BUSINESS NOTICES.

Merchants and others advertising by the year will be charged extra for advertisements out of their regular line of business.

THE PUBLIC DEBT.—The total amount of our public debt on the first of October last was $2,-631,643,718.95. The statement of the debt just made by Secretary McCulloch shows that the total amount of the debt on November first was $2,527,129,552 82. These figures are all given by the Secretary of the Treasury and are doubtless correct. They show a decrease of the debt, during the month of October, of $7,514,-105.13. The decrease of the debt during October has been to the extent of $250,472 a day, or about $10,436 an hour. While this decrease has been going on we have had Democratic orators and papers, during the entire month of October, declaring repeatedly that the public debt was increasing fearfully, and that unless Seymour was elected there was no hope for the country, &c. Speeches were made daily during the month by Democratic orators, giving a alarming increase of our public debt, while Secretary McCulloch says it averaged a decrease of $10,436 every hour during the month of October. The fact is our debt will continue to decrease as it has done. Our ability to pay it is growing daily. Millions of acres and thousands of laborers are yearly added to our producing force in the West. The South will now experience a revival of industry and business pursuits, and contribute largely to the revenues of the Government. A belief in the economical administration of the Government under Grant is widely entertained by men of all parties. He will cut down expenses on all sides. He has already reduced the army and navy, secured the abolition of the Freedmen's Bureau on the first of January next, and while he occupied the War Office we have Johnson's own admission that Grant reduced expenses several millions of dollars. It is estimated that the revenue from whiskey, tobacco and other luxuries would pay our debt in less than thirty years.

THE NOVEMBER METEORS.—According to the telegraphic advices the meteoric shower of November 14th was seen throughout the United States, and but partially in England. London was excluded from a participation in the exhibition, but Oxford enjoyed the privilege. According to the report from the United States Observatory at Washington, the stars fell at the rate of about 2500 an hour. This is not equal to the estimate made in November, 1867, which was about 8500 an hour. Nevertheless, there is sufficient agreement in the time at which these showers take place, being usually on the night of the 13th, and more particularly the morning of the 14th of November in each year, to show that the earth at that time of the year reaches a point where it passes through a region which by some unknown reason produces the exhibition. Astronomers are not yet satisfied as to the causes which produce these appearances. Nor are they reliable in their predictions as to their appearance, and they have no settled theory as to the cause. For instance, Commodore Sands, of the National Observatory at Washington, predicted in 1867, that the November meteoric shower of the present year would only be visible upon the Pacific coast, but he now records the refutation of his own theory. One circumstance from which much hope may be deduced is, that the meteors now being expected about the 12th, 13th and 14th of November, the whole scientific world is on the alert and watching for them. Hence, the trustworthy observations are much more numerous than formerly, and from the conclusions and facts which are known, many interesting principles may be ascertained.

Gen. George H. Thomas' report regarding affairs in the Department of the Cumberland, gives a valuable official history of the Kuklux Klan. The report draws a gloomy picture of the present condition of affairs in Tennessee and Kentucky. "It is mortifying to acknowledge," says Gen. Thomas, "that the State and local laws, and the more powerful force of public opinion, do not protect citizens of the Department from violence. Indeed crime is committed because public opinion favors it." This is the language of a dispassionate official report from one of our most honored Generals.

Official returns from all the counties but two of New York show the total vote of the State to be 848,278, of which 419,556 are for Grant, and 428,722 for Seymour; Seymour's majority, 9,-166. Hoffman's majority is 27,322. The official vote of New York city is returned as follows: Seymour 108,216; Grant 47,702; Hoffman 112,522.

Book Notices.

THE LITTLE PILGRIM.—The November No. of the Little Pilgrim appears in a new form and much improved in appearance. This is one of the finest little books for children that is published, and is edited by Grace Greenwood, who is acknowledged to be the best writer for children, in America.—Now is the time to subscribe or to get up clubs, as the finest list of premiums are offered that we have ever seen:—such as sewing machines, shot-guns, valuable books, large dolls, &c. Specimen copies will be sent free. Address Grace Greenwood, Philadelphia, Pa.

