U. S. 7-30 LOAN.

The Secretary of the Treasury gives notice that subscriptions will be received for Coupon Treasury Notes, payable three years from Aug. 15, 1864, with semi annual interest at the rate of seven and three-tenths per cent. per annum,—principal and interest both to be paid in lawful money.

These notes will be convertible at the option of the holder, into Government Six per cent. gold bonds, payable not less than 5 nor more than 20 years from their date, as the Government may elect. They will be issued in denominations of $50, $100, $500, $1,000 and $10,000. All subscriptions must be for fifty dollars or a multiple of fifty dollars.

Notes will be transmitted to the owners free of transportation charges as soon after the receipt of the original Certificates of Deposit as can be prepared.

The notes draw interest from August 15, on all parts making deposits subsequent to that date will pay the interest accrued from date of note to date of deposit.

Parties depositing twenty-five thousand dollars and upwards for these notes at any one time will be allowed a commission of one-quarter of one per cent., which will be paid by the Treasury Department upon the receipt of a bill for the same certified to by the officer with whom the deposit is made. No deductions for commissions will be made from the deposits.

Special Advantages of this Loan.

As a National Savings Bank, offering a higher rate of interest than any other, and the only one at which any savings bank which pays its depositors U. S. Notes, considers it safe to invest the last circulating medium of the country, and it cannot pay in anything better. Its securities are either in Government stock or in notes or bonds payable in government money.

It is equally convenient as a temporary or permanent investment. The notes can always be sold for within a fraction of their cost and accrued interest, and are the best security for loans as collaterals for discounts.

Convertible into a Six per cent. Gold Bond.

In addition to the very liberal interest on the notes for three years, this privilege of conversion is now worth about three per cent. per annum, as the current rate for 7-30 bonds is not less than *nine per cent. premium*, and before the war the premium on six per cent. U. S. stocks was over seventy per cent. It will be seen that the actual profit on this loan, at the present market rate, is not less than ten per cent. per annum.

Exemption from State or Municipal Taxation.

But aside from all the advantages we have enumerated, a special Act of Congress *exempts all bonds and Treasury notes from taxation.* On this security, this exemption is worth about two per cent. premium, according to the rate of taxation in various parts of the country.

It is believed that no securities offer so great inducements to lenders as these issued by the Government. In all other forms of investment, the failure or stoppage of private names, or stock companies, or separate communities, only in part for payment, while the whole property of the country is held to secure the discharge of the obligations of the United States.

While the government offers the most liberal terms for its loans, it believes that the very strong appeal will be to the loyalty and patriotism of the people.

Duplicate certificates will be issued for the coupons. The party depositing must distinguish the *original* certificate the denomination of the coupons issued, and whether they are to be issued to bearer or payable to order. When securities are left with the officer receiving the money to be forwarded to the Treasury Department, a receipt will be given.

Subscriptions will be received by the Treasurer of the United States, at Washington, the several Assistant Treasurers and designated Depositaries, and by the

First National Bank of Baltimore, Md.,

and by all National Banks which are depositories of public money, and

ALL RESPECTABLE BANKS AND BANKERS throughout the country will give further information and

MILL NOTICE.

I HEREBY tender my thanks to the public for the liberal patronage heretofore extended—and hope by strict and prompt attention to business to merit a continuance of the same, both at my Grist and Saw departments. My mode of toll is, to weigh and wheat where as much as twelve pounds of toll (and more if so requested) will send back in writing the weight of both meal and flour, when persons can not come themselves. Farmers and merchants will find it to their advantage to have their grain ground instead of shipping all they have to Baltimore, and then send back for their flour, pay freights, commission, storage, &c. "A word to the wise is sufficient." For every 56 lbs. of wheat we grind 60 lbs. to the bushel or bushel and a half of flour and packed and for quality, the Easton Grain Mill stands probably unsurpassed by any mill on the shore.

Poco-Metalic Paint.

THE experience of the past season warrants the conclusion that the above is the cheapest and best Paint for several purposes, and especially for the bottom and decks of Vessels.—It is said to be, by those who have tried it, fully equal, if not superior to the *celebrated Patent Paint,* for the bottoms of vessels, in preventing them from *fouling,* and in its durability it has no superior. Its cost is only about ¼ that of the Patent Paint, and in this particular it should recommend itself to vessel owners. We mention the names of vessel owners and masters below, all of whom have tried it, and who will take pleasure in giving any information with regard to it that may be desired. They all speak of it in the highest terms:
