The Election on Tuesday.—The election passed off quietly in this county on Tuesday last, as it has ever done since the Republican legislature passed the law to register voters and to prohibit the sale of liquor on election day. Under that law every man must settle the question as to his residence before the day of election, before a register in each district, appointed by the Governor for that purpose, which prevents men from disputing at the polls, at a time when they are generally poorly fitted to settle difficulties and there being very little inducements to excite their passions, all lovers of order and quiet must admit that every community in the State has derived incalculable benefits from the enactment of those laws. As was expected, Talbot county gave a large majority for Seymour and Blair. There was a short vote polled but the Republican vote more than doubled that of last year, and had it not been for the encouragement of the Republicans their vote would have reached at least five hundred—a large number in the county not being registered. A number of Democrats already registered, either being disheartened or having good reasons enough to see the mischievous result should Seymour and Blair be elected, stayed at home, and had there been anything like an equal number of Republicans and Democrats voters in the county, Grant and Colfax would have swept everything before them, but the odds being so heavily against the Republicans there could be no hope except to lessen the Democratic majority, and we predict before the end of General Grant's administration, that after suffrage is given to all colors, a sufficient number of Democrats in the county will become so thoroughly convinced of the justice of elevating Grant and Colfax to the head of the nation, that the Republican party in the county, will be in the majority. We think they have enough already to show them that a Higher power than the strength or wisdom of man is governing the operations of this great work and that the success of this great people is not by any means dependent upon the Democratic party, but on the contrary, that all their hopes—it matters not how cheering at first—are soon crushed. The principles of the Democratic party have become odious to the American people, and they have been basing their hopes upon policy and availability for some time past, while the Republican party have presented their claims to the people, openly and boldly—based upon truth and justice and that all men should stand equal before the law. It is true the Democratic party have retarded somewhat the progress of the Republicans by prejudicing the minds of the people upon negro equality—social equality, &c., but they are getting used to that kind of twaddle, knowing that no amount of legislation can make the whites and blacks equal any more than whites are equal now. Social equality rests with individuals and every man and woman has the privilege of making his or her own associates and the result of the late election clearly shows that universal suffrage is not half as much dreaded and is not considered half as disastrous to the development and prosperity of the country as is the rule of the Democratic party. To be successful, the Democratic party must change their tactics. That party will never again rise to nationality while it clings to its old secession proclivities and pronounce the war a failure. It must throw aside its old exploded dogmas, progress with the times, stop nursing the negro, give every one a chance to do and say for himself, and if he does'nt prosper then it is his own fault.

For the information of our readers we here append the result in the county on Tuesday:

Destruction of a Printing Office by Fire.—On Friday morning of last week the office of the Cecil Whig, at Elkton, Md., was destroyed by fire. Mr. Ewing, the Proprietor, in a card issued after the fire, says:

"Our loss is very heavy, which is partially covered by insurance. We will endeavor to replace the lost materials, in part, without delay, and issue the *Whig* by the week after next, November 14. All the books of the office were saved. Under the circumstances it were needless to inform our numerous friends and patrons that it is all important that they should be prompt to settle subscription and printing bills. Those of our fellow-townsmen who assisted in saving what of value that escaped the fire, have one and all our warmest thanks."

President Johnson is reported as being very much put out on Tuesday evening at the completion of the election returns received at the White House, and to have declared that if he had been the candidate instead of Seymour, there would have been a different result.

☞ An engine attached to a westward bound freight train on the Central Ohio division of the Baltimore and Ohio Railroad, exploded near Claypool Station, on Tuesday, instantly killing Robert Brown, the engineer, and fatally injuring John Hurley, a fireman, and a brakesman named Gardner.

Two more unfortunates,
Weary of breath,
Rashly importunate,
Gone to their death.

Take them up tenderly,
Lift them with care,
Handle them gingerly,
Seymour and Blair.