GODEY FOR DECEMBER.—*Godey for* December has been received and is well entitled to be called the "Holiday Number." It contains two steel plates, two Christmas plates, slipper pattern, &c. The following are the embellishments in this number:—Country Cousins. A fine steel plate—an interesting story, descriptive of the plate will be found among the literary contents. Colored fashion-plate, containing six figures. Dresses for a bride and bridemaid. Decorating the Church—a fluted plate. Good welcome slipper—printed in colors.—Large extension sheet, filled with a great variety of articles—dresses for ladies and children and other needlework for nursery, sight work, &c. Christmas Sheet—a pleasing engraving. The work-department contains a number of useful and fancy articles, &c. Commence your club immediately. Address L. A. Godey, N. E. corner Sixth and Chestnut St., Phil.

THE CORNHILL MONTHLY, published by Messrs. D. Lorthrop & Co., at 38 and 40 Cornhill, Boston, holds steadily on its way. The numbers for September and October, which lie before us, are brimming full of reading at once pleasant, varied and wholesome. The publishers have succeeded in making a magazine at a low price, which, in point of mechanical and literary excellence, is a credit to their own taste and judgment, and it is proving itself a real contribution to the sound and elevated literature upon which the true education of the people is so largely dependent. Messrs. Lothrop & Co., through their liberal offer of $500 as a premium for the best juvenile work, are securing a large number of manuscripts, and will probably find themselves with considerable material on hand that is likely to appear soon in the form of new and valuable books bearing their imprint.

AN EXTRAORDINARY PREMIUM OFFER.—$3.75 for $1.50.—Messrs. Daughday and Becker, the enterprising Publishers of Our Schoolday Visitor, Philadelphia, have just published a large, original, finely executed steel plate Engraving, from the hand of the celebrated Sartain, which is destined to become one the most popular pictures of the day. It has cost months of skillful labor and more than one Thousand Dollars in cash.

They offer this magnificent engraving, (which cannot be procured otherwise for less than $3,50,) and a copy of Our School Day Visitor, one of the oldest, handsomest and cheapest Young Folks monthly magazines published in this country, the price of which, alone, is $1,25 a year, both for $1,50! Where clubs are formed, a still greater reduction. Please send ten cents at once for sample of the Magazine, and circular giving a complete description of this elegant Engraving, and full list of Premiums for clubs.

Our Schoolday Visitor is a live, high-toned monthly for the young of to-day. Neither sectarian nor sectional; yet scorning neutrality, is independent in all things. Its aim, the instruction, amusement and elevation of our young people everywhere. Agents wanted. Address Daugday & Becker, Publishers, 424 Walnut Street, Philadelphia, Pa.

GEOLOGICAL EXPLORATIONS.—The interest in the recent discovery of the bones of a large fossil animal within our county, though it may be very limited with our own people, is very widely diffused among those who give themselves to geological studies. Every new discovery of this kind promises to solve some of those problems which exercise the minds of such students of nature, and consequently these gentlemen use not a little diligence in obtaining all the information possible of the circumstances of the discovery, and every effort to obtain the objects themselves. These bones have been sought for by Yale College, the Essex Institute, of Mass., and the Philadelphia Academy of Natural Sciences; but the determination of their owner to retain them within our own State, if possible, and the proffer by him, of them to the Maryland Academy of Sciences, has lead to the appointment by this Society, of a committee, constituted of some of its most learned naturalists, P. T. Tyson, Esq., Dr. J. G. Morris and P. H. Uhler, Esq., (who were joined by Prof. Edw. D. Cope, of Philadelphia,) to supervise and direct, and also to the appropriation of a sum of money for defraying the expenses of the explorations for the discovery of the remaining parts of the skeleton.—This committee last week, visited the county. Laborers were employed and excavations continued with a considerable force during two whole days, resulting in the discovery of other fragments of the mastodon, but none of its perfect bones. Some bones of another large animal, a kind of stag, or elk, were thrown up. It was found that to give a thorough examination of the locality, more time and greater expense would be demanded than was at first anticipated: so the party left on Thursday, disappointed to be sure, in a complete realization of their expectations, but encouraged to prosecute their scientific labors. Accordingly orders have already been received and funds transmitted for the continuance of the work.

The party were kindly entertained by Mr. Kirby, while pursuing their labors, at his marl pits, and doubtless they would have received other hospitable courtesies if their pre-occupation had not prevented their making extended acquaintance with our citizens.

