ECONOMY, IMPROVEMENT, CONVENIENCE.

Reeses' Manipulated or Phospho-Peruvian Guano.

The fact that this Guano is *equal to Peruvian, pound for pound*, is as well established as any fact can be established by HUMAN TESTIMONY AND EXPERIENCE.

Four Good Reasons Why Farmers Should Use this Guano
IN PREFERENCE TO PERUVIAN.

1st—It is fully equal to Peruvian on the first crop.
2d—Its cost, at present price of Peruvian, is $10 less per ton.
3d—It is perfectly prepared for *immediate use*, by DRILL or otherwise.
4th—It contains 50 per cent. more Phosphate than Peruvian, and therefore a more permanent improver of the soil.

This Guano is used by the following named gentlemen, among many others, from whom its results may be learned:

A List of Unpatented Certificates Ready for Patents
IN THE LAND OFFICE OF MARYLAND,
FOR TALBOT CO.

THE following is a list of the unpatented certificates which have been compounded on and are ready for Patents, in the Land Office of Maryland, for Talbot County. These certificates being unpatented are not recorded, and are becoming defaced and destroyed by time, and in consideration of this fact the Legislature of Maryland, at January Session, 1858, passed an Act, requiring the Commissioner of the Land Office to make out, and have published, in one newspaper in each county, a list of the unpatented certificates for said county. Persons holding the Lands enumerated below may save themselves serious trouble and loss by obtaining Patents thereon, which can be done by proper application to the Commissioner of the Land Office, otherwise the evidence of their title will become destroyed. There are also a number of certificates not included in this list which have not been compounded on and are liable to Proclamation. Persons holding these would do well to secure a reliable title at once.