It is our pleasant privilege this morning to congratulate our readers upon the triumph of patriotism and loyalty at the polls on Tuesday. Ulysses S. Grant and Schuyler Colfax were elected President and Vice President of the United States, a majority of the electors-at-large exceeding the number necessary for their election by not less than forty-three.

Fraud has been successful in giving New York to Seymour and Blair by a small majority to Hoffman by a somewhat larger total. Though the Democrats, in the midst of their national disaster, were actually thus enabled to offset the local success, yet it was not of such a character as to give hope to the party. Fortunately, also, the Legislature of the State will be Republican, and if Mr. Hoffman should be thrown out of his dishonestly acquired position, he will at least be controlled and rendered as nearly as possible harmless.—The Republicans control of the Legislature will also give us a Republican United States Senator to replace Mr. Morgan, whose term expires on the 4th of March next. New Jersey is also Democratic by a small majority. Oregon is claimed by the Democrats, but as all the returns received show Republican gains, the State may be fairly claimed as doubtful. Of the Southern States, we count North and South Carolina and Arkansas as clearly Republican. Missouri is also certain for the right side by at least ten thousand majority. The States known to have chosen Grant and Colfax electors are as follows:

	Electors.	Popular Maj.
New Hampshire,	5	8,000
Massachusetts,	12	80,000
Rhode Island,	4	6,000
Connecticut,	6	3,365

Minnesota,	4	5,000
South Carolina,	6	20,000
Florida,	3	chosen by legislature
Arkansas,	5	5,000
Alabama,	8	10,000
Total,	215	447,365

The States known to have chosen electors to vote for Seymour and Blair are as follows:

	Electors.	Popular Maj.
Kentucky,	10	30,000
Maryland,	7	25,000
Delaware,	3	1,000
Louisiana,	6	25,000
Georgia,	10	10,000
Oregon,	3	2,000
New York,	33	5,000
New Jersey,	7	1,000
Total,	87	169,000

These majorities are of course only approximate. Taking the figures as they stand, Grant and Colfax have more than two thirds of the Electoral College and nearly three hundred thousand majority on the popular vote. In point of fact, the Democrats have only honestly carried four States—New Jersey, Kentucky, Maryland and Delaware. Every State in the column outside of these was won by fraud, or by the intimidation and coercion of voters.

The city of Philadelphia has been redeemed from the disasters of last month. It was carried on that occasion on the Democratic State ticket by a majority of 165 on the Democratic candidate for Auditor General. On Tuesday the city gave Grant 1491 majority, this result in spite of gross frauds in some of the Democratic wards. For instance, the Fourth Ward, which in October gave the Democrats 1718, is returned as having given Seymour the preposterous majority of 3303 on Tuesday.

The Third Ward, which gave the Democratic State ticket 1167 majority, in October, was returned as having given Seymour 1544 majority. There were undoubtedly about 2000 fraudulent votes returned from these wards, making the real Republican majority over 3000. As it has happened these frauds have been of no avail, for the State of Pennsylvania has gone for Grant and Colfax by at least 20,000 majority.

The whole vote returned in the city on Tuesday is—For Grant, 60,482; for Seymour, 58,991—total, 119,473. In October, the city gave to Boyle, Democrat, 60,858; to Hartranft, 60,583—total, 121,441. The vote on Tuesday was 119,473, including the Third and Fourth Wards. Probably the real vote was not much over 117,500. As the figures stand, there is a falling off in the whole vote of 1868. Of these the Democrats lose 1817 and the Republicans 151. This is a gratifying result. The October election settled the future of that State and of the nation, and the result was a great discouragement to the Democratic ranks, while the Republicans, satisfied of the victory, neglected in some instances, to poll their votes.

It is not necessary that we should add more. The sober good sense of the country is shown in the result. The voice of the people has decided for patriotism, loyalty, honesty and peace. The new Rebellion has been quenched, and, under the firm guidance of Ulysses S. Grant and a harmonious Congress, the country will move in the high road of freedom and prosperity.