THE EPISCOPAL CONVENTION.—The Clergy and Laity of the Protestant Episcopal Church, of the Eastern Shore, assembled in Convention, in Christ Church, in Easton, on Thursday last, by calling Rev. Dr. McKenny, temporarily, to the chair. After the organization was perfected, Rev. Mr. Crosdale was made permanent president and Rev. Dr. Bryan, secretary. Much interest is felt in the proceedings of the Convention as its business is of a very important character. A new Diocese is to be formed, a Bishop to be elected and his residence to be decided upon. On Thursday a vote was taken upon the name of the Diocese, when it was declared unanimously to be called the "Easton Diocese." We learn that Easton has subscribed $14,000 as a portion of the forty thousand for the Bishop's salary, which exceeds that of any other section. This, the name of the Diocese and all go to show a very strong probability that Easton will be the Bishop's residence. Yesterday afternoon, five votes were taken, four by the Clergy and one by the Laity. On the fourth vote the Clergy elected Bishop Lay of Arkansas by a majority of eight, over the Rev. Mr. Pinkney. The Laity then took a vote and rejected the selection of the Clergy. The Convention adjourned until 6 o'clock P. M.

On the assembling of the Convention at the specified hour, another vote was taken with the following result:—Clergy, 8 majority for Lay. Laity, 12 majority for Lay. He was declared Bishop of Easton Diocese.

A VISIT FROM THE TRAPPE BAND.—On Friday night of last week, the Trappe Band favored our citizens with a visit, taking rooms at the Brick Hotel. Col. Hambleton, the Democratic Congressman elect, was the recipient of the first serenade. After several tunes had been played, the Colonel made his appearance, gave the Band and friends accompanying it a hearty welcome, in a short speech. After partaking of refreshments, the Band returned to the hotel where friend Norris had prepared for them a sumptuous repast in the way of an oyster supper, &c.—After supper, the cloth being removed several toasts were drank to "mine host" and the Band discoursed some of their choicest airs for the edification of the proprietor and his lady. We do not desire to say anything to the disparagement of the Easton Band when we say that probably there is not a better amateur Band in the State than the Trappe Band.—The Easton Band plays well and would do credit to any town.

DOVER BRIDGE.—We learn that Dover Bridge is again very much out of repair, but that within a very short time it will be placed in the hands of workmen and put in good order. The lumber is already on the spot and we hope the work will be put through as speedily as possible, so that travelers may not have to endure the inconvenience but a short time. Steps should be taken in time, by the mail contractor, on the route between Easton and Federalsburg, in order that the mail may not be delayed.

☞ Bishop other distinguished ministers expected to be present at the re-opening of the M. E. Church, at Royal Oak, to-morrow, Rev. W. M. D. Ryan, D. D., will also be there, which will add much to the interest of the occasion.

☞ REV. S. B. SOUTHERLAND, President of the Maryland Annual Conference of the M. E. Church, will preach in the M. P. Church of Easton, on Tuesday evening, the 24th inst., at 7 o'clock.

ACCIDENT TO A MINISTER.—On Wednesday morning last a number of ministers arrived in the Eastland Light, to attend the Protestant Episcopal Convention at Easton and upon arriving at Easton Point, it was very early and quite dark, and in walking from the boat on the gang-board, Rev. Mr. Fiske, lost his footing and fell overboard. He was soon rescued, however, without receiving any serious injury.

NEW STORE.—Mr. Henry Hart, has fitted up the store room next to Mr. Robert Smith's watch shop, formerly occupied by A. Brown, Esq., and is opening a full assortment of confectionery and fruits, foreign and domestic. He also keeps on hand all kinds of cakes and will furnish them in any quantities needed.

FIRE.—On Monday of last week, the barn and the entire wheat crop and oats on hand, of Mr. Samuel Dickinson, in Trappe District, was consumed by fire. The friends and acquaintances of Mr. Dickinson deeply sympathize with him in his heavy loss. We learn the wheat amounted to several hundred bushels.

MR. WM. H. SMITH, Collector of Internal Revenue, has removed his office to the commodious room over the Hardware store of Messrs. Tripp & Mason, occupied as the Government Headquarters during the war.

