WM. L. BRADLEY'S PAT. SUPER-PHOSPHATE OF LIME and the SEA FOWL GUANO are not excelled by any fertilizer in the market. For Corn and other Spring crops they are preferable to No. 1 Peruvian.—Keep constantly on hand, and for sale by the Agents, Geo. M. Clark, near Hole-in-the-Wall. Letters addressed to the Agent, or Jas. T. Mullikin & Co., at Trappe, Talbot county, will receive prompt attention. Pamphlets to be had at Mullikin & Co.'s, Trappe, or at John W. Thursby's, Easton.

CERTIFICATES:

MOORMIA, Md., Aug. 5, 1867.

Mr. L. F. Detrick—Dear Sir: At your request I used one sack Sea Fowl Guano on my corn last spring, dropping 166 pounds to 2400 hills, and the result has been most gratifying.—I consider it one of the very best Guanos in the market, and shall continue to use. Yours, respectfully, G. M. SMITH.

FREDERICK, Md., July 27, 1867.

Mr. L. F. Detrick—Dear Sir: I used a few hills of your Bradley's Boston Phosphate upon my Corn this spring by way of trial, and I will say it far exceeds anything I have used in the way of fertilizers, and I have used several different kinds. I left two rows of Corn near the middle of my field that I did not put the fertilizer on, and at this date it is most astonishing to see the difference. The ground is of poor quality, yet the whole field looks splendid at this time, except the two rows, and from present appearances I need not expect much from them.—I also tried a few dozen rows on some rich bottom land, and the fertilized Corn is far ahead. I have made up my mind to use it hereafter, on high and poor land, until something else is introduced to beat it. As yet I have not found the Boston, truly,