Caroline County.—We take the following items from the Denton American Union, of Thursday:

Church Dedication.—By Divine permission the new M. E. Church, in Denton, will be dedicated to the worship of Almighty God on Sunday, Nov. 22nd. Distinguished ministers will be present and officiate on the occasion. Preachers and people are cordially invited to attend.

Appointed.—Mr Franklin Temple, of Kenton, Del., has been appointed mail route messenger on the Md. & Del. railroad between Clayton and Hillsborough. The appointment was first tendered to Mr. Jos. B. Nickerson, but that gentleman declined it. The route pays $300 salary per annum.

Completed.—We notice that the colored people have completed their school house in this town, and a very creditable one it is too. In point of size and adaptability to school purposes it will compare most favorably with any school house in the county. The colored people intend to dedicate it soon, and are endeavoring to secure the services of Judge Bond for that purpose.

New Post Office Established.—At Ridgeby, the present terminus of the Md. & Del. R. R., a post office has been established and Mr. F. W. Ridgely been appointed postmaster.—This has a long needed what been supplied, for around Ridgely is a wide scope of country, the people of which have had heretofore to go all the way to Greenborough to attend to their mail matters.

The Frauds in New York City.

[From the New York Times.]

The returns from this city show the startling fact that in more than twenty districts *the polled vote exceeds the registered vote* all the way from five to fifty. It is by such infamous frauds, together with the illegal naturalizations, that the State of New York is made to give a Democratic majority. Let these cases be at once attended to, and no effort be spared until every election district, the vote of which has been vitiated by fraud, is rejected, as they must be, even if the case has to be carried to the highest judicial tribunal in the State.

THE PERUVIAN SYRUP,

(a protoxyd solution of the Peruvian bark of Iron) will do this effectually, and give strength, vigor and new life to the whole system.

Extract from Rev. [illegible], of Boston, Mass.

"For years I was a sufferer from Boils, so that my [illegible] persistent recurrence; finally a carbuncle formed in the small of my back, [illegible] my physician lanced large pieces of decomposed flesh were every day or two cut away, and the prostration, [illegible] and debilitation of the system were great. Before I had recovered from this attack, [illegible] carbuncles broke out higher up, and I was [illegible] threatened with a recurrence of the sufferings which I had so long been subjected, [illegible] this time that I commenced taking the PERUVIAN SYRUP. I continued taking it until I had used five bottles, since then I have had [illegible] for years I gave me partial and temporary relief, but this was one of the greatest [illegible] Other medicines markable remedy, [illegible] times, went directly to the root of the evil, and did its work with a thoroughness worthy of its [illegible] character."

☞ WOMAN.—Females, owing to the peculiar and important functions which they possess, their peculiar organization, and the offices they perform, are subject to many ailments. Hence there is no one tribute to so much misery, to their happiness and welfare, for none can be happy who are ill. Not only so, but no one of these various female complaints can long be suffered to run on without involving the general health of the individual and [illegible] producing permanent sickness and premature decline.—Nor is it pleasant to consult a physician for the relief of these various ailments, and only upon the most urgent necessity will a true woman so far sacrifice her greatest charm—her delicacy. The sex will then [illegible] to their hands simple specifics, which will be found efficacious in relieving and curing almost every female trouble or complaint peculiar to the sex.

Helmbold's Extract of Buchu.—Hitherto sufferers on in silence, or have resorted to [illegible] quackery vainly to draggists and doctors, who either merely tantalize them with the hope of a cure or apply remedies which make them worse. I would not wish to assert anything that would be injurious to the afflicted, but I am obliged to say that although it may be produced from excessive exhaustion of the powers of life, by laborious employment, unwholesome air, and food, profuse menstruation, the use of tea and coffee, and frequent childbirth, it is more [illegible] by direct irritation, applied to the mucous membrane of the vagina itself.