COURT has been in session through the past week, Judges Wickes and Stump presiding, but the time has been occupied in assault and battery and other small cases. Monday next, is set apart as the day to try the murder case removed from Caroline county.

DEATH OF A MINISTER.—Rev. J. E. Elliott of the Philadelphia Conference, died at Newtown, Md., last week. The Revs. Messrs. Watson, Fisher and Martindale delivered appropriate addresses.

☞ THERE was thunder and quite a hail storm in this region yesterday and at night quite a fall of snow.

MD. & DEL. RAILROAD.—In fulfillment of their contract, the contractors of this road have just completed and brought down to Greensborough a part of the rolling stock for the road. It consists of a handsome passenger car—the finest, perhaps, in use on any accommodation trains south of New York—and four freight cars, all substantially built. A turntable has been completed at Clayton, and a Y is being put in at Hillsborough. Sidelnge will be laid at all the stations where these is none now, and the road will then be in complete running order. The next meeting of the stockholders takes place on the 9th proximo, when the road and its appurtenances will be turned over to the company.

POISONING CASE.—An attempt at suicide by poisoning was made at Felton, Del., one day last week. We have been unable to learn the particulars, or the incitements to the communal of so rash a deed. The party was one Gibson, a hotel keeper. His wife was also poisoned by the same drug, but whether he administered it or she swallowed it accidently we could not learn. Gibson had so far recovered at last accounts as to be about on crutches, but his wife was still in a critical condition.

POSTPONED.—The dedication of the new M. E. Church has been postponed until the 29th inst., one week later than the day first adverted. Bishop Scott and Dr. Ridgway are to be present and officiate. Preachers and people are invited to attend.

We have been told that two hundred persons from a single county in Pennsylvania will settle in this county this year. Part of them have been down and purchased land.

Worcester.

SOMETHING SINGULAR.—A lady near Snow Hill, this Fall a year, placed a sweet potato in the mouth of a glass jar, filled with water, which sprouted and formed a beautiful vine which lasted all the winter. In the Spring she bedded the same potato, which had been thus preserved in a perfectly sound state, and from the sprouts drawn from it has raised 17 lbs. of this excellent esculent. It would thus seem a sure way of preserving sweet potato slips from rotting, a thing very difficult to avoid.

CONVICTS ESCAPED.—The two negroes, Wm. Wells and Wm. Wilson, convicted in Princess Anne, and under sentence of death for the murder of the Captain and Mate of the schooner "Brave," escaped from the Somerset county jail, on Tuesday night last. The Sheriff has offered a reward of $300 for their apprehension, or $150 for the arrest of either of them.

Queen Anne.

THE GUILLEMART MURDER.—The trial of Martha Starkey, negress, indicted for the murder of Remy Guillemart, came to a close on Saturday, the Court rendering a verdict of "not guilty." This verdict was the only one which the law and the evidence would warrant, though there are very few, if any, who think she was innocent. All her confessions were made it seems, after she was threatened with punishment, and were ruled out of evidence. There were other circumstances which pointed strongly to her as the guilty party, but the chain was not strong enough to warrant a conviction. She will, therefore, be turned out upon the community through the imprudence of a drunken man, and leave the vengeance of an insulted majesty to go unappeased. It is believed the confessions which were made would have been made as well without the threats as with them, and by this means the guilty party, whoever it may be, would have been brought to justice. But an imprudent act has thwarted it all, and leaves a people considerably incensed thereat.

Some talk of lynch law, we hear, has been had. We hope, however, the people will not permit themselves to be carried that far in the matter. Lynch law is a dangerous instrument, and is very unsafe for a community to resort to. It is much better to bear the ills we have than to fly to others we know not of. We cannot foresee the evils which would result from such an ill advised step. The innocent might be made to suffer for the guilty, and the law be doubly violated. We hope all those who hear this thing spoken of, will endeavor to discourage it.

BOILS.

Like the volcano, Boils give issue to the foul and fiery contents of the deep interior. To remove the cause of such suffering it is only necessary to vitalize the Blood by supplying it with its *Life Element*, IRON.

THE PERUVIAN SYRUP,

(a protected solution of the Protoxide of Iron) will do this effectually, and give *strength, vigor* and *new life* to the whole system.

