wealth and power upon the Western Shore, without any commensurate benefit to our own. With a firm conviction of the diversity of interests which the Geographical position of the two Shores must ever occasion, our consent to the last of these appropriations was only yielded in consideration of a compact between the two divisions of the State, whereby the sum of one million of dollars was to be appropriated and held sacred by the State for internal improvements upon the Eastern Shore, and the faith of the State was solemnly pledged that that sum should be so expended upon this Shore.

Whilst the Western Shore exacted the prompt payment of her portion of this appropriation, we forbore to demand from the State the fulfilment of her plighted faith, until she had recovered from her own difficulties. Relying implicity upon her good faith and desiring to sustain her honor, we stood by her in that dark hour, when the cry of opposition to taxation was raised on the Western Shore: and when the State was so doubtful of her own right to impose this tax that she prohibited the courts from enquiring into its constitutionality. The history of the world can furnish no other example of equal endurance for the benefit of others, by a free people, from a mere sentiment of honor.

For two successive Legislatures, by the *unanimous* voice of our Eastern Shore Representatives, we have now claimed from the State the redemption of her obligation; and we have been spurned like mendicants from the doors of the Legislative Halls by the influence of the very power to whose growth we have so largely contributed.—But even this is not sufficient to satisfy the spirit of injustice and oppression. Since our claim is provided for by the present constitution, and our present power in the Legislature, has proved nearly sufficient to secure its payment, the constitution itself must be changed.

It has been boldly asserted that the State has a right to repudiate an obligation to her own citizens, because they have no legal power to enforce it; and that where an obligation is repudiated by a change in the constitution, the Legislature has no power to fulfil it.

The fiat has gone forth—before another regular session of the Legislature, the constitution is to be changed. Our representation, which is yet large enough to be troublesome to the Western Shore, is to be reduced still lower whilst that of the Western Shore is to be still further increased; and then our bondage will be complete.

In view of these impending dangers, we invoke all the citizens of the Shore, who concur in the views herein set forth, to lay aside their party differences, and to assemble in convention for the adoption of such measures as will secure an immediate settlement of our claim.

Let us present a united opposition to the evils with which we are now so seriously threatened, and which can only be averted by prompt and determined resistance:

The above are all the names that we have yet received—signers of the call of the Eastern Shore Convention. There are others, but we think the above sufficient to show the disposition of the people. These have been set up very hurriedly and we cannot vouch for their correctness, not having time to read them after being put in type.—[Ed.

Washington, 23d March, 1858.

To B. M. Bowdle, H. H. Goldsborough, Wm. B. Clark, Sam'l Hambleton, and others, Esqrs.:

Gentlemen:—I have just received yours of the 15th inst., requesting the use of my name in the proposed call of a Convention on our shore, to consider the most judicious measures to secure and perpetuate the best interests of our people. I wish it were agreeable for the citizens of the different counties of our shore, more frequently to meet and confer together upon our local affairs. Under such circumstances, no doubt a more fraternal feeling would be encouraged, and better results attained without at all conflicting with any legitimate claims of others. If we do not attend to, and carefully look after our own business, it is not probable others will do it for us.

If a proper spirit is maintained on the Shore, in place of being often referred to as a mere convenient adjunct to other sections a more liberal and respectful deference will be paid to our just representations. All that we desire is, firmly to insist upon our fair demands, and being urged in a true patriotic temper, certainly they will be met in a corresponding temper, on the part of our fellow citizens elsewhere. I can see no earthly objection to the proposed Convention, and if my name will be of any service in the promotion of the just interests of our Shore, you are at full liberty to make use of it. I have been so situated, that I am not so well posted as many of you in regard to the bearing and tendency of recent measures affecting our interests, or the merits of the question immediately under consideration, but I am sure I cannot be going astray when I am concurring with fellow citizens of so much experience, wisdom, and public spirit, in our section. I have rarely seen any public measure command such universal assent, and its temporary defeat attended with so much chagrin.

With my most respectful regards,
truly your ob't servant,
JAMES A. STEWART.

Affray and Fatal Termination.—An altercation, as we are informed, occurred a few days since between two students, at the College near Newark, Delaware, which resulted in the death of one named Roach, having been stabbed by a young man named Weaver

Falling of a Church Floor.—The floor of the new Roman Catholic church at Wallingford, Conn., fell last sunday morning during service, fatally injuring two and severely wounding thirteen of the congregation.

Difficulty at South Carolina College.—One hundred students at the South Carolina College have been suspended until October in consequence of insubordination. It appears that the faculty refused to suspend exercises on Thanksgiving day, and the students tarried the benches in the recitation room and perpetrated other exceptionable acts.

A SUPPLEMENT

TO the Ordinance entitled "an ordinance, to prevent chickens, fowls and ducks going at large within the limits of Easton."

Whereas it has been represented to the Commissioners of the town, that the original Ordinance, to which this is a supplement, has been found inconvenient and in a good measure ineffectual to answer this salutary purpose. For remedy whereof, therefore

Be it enacted and ordained, by the Commissioners of the town of Easton, duly elected and qualified, that it shall not be lawful for any person or persons to keep or raise within the limits of said town, except in pens or other inclosures any chickens, fowls or ducks; and if any chickens, fowls or ducks shall be found going at large within the limits of said town, it shall be lawful for the Bailiff of the said town, and he is hereby required upon the information of any of the inhabitants thereof or upon his own view to shoot, kill or destroy, all and every such chicken, fowl or duck.

And be it further enacted and ordained, that the Ordinance shall take effect from and after the 3d day of April next.

By order of the Board,
LEVIN H. CAMPBELL,
March 29 (apr 3-4wS) Clerk.

Commissioner's Notice.

APPLICATION having been made to the County Commissioners for a frame bridge over the "Old Tavern Branch," on the Centreville road, and for the repair of the causeway at that place, the Commissioners appointed John R. Hopkins, Cornelius Sherwood and Charles M. Jump, Esquires, Examiners, to report what was necessary to be done to put the said road in good order and bridge the same, and the probable cost thereof. The said Examiners have submitted the following

REPORT.

We the subscribers being appointed by the Commissioners of Talbot county to examine the road at the Old Tavern Branch, and report to the Commissioners what is necessary to be done at the said Branch to put the road there at in good condition, beg leave to submit the following report.—That we met at the aforesaid Branch on the 8th of February, and after a careful reconoiter of the same, think it absolutely necessary to straighten the road, for the following reasons; it will make the road look much better, it will require less causeway, and we believe it will cost less than to repair and put the old road in good condition.

John R. Hopkins,
Charles M. Jump,
C. Sherwood.

ORDERED

By the Commissioners of Talbot county that we shall proceed to carry out the recommendations in the foregoing report unless good and sufficient reasons are shown to the contrary. By order of the Board. T. K. ROBSON,
apl 3-4w Clerk.