When reviewing the scores of these distressing complaints, it is most painful to contemplate the attendant evils consequent upon them. It is but simple justice to the subject to enumerate a few of the many sufferings which it largely affects the life, health, and happiness of woman in all classes of society, and which, consequently, affect more or less directly, the welfare of the entire human family. The mania that exists for precocious education and marriage, causes the years that nature designed for corporeal development to be wasted and perverted in the restraints of dress, the early confinement of school, and especially in the unhealthy excitement of the ball-room. Thus with the body half-clothed, and the mind unduly excited by pleasure, perverting in midnight revel the hours designed by nature for sleep and rest, the work of destruction is half accomplished.

In consequence of this early strain upon her system, unnecessary effort is required by the delicate votary to retain her situation in school at a larger day, thus agravating the evil. When one excitement is over, another is prepared to keep the mind morbidly sensitive to impression, while the now constant restraint of fashionable dress, absolutely forbidding the exercise indispensable to the attainment and return of organic health and strength; the exposure to night air, the sudden change of temperature; the cosmetic prostration produced by excessive dancing, must of necessity, produce their legitimate effect. At last, an early marriage caps the climax of folly, and the victim, [illegible] one, [illegible] utterly regardless of the plain dictates and remonstrances of her delicate nature, throws an unwilling subject of medical treatment. This is but a truthful picture of the experience of thousands of our young women.

Long before the ability to exercise the functions of the generative organs, they require an education of their peculiar nature, or, rather, of what is called the tissue, which is, in common with the female breast and [illegible] under the control of mental emotions at a period in the early period of life; and, as we shall subsequently see, these emotions, [illegible] habits which sap the very life of their victims are nature half-complained [illegible]

For Female Weakness and Debility, Whites or Leucorrhœa, Too Profuse Menstruation, Exhaustion, Too long Continued Periods, for Prolapsus and Bearing Down, or Prolapsus Uteri, we offer the most perfect specific known: Helmbold's Compound Extract of Buchu. Directions for use, diet, and advice, accompany.

Females in every period of life, from infancy to extreme old age, will find it a remedy to aid nature in the discharge of its functions. Strength is the glory of manhood and womanhood. Helmbold's Extract of Buchu is more strengthening than any of the preparations of Bark or Iron, infinitely safer, and more pleasant. Helmbold's extract Buchu, having received the indorsement of the most prominent physicians in the United States, is now offered to afflicted humanity as a certain cure for the following diseases and symptoms, from whatever cause originating: General Debility, Mental and Physical Depression, Imbecility, Determination of Blood to the Head, Confused Ideas, Hysteria, General Irritability, Restlessness and Sleeplessness at Night, Absence of Muscular Efficiency, Loss of Appetite, Dyspepsia, Emaciation, Low Spirits, Disorganization or Paralysis of the organs of Generation, Palpitation of the Heart, and, in fact, all the concomitants of a Nervous and Debilitated system. To insure the genuine, cut this out. Ask for Helmbold's. Take no other. Sold by Druggists and Dealers everywhere. Price $1.25 per bottle, or six bottles for $6.50. Delivered to any address. Describe symptoms in all communications. Address H. T. HELMBOLD, Drug and Chemical Warehouse, 594 Broadway, N. Y.

CONSUMPTIVES READ!

A Physician, who had consumption for several years, with frequent bleedings of the lungs, cured himself with a medicine unknown to the profession, when his case appeared hopeless. He is the only physician who has used it in his own person, or who has any knowledge of its virtues; and he can describe the effect of health he now enjoys to nothing but the use of this medicine, and nothing but utter despair and entire extinction of all hope of recovery, together with a want of confidence in all others, induced him to hazard the experiment. To those suffering with this malady he recommends a treatment he confidently believes will cure the disease. Medicine sent by express. Send for circular or call on