Extract of a Letter from REV. RICHARD S. EDES, *of Bolton, Mass.*

"For years I was a sufferer from Boils, so that my life became wearisome through their frequent and persistent recurrence: finally a carbuncle formed in the small of my back. During its progress large pieces of decomposed flesh were every day or two cut away, and the prostration and general disturbance of the system were great. Before I had recovered from this attack two smaller carbuncles broke out higher up, and I was again threatened with a recurrence of the sufferings to which I had so long been subjected. It was at this time that I commenced taking the PERUVIAN SYRUP. I continued taking it until I had used five bottles; since then I have had nothing of the kind. For years I was one of the greatest sufferers. Other medicines gave me partial and temporary relief, but this remarkable remedy, with a kind and intuitive sense, went directly to the root of the evil, and did its work with a thoroughness worthy of its established character."

☞ WOMAN.—Females, owing to the peculiar and important relations which they sustain, their peculiar organizations and the duties they perform, are subject to many sufferings. Freedom from these contribute in no small degree to their happiness and welfare, for none can be happy who are ill. Not only so, but no one of these various female complaints can long be suffered to run on without involving the general health of the individual, and ere long producing permanent sickness and premature decline.—Nor is it pleasant to consult a physician for the relief of these various delicate affections, and only upon the most urgent necessity will a true woman so far sacrifice her greatest charm as to do this. The sex will then thank us for placing in their hands simple specific which will be found sufficient in relieving and curing almost every one of these troublesome complaints peculiar to the sex.

HELMBOLD'S EXTRACT BUCHU.—Hundreds suffer on in silence, and hundreds of others apply vainly to druggists and doctors, who either merely tantalize them with the hope of a cure or apply remedies which make them worse. I would not wish to assert anything that would do injustice to the afflicted, but I am obliged to say that although it may be produced from excessive exhaustion of the powers of life, by laborious employment, unwholesome air and food, profuse menstruation, the use of alcoholic liquors, and frequent childbirth, it is far oftener caused by direct irritation, applied to the mucous membrane of the vagina itself.

When reviewing the causes of these distressing complaints, it is most painful to contemplate the attendant evils consequent upon them. It is but simple justice to the subject to enumerate a few of the many additional causes which so largely affect the life, health, and happiness of women in all classes of society, and which, consequently, affect more or less directly, the welfare of the entire human family. The mania that exists for precocious education and marriage, causes the stamina that nature designed for corporeal development to be wasted and perverted in the sustainment of ideas, the early confinement of school, and especially in the unhealthy excitement of the ball-room. Thus with the body half-clothed, and the mind unduly excited by pleasure, perverting in midnight revel the hours designed by nature for sleep and rest, the work of destruction is half accomplished.

In consequence of this early strain upon her system, unnecessary effort is required by the delicate votary to retain her situation in school at a larger day, thus aggravating the evil. When the excitement is over, another in prospective keeps the mind morbidly sensitive in impression, while the now constant restraint of fashionable dress, absolutely forbidding the exercise indispensable to the attainment and return of organic health and strength; the exposure to night air, the sudden change of temperature; the complete prostration produced by excessive dancing, must of necessity, produce their legitimate effect. At last, an early marriage, saps the vitals of misery, and the unfortunate one, hitherto so utterly regardless of the plain statutes and remonstrances of her delicate nature, becomes an unwilling subject of medical treatment. This is but a truthful picture of the experience of thousands of our young women.

Long before the ability to exercise the functions of the generative organs, they require an education of their peculiar nervous system, composed of what is called the tissue, which is, in common with the female breast and lips, evidently under the control of mental emotions and sensations at an early period of life; and, as we shall subsequently see, these emotions, when excessive, lead long before puberty, to habits which sap the very life of their victims ere nature has self-completed their development.

For Female Weakness and Debility, Whites or Leucorrhœa, Too Profuse Menstruation, Exhaustion, Too Long Continued Periods, for Prolapsus and Bearing Down, or Prolapsus Uteri, we offer the most perfect specific known: HELMBOLD'S COMPOUND EXTRACT OF BUCHU. Directions for use, diet, and advice, accompany.

Females in every period of life, from infancy to extreme old age, will find it a remedy to aid nature in the discharge of its functions. Strength is the glory of manhood and womanhood. Helmbold's Extract of Buchu is more strengthening than any of the preparations of Bark or Iron, infinitely safer, and more pleasant. Helmbold's extract Buchu, having received the indorsement of the most eminent physicians in the United States, is now offered to afflicted humanity as a certain cure for the following diseases and symptoms, from whatever cause originating: General Debility, Mental and Physical Depression, Imbecility, Determination of Blood to the Head, Confused Ideas, Hysteria, General Irritability, Wakefulness and Sleeplessness at Night, Absence of Muscular Efficiency, Loss of Appetite, Dyspepsia, Emaciation, Low Spirits, Disorganization of Paralysis of the organs of Generation, Palpitation of the Heart, and, in fact, all the concomitants of a Nervous and Debilitated system. To insure the genuine, ask for Helmbold's. Take no other. Sold by Druggists and Dealers everywhere. Price $1.25 per bottle, or six bottles for $6.50. Delivered to any address. Describe symptoms in all communications. Address H. T. HELMBOLD, Drug and Chemical Warehouse, 594 Broadway, N. Y.

CONSUMPTIVES READ!

A Physician, who had consumption for several years, with frequent bleedings of the lungs, cured himself with a medicine unknown to the profession, when his case appeared hopeless. He is the only physician who has used it in his own person, or who has any knowledge of its virtues; and he can ascribe the degree of health he now enjoys to nothing but the use of this medicine; and nothing but utter despair and entire extinction of all hope of recovery, together with a want of confidence in all others, induced him to hazard the experiment. To those suffering with this malady he recommends a treatment he confidently believes will cure the disease.—Medicine sent by express. Send for circular or call on DR. E. BOYLSTON JACKSON,

VALUABLE PROPERTY

FOR SALE OR RENT.

THE MOST DESIRABLE LOCATION IN THE TOWN OF EASTON.

THE subscriber offers at private sale the well known property on Dover street, in the town of Easton, which he at present occupies.—It comprises nearly one Acre of ground, improved with frame DWELLING, PANTRY, SMOKE HOUSE, WOOD SHED, STABLING for 4 horses, Corn House, Carriage House, all in tolerable state of repair.

The Dwelling contains Eight Rooms with Hall entrance, besides Kitchen with two Servant's rooms above, and large two room dry cellar, and Gas through the house.

THE GARDEN

is one of the largest and best in the town, being exceedingly rich in soil, and well set with almost every description and variety of Fruits, Shrubbery and Flowers.

There is also a large shade yard, small side yard, and commodious back yard, with a pump of excellent water almost at the kitchen door.

Situated on a beautiful street, and near the terminus of the Md. and Del. R. R., it presents altogether the most eligible site for building purposes, in the town. For terms apply to the premises, or to S. B. HOPKINS,

TRUSTEE'S

Public Sale

OF A BEAUTIFUL

SALT WATER SITUATION.

UNDER and by virtue of a Deed of Trust from J. A. Wisner and Caroline his wife, George W. Rogers and Elsie D. Rogers, bearing date the 24th day of October, 1868, the undersigned, as Trustee thereunder, will offer at public sale, in front of the Court House, in Easton, on

TUESDAY, 8th of December next,

between the hours of 12 M., and 2 o'clock, P. M., of that day, that FARM situated in Bay Hundred District, wherein J. A. Wisner lately resided, being a part of the original tract known as

"Rich Neck,"

This farm contains

100 ACRES OF LAND,

80 acres of which are arable, and 20 acres heavily set in OAK and PINE TIMBER, and the Steam Saw Mill of Messrs. Tunis & Son is within half a mile of the woods. The farm is improved with a good

TWO STORY FRAME DWELLING,

a large BARN and STABLES and TENEMENT HOUSE, all in good repair. Also

500 YOUNG PEACH TREES.

This property is beautifully located on Miles River and the Eastern Bay, and in full view of the Chesapeake Bay. Oysters, fish and terrapins abound in their season, and it is one of the finest duck'ng shores in the county. The farm will be sold subject to the mortgage, which will be in two and four years from the 1st of May next.

TERMS OF SALE:

Are $500 in cash on the day of sale, and $1500 on or before the 1st day of May, 1869, the balance in two and four years, secured by the bond of purchaser, with approved security, bearing interest from day of sale. Stamps and title papers at the expense of purchaser.
